July 1, 2021

Agenda

01 Purpose of Dashboards

02 Current Dashboards

03 Brief Demonstration

04 Questions and Answers

What Is A Dashboard?

Data visualization tool that allow all users to understand the analytics relevant to business, department or project.

Advantages of Dashboards

Even for non-technical users, dashboards allow them to participate and understand the analytics process by compiling data and visualizing trends and occurrences.

Operational Dashboards

- Permanent Housing Placements
- A Bridge Home
- Project Homekey
- Tiny Homes
- Safe Parking
- Project Roomkey
- Winter Shelter
- Older Adult
- Homeless Count
 - By Council District, Service Planning Area, LA Continuum of Care

QUESTIONS
