# TABLE OF CONTENTS

| <b>Section</b> |   |     |
|----------------|---|-----|
| <b>1</b>       | <b>OVERVIEW</b>   |     |
|                | Preface.....  | 1   |
|                | Revenue Summary.....  | 3   |
|                | Revenue Assumptions.....                                      | 5   |
|                | Summary of Fiscal Year Changes.....                           | 9   |
|                | General Fund Forecast: FY 2005-06 to FY 2010-11.....          | 11  |
| <b>2</b>       | <b>GENERAL RECEIPTS</b>                                       |     |
|                | Property Tax.....   | 17  |
|                | Utility Users' Tax.....                                       | 41  |
|                | Business Tax.....   | 49  |
|                | Sales Tax.....  | 53  |
|                | Water and Power Revenue Transfers.....                        | 60  |
|                | Documentary Transfer Tax.....                                 | 62  |
|                | Transient Occupancy Tax.....                                  | 67  |
|                | Parking Fines.....  | 71  |
|                | Parking Users' Tax.....                                       | 74  |
|                | Franchise Income.....   | 75  |
|                | Interest.....   | 83  |
|                | State Motor Vehicle License Fees.....                         | 85  |
|                | Grant Receipts.....   | 88  |
|                | Tobacco Settlement.....                                       | 90  |
|                | Residential Development Tax.....                              | 91  |
|                | Transfer from Telecommunications Development Account.....     | 92  |
| <b>3</b>       | <b>DETAIL OF LICENSES, PERMITS, FEES &amp; FINES</b>          |     |
|                | Summary by Department.....                                    | 93  |
|                | Summary by Special Categories.....                            | 94  |
|                | Significant Changes, Actuals 2003-04 to Revised 2004-05.....  | 95  |
|                | Significant Changes, Adopted 2004-05 to Revised 2004-05.....  | 96  |
|                | Significant Changes, Revised 2004-05 to Proposed 2005-06..... | 97  |
|                | Special Categories  |     |
|                | Ambulance.....  | 98  |
|                | Sewer Construction & Maintenance Related Costs.....           | 99  |
|                | Stormwater Pollution Abatement Related Costs.....             | 100 |
|                | Services to Airports.....                                     | 101 |

### 3 (Cont.) DETAIL OF LICENSES, PERMITS, FEES & FINES (Continued)

|   |     |
|---|-----|
| Special Categories (Continued)                        |     |
| Services to Harbor.....                               | 102 |
| Services to DWP.....                                  | 103 |
| Gas Tax Projects Related Costs.....                   | 104 |
| Chargebacks.....                                      | 105 |
| Grant Funded Related Costs.....                       | 106 |
| Special Funded Related Cost.....                      | 108 |
| Bond Reimbursements.....                              | 112 |
| Sanitation Equipment Charge.....                      | 113 |
| MTA Reimbursement.....                                | 114 |
| State Mandated.....                                   | 115 |
| MICLA Financing Reimbursement.....                    | 116 |
| One Time Reimbursements.....                          | 117 |
| Miscellaneous Taxes and Fees.....                     | 118 |
| Aging.....  | 119 |
| Animal Services.....                                  | 121 |
| Building and Safety.....                              | 124 |
| City Administrative Officer.....                      | 129 |
| City Attorney.....                                    | 132 |
| City Clerk.....                                       | 136 |
| Community Development.....                            | 139 |
| Commission on the Status of Women.....                | 141 |
| Commission on Children, Youth and Their Families..... | 143 |
| Controller.....                                       | 145 |
| Council.....  | 148 |
| Cultural Affairs.....                                 | 150 |
| Disability.....                                       | 152 |
| Department of Neighborhood Empowerment.....           | 154 |
| Emergency Preparedness.....                           | 156 |
| Environmental Affairs.....                            | 158 |
| Ethics Commission.....                                | 160 |

### **Overview**

## **Preface**

“Exhibit B, Budget Summary Receipts” included in Section 1 of the “2005-06 Proposed Budget” itemizes City revenue by source. Additional information on 2003-04 and 2004-05 receipts is displayed in the “Detailed Statement of Receipts” included in Section 3 of that document. Revenue information is also displayed in other parts of the budget such as “The Detail of Department Programs.”

This “Revenue Outlook” is a supplement to the 2005-06 Proposed Budget and provides in one place supporting information for all General Fund revenue estimates and for estimates for certain special funds that directly finance the budget.

Section 1 of the Revenue Outlook provides an overview, major revenue assumptions, changes between estimates and a five-year revenue forecast. Section 2 provides historical perspective and current information on each General Fund revenue, except for the category, “Licenses, Permits, Fees and Fines,” which is provided in Section 3. Section 4 provides similar information for special fund revenue directly financing the budget.

**REVENUE SUMMARY**  
**FISCAL YEAR 2005-06**  
(Thousands Dollars)

| 122,872            | 122,872            | Transfer from Reserve Fund                           | 280,384            |
| <b>\$3,671,107</b> | <b>\$3,868,963</b> | <b>Total General Fund Receipts</b>                   | <b>\$3,926,409</b> |

\* Property tax includes all categories of the City allocation of one percent-property tax collections such as secured, unsecured, state replacement, redemptions and penalties, supplemental receipts and other adjustments and is net of refunds, county charges and deductions for the ERAF III shift of City property tax revenue to fund the state budget in fiscal years 2004-05 and 2005-06. Also included are property taxes remitted to the City as replacement revenue for both vehicle license fees and sales and use taxes.

\*\* Beginning in fiscal year 2005-06, includes non-parking-related court fines not deposited into the Traffic Safety Fund.

\*\*\* Formerly known as "Municipal Court Fines," but excludes non-parking-related court fines not deposited into the Traffic Safety Fund which are now included in Licenses, Permits, Fees and Fines.

## Fiscal Year 2005-06

### Revenue Assumptions

**Economy Related** – The economic outlook is for continuing modest growth. Measures such as personal income, employment and taxable sales all indicate economic health. While individual forecasts vary and economists express concern about different issues, we are aware of no forecasts for a recession that would affect the budget year. Budget estimates of economy-sensitive revenues are based on a careful review of multiple forecasts for both calendar years 2005 and 2006, but particularly for 2005 since tax revenue typically trails actual economic activity by one or more calendar quarters. For 2005, forecasts for growth in California personal income range from a low of 4.8% to a high of 6.1% with an average of 5.4%. For employment, the forecasts range from a growth rate of 1.7% to 2.3% with an average of 1.8%. For statewide taxable sales, the range of growth is between 2.6% and 6.1%, with an average growth forecast of 5%. Forecasts for 2006 are very similar. This foundation is expected to result in continued growth for economy-sensitive City revenues such as the sales, business, hotel and parking taxes.

The local economy outperformed the California economy between 2001 and 2003 because Northern California was more severely affected by the recession which began in 2001. Severe job losses in “Silicon Valley” associated with the “dot.com” restructuring were not as evident in Southern California. Also Los Angeles had a more diversified employment base after being severely hit by the recession of the early 1990s, which eliminated many high-paying aerospace-related jobs. Notwithstanding the experience of recent years, economic growth in Los Angeles is usually lower than the statewide growth rate. For example, since 1969, statewide taxable sales increased at an average annual rate of 2 percent more than Los Angeles City taxable sales. With statewide economic recovery, City economