2017-18 Adopted Budget Detail of Department Programs

The Detail of Department Programs for the Adopted Budget (White Book) expands on the material contained in the Proposed Budget Detail of Department Programs (Blue Book) by reflecting all of the final modifications approved and adopted by the City Council. All items amended or added by the City Council during the budget adoption process have a title or sub-title which clearly shows the item number of the Council's action, such as "Budget and Finance Committee Report Item No. 1" or "Council Motion No. 1." Items without these titles are presented in the exact same manner as proposed by the Mayor and included in the Blue Book; these items were adopted by the City Council without amendment. This 2017-18 White Book contains information on all of the non-proprietary departments as well as on the Department of Recreation and Parks and the Library Department.

The White Book serves as a supplement to the Adopted Budget, which presents financial information for departments by line item. The Adopted Budget also includes financial summaries for the City's special funds, information on the proprietary departments, and other pertinent information.

THE WHITE BOOK

I. OVERVIEW

This supporting document – the “Blue Book”- describes the Mayor’s proposed changes to the adopted budget for the ensuing fiscal year. The Blue Book supplements the budget document which presents financial information by line item. The Blue Book describes budgetary changes by program within each department. These changes are further subdivided into major categories.

The Blue Book is comprised of three sections as follows:

- Section 1 presents changes in appropriations for budgets controlled by the Mayor and Council, such as the Police, Fire, and Transportation departments. Changes are shown for each program and each department. In addition, this section summarizes contractual services and authorized position counts for each department.
- Section 2 presents changes in appropriations for budgets of departments having control of their own funds and depending upon the General Fund for some of their operating funds, such as the Library and Recreation and Parks departments.
- Section 3 presents changes in appropriations for selected non-departmental funds as well as provides supplemental schedules that summarize the funding provided for items such as alteration and improvement projects, the City’s Pavement Preservation Plan, and the Sidewalk Repair Program.

II. THE PRESENTATION OF DEPARTMENT BUDGETS

SUMMARY OF FUNDING AND STAFFING

The first page of each department’s material summarizes their historical level of funding and staffing, significant financial and position changes from the current year’s adopted budget to the ensuing year’s proposed budget, distribution of funding by program, and main budget items.

RECAPITULATION OF CHANGES BY ACCOUNT AND FUNDING SOURCE

This page provides a summary of changes in appropriation by budgetary account and funding source. A detailed explanation of the changes appears on the following pages.

CHANGES APPLICABLE TO VARIOUS PROGRAMS

Budgetary programs are subsets of department budgets within which the department provides services. Often budgetary programs align with the department’s organizational chart, with department sections or divisions summarized within programs. Some smaller departments may only have one budgetary program, while larger departments can have ten or more programs. Budgetary changes that are department-wide or affect multiple programs are shown in the Changes Applicable to Various Programs section.

CHANGES APPLICABLE TO SINGLE PROGRAMS

Subsequent to the Changes Applicable to Various Programs section are individual single program pages. The program title, the Priority Outcome with which the program best aligns, and a summary description of the services provided within the program are shown at the top of the first page of each program. Performance metrics are also provided for most department programs. While not exhaustive, these metrics are representative indicators of progress towards Priority Outcomes. Additional information on the City’s performance metrics can be found at <http://data.lacity.org>.

The first item for each single program is the Apportionment of Changes Applicable to Various Programs. This item reflects the portion of changes in funding and position authority that were made in the Changes Applicable to Various Programs section that are applicable to the single budgetary program.

CHANGES IN COSTS, POSITIONS, AND CHANGE CATEGORIES

Financial changes in departments are expressed in terms of direct and total costs. Changes in direct costs consist of changes in departmental appropriations for salaries, expense, equipment, and special accounts. Changes in total costs consist of the sum of direct costs plus estimated related costs for employee benefits such as retirement, health, and dental insurance. Additional costs related to departmental operations that are appropriated in other budgets such as in the Los Angeles City Employees' Retirement System for retirement and Human Resource Benefits for health, dental, and other insurance programs are reported as related costs in Exhibit G of the budget document.

Personnel changes are expressed in terms of the number of permanent, regular positions to be added or deleted from the adopted budget. Changes in temporary personnel (referred to as resolution authority positions) are not included in the permanent position total. All new positions are subject to allocation by the Board of Civil Service Commissioners.

OBLIGATORY CHANGES

These are changes that must be provided according to established policy such as interim salary adjustments and changes in funding to reflect the number of working days during the ensuing fiscal year. Changes mandated by Federal, State, or City law, as well as items approved by the Mayor and Council during the previous fiscal year after the budget was adopted, are also included here.

DELETION OF ONE-TIME SERVICES

These changes are provided according to established policy that includes the deletion of funding for resolution authority positions and the deletion of all one-time funding provided in the previous year for expenses or equipment.

CONTINUATION OF SERVICES

These funding changes are needed to continue the existing level of departmental services. These changes may include continuing previously authorized resolution authority positions, making previously authorized resolution authority positions into regular authorities, or providing funding for items that were approved in the current fiscal year after the budget was adopted. The continuation of existing services may require additional funding resources due to salary or expense increases.

INCREASED SERVICES

These are funding increases to augment existing services levels within programs or functions. These changes include workload or service level increases where the Mayor has directed additional resources to augment the service based on budget priorities.

REDUCED SERVICES

These changes reflect a reduction in service level within programs or functions due to funding priorities or the need to transfer existing funding to a different existing or new service. Changes include workload changes, service level changes, or changes to the type of service provided.

EFFICIENCIES TO SERVICES

These changes are a result of efficiency or productivity improvements that affect service levels. Some efficiency changes may appear to increase funding for a particular service; however, efficiencies may be gained by departments providing increased services to the public or by allowing the public to have better access to City departments and information.

NEW SERVICES

These are changes where additional resources and funding have been provided within departments' budgets for them to provide a new service to the public.

NEW FACILITIES

These changes reflect funding or position increases to open, operate, and maintain new City facilities. New facilities may include animal shelters, fire stations, police facilities, or recreation centers.

RESTORATION OF SERVICES

These changes reflect the addition of funding or positions for services that were reduced in a prior year. This category typically includes items that were previously reduced on a one-time basis in the prior year, but can also include services that were decreased during economic downturns that are being restored to former service levels.

TRANSFER OF SERVICES

These changes reflect the transfer of funding and/or positions between departments that will result in better alignment of City services provided by departments. Usually, these transfers do not increase or decrease the overall funding contained in the budget.

OTHER CHANGES OR ADJUSTMENTS

This category reflects changes that either fit into multiple categories or do not fit neatly in any of the categories above. These changes are often technical in nature and may include position changes where funding is not increased or decreased.

SUPPLEMENTAL SCHEDULES

A Detail of Contractual Services Account, listed by budgetary program, is provided for all departments. This document provides a summary of the contracts for which a department is authorized to enter into utilizing the funding provided within the Contractual Services Account. For departments that have Travel funding, a detail of the authorized travel, listed by Convention and Business travel, is also provided.

DETAIL OF POSITIONS AND SALARIES

Authority to employ personnel in positions that are listed for each department, office, or bureau is limited by the number of authorities provided, funds available for the payment of salaries, and by all applicable salary and personnel provisions of codes, ordinances, and resolutions as adopted.

Salary information under the column heading "2017-18 Salary Range and Annual Salary" shows the salary range number on the left and the values for the lowest and highest annual salary amount associated with that range on the right. The salary range number represents the hourly rate for the first salary step in the salary range (e.g., 1625 = \$16.25). If the salary range number is followed by a value in parentheses, such as 1625(2), the value in parentheses represents the starting step for a classification if the typical starting step is not the lowest step (step one). However, the annual salary amounts provided to the right of the salary range number will display the lowest (step one) and highest annual salary amounts of the range, regardless of whether the typical starting step is higher than step one. The number of steps in a salary range as well as the differential between salary steps varies by classification. All annual salary amounts are rounded to the nearest dollar.

Flat-rated or hourly rate classes have a single salary amount shown. Police Officer, Firefighter, and Attorney salaries show the annual salary spread for the class. These salaries are structured into salary schedules that are different than the salary range structure of civilian employees.

All salary figures reflect projected 2017-18 salaries (effective July 1, 2017) to the extent available. Salary rates for some classifications are subject to change according to the prevailing wage pay schedule; for these classifications the Building Trades Council will submit basic wage information to the City Administrative Officer.

As-Needed Position authority is provided and controlled by appropriations in most instances and/or by number of positions in others. An individual department/bureau is provided with listings of authorized as-needed position classifications.

Departments routinely submit personnel authorization reports (Employment Level Report) for each of the 12 monthly periods to the City Administrative Officer to show the average level of employment and utilization of personnel that is contemplated with budgeted funds. New positions may only be financed for part of the year in accordance with a realistic recruiting and hiring program.

III. SELECTED BUDGETARY TERMS

The following budgetary terms appear in the Blue Book. To promote clarity for the reader, they are defined below:

EMPLOYEE COMPENSATION ADJUSTMENTS

During each budget year, the City may provide a cost of living adjustment for City employees. Funding for civilian and/or sworn employees is placed in individual departmental budgets.

SALARY STEP PLAN AND TURNOVER EFFECT

The City compensation system is composed of compensation ranges. Ranges have multiple steps or levels. Most ranges have either eleven or fifteen steps. Assuming satisfactory performance, incumbents in each range move from step to step over a period of time.

The Salary Step Plan and Turnover Effect is the estimated net effect of the salary step effect and the turnover effect for the budget year. The salary step effect reflects employees who stay with the City over the course of the budget year. Those employees may move from their existing salary step to a higher salary step. The timing and resulting cost of this movement varies for each position.

Simultaneously, employees who have been with the City for a period of time may vacate their position at a certain salary step (generally, the salary step is higher the longer the time of service in the position). Replacements for those employees often are hired at lower salary steps. The resulting cost difference is the turnover effect.

CHANGE IN NUMBER OF WORKING DAYS

Due to differences between the City's pay schedule and the calendar year, the number of working days in a fiscal year can vary by one or two days. The cost impact of this variance is estimated and included in the Proposed Budget. As 2016-17 contained 261 working days for City employees and 2017-18 will contain 260 working days, funding is reduced to reflect the one fewer working day.

FULL FUNDING FOR PARTIALLY FINANCED POSITIONS

When new positions are approved, departments may only be provided partial year funding to allow sufficient time to hire qualified staff. Additionally, departments may have one-time salary reductions in a given fiscal year to reflect savings generated by positions filled in-lieu, held vacant for employees on long-term leave, and/or anticipated attrition. This budget item is used during the following budget cycle to provide departments full funding for those positions and salary accounts that were partially funded in the prior year.

DELETION OF ONE-TIME EXPENSE, EQUIPMENT, OR SPECIAL FUNDING

Each year, the adopted budget contains funding for one-time expenditures. Funding for these items is deleted from the following year's budget as a technical change. These technical changes are shown in order to allow the reader to follow all the changes made to the budget and better compare the Mayor's Proposed Budget with the current year adopted budget. New or continued one-time expense, equipment, or special items must be justified separately for inclusion in the proposed budget.

DELETION OF FUNDING FOR RESOLUTION AUTHORITIES

Each year, the adopted budget contains funding for resolution authority positions. Due to their temporary nature, funding for these items is deleted in the subsequent year's budget as a technical change. Continuation of funding and position authority for these positions is dependent upon available funding and continuing need in the next fiscal year. This technical change is shown to allow the reader to follow all the changes made to the budget and better compare the Mayor's Proposed Budget with the current year budget.

REALIGNMENTS

Routine changes are often required to move positions and/or funding between budget programs, accounts, or funds to align department expenditures with anticipated needs and available funding. These changes are typically referred to as Program Realignments (moving positions and funding between budgetary programs), Account Realignments (moving allocated funding between different accounts, such as Contractual Services or Salaries As-Needed), and Funding Realignments (moving allocated funding between funds, such as the General Fund or the Sidewalk Repair Fund). These items typically have no direct or related cost, as there is no change to the overall funding provided to the department.

MICLA

The Municipal Improvement Corporation of Los Angeles (MICLA) is a 501(c)4 non-profit financing corporation established by the City in 1984 to assist in the financing of capital projects and equipment. MICLA is directed by a five-member board whose members are appointed by the MICLA Board and confirmed by the City Council. The City Administrative Officer is the liaison between the MICLA Board and the City.

POSITION AUTHORITIES

Position authorities are categorized and granted depending on the need and length of time for the position. The various position categories are listed below:

- Regular authorities are considered long-term, permanent, and ongoing positions required by the City and are authorized by an ordinance adopted by the Council and Mayor.
- Resolution authorities are considered limited-term, temporary positions required by the City and are authorized by Council resolution. These are generally associated with projects of limited duration or funding.
- Substitute authorities are considered temporary authorities. They are often authorized to resolve a variety of temporary staffing problems. These positions are generally unfunded. This authority is not intended to allow for significant changes to the existing work program or budgetary authority.
- In-lieu authorities are considered temporary authorities. They exist to allow for limited management flexibility in the level of the employee hired. An in-lieu authority can only be authorized at a level equal to or lower than the level of the funded position. This authority is also not intended to allow for significant changes to the existing work program or budgetary authority.

PRIORITY OUTCOME

The Mayor has identified five Priority Outcomes that guide budgetary decision-making. The Priority Outcome with which each departmental budget program most closely aligns is listed in each program description. The five Priority Outcomes are as follows:

1. Make Los Angeles the best run big city in America
2. Promote good jobs for Angelenos all across Los Angeles
3. Create a more livable and sustainable city
4. Ensure our communities are the safest in the nation

Changes Applicable to Various Programs

The following changes involve two or more budgetary programs. These changes are explained below and apportioned as single entries in the affected programs. Single-program changes are shown only in the programs involved.

Risk Management

Priority Outcome: Make Los Angeles the best run big city in America

As mandated by the Los Angeles Administrative Code, the CAO provides risk management services and assistance, including studies, reports, analyses, assessments, and recommendations with respect to risks and potential liabilities presented by the operation, practices, and conditions existing in City departments, including but not limited to administering funds to provide for losses, placement of insurance contracts, insurance and bonds compliance, and assisting in the management of claims/litigation presented against the City. Risk Management identifies and analyzes the City's loss exposure and develops risk control techniques to protect the City to the maximum extent feasible against loss or liability.

Debt Management

Priority Outcome: Make Los Angeles the best run big city in America

This program structures debt issuances and oversees the ongoing management of all the General Fund and certain special fund debt programs. These include General Obligation Bonds, lease purchase obligations, revenue obligations, Judgment Obligation Bonds, special tax obligations, and Mello-Roos and special assessment obligations. Other programs are added from time to time as new debt instruments are developed. Careful monitoring of such issuances is required to preserve the City's credit strength, budget flexibility, and to comply with bond covenants and federal requirements.

Criminal and Special Litigation

Priority Outcome: Ensure our communities are the safest in the nation

This program includes three divisions, Criminal Branch Operations, Safe Neighborhoods and Anti-Gangs, and Special Operations and Litigation, as well as the Community Justice Initiative. Through this Branch, the City Attorney's Office prosecutes misdemeanor offenses, including gang crimes, family violence, consumer fraud, and code enforcement; proactively addresses quality of life and safety issues in neighborhoods, including through the Neighborhood Prosecutor Program; comprehensively tackles gang crime in partnership with the Los Angeles Police Department through prevention, intervention, and suppression; and, in collaboration with regulatory and/or other prosecutorial agencies, addresses environmental protection and justice issues. A recent emphasis on restorative justice aims to work with non-violent offenders to prevent future involvement with the criminal justice system, including through the Neighborhood Justice Program.

Community Arts

Priority Outcome: Create a more livable and sustainable city

This program consists of a network of individuals and organizations anchored by City-owned cultural assets located in communities throughout Los Angeles that offer high-quality instruction in the arts; presents solo and group art exhibitions; creates outreach programs for underserved populations; develops special initiatives for young people; and supports numerous events during the year that celebrate the cultural diversity of the community. Services are provided through Department of Cultural Affairs-managed art centers and theaters and partnered facilities.

Public Art

Priority Outcome: Create a more livable and sustainable city

This program significantly supports artists and cultural projects through five distinct types of arts programs: the Public Works Improvements Arts Program (more commonly known as Percent-for-Public-Art or Public % for Art), the Private Arts Development Fee Program, the Murals Program, and the City's Art Collection. The fifth program, Music LA, supports artists, cultural programming, and youth arts education by providing free to low-cost music education in underserved parts of the community. This program also ensures the well-being of the public realm through the support of an informed architectural design-review process for municipal projects.

Employee Relations

Priority Outcome: Make Los Angeles the best run big city in America

This program determines representation units for City employees, arranges for elections in such units, determines the validity of charges of unfair practices by management or employee organizations, and maintains lists of impartial third parties for use in the resolution of impasses. The Board is authorized to resolve matters relating to the composition of representation units and Unfair Employee Relations Practices (UERPs).

Governmental Ethics

Priority Outcome: Make Los Angeles the best run big city in America

This program shapes, administers, and enforces laws regarding governmental ethics, conflicts of interests, campaign financing, and lobbying. For each program area, the Ethics Commission is required by law to process public disclosure filings, provide advice and trainings, conduct audits, maintain a whistleblower hotline, investigate and enforce against violations, and analyze and make policy recommendations regarding the laws. The Ethics Commission also administers a matching funds program, which provides limited public financing to qualified candidates for elected office.

Public Accountability and Ratepayer Advocate

Priority Outcome: Make Los Angeles the best run big city in America
 This program provides public independent analysis of Department of Water and Power (DWP) actions as they relate to water and electricity rates and operations, as authorized by the Charter, which includes, and is not limited to, the following efforts: 1) review and analysis of proposed utility rate proposals and periodic adjustments; 2) evaluation of and advice on DWP long-term strategic plans, operations, budget, finances, and performance; 3) review of major plans, programs, projects, policies, contracts, costs, and utility rates; and, 4) analysis of customer data to evaluate of customer service performance at DWP.

This Charter-mandated activity was previously budgeted within the Office of the City Administrative Officer for administrative purposes only. As of July 1, 2017 this Office will be an independent department.
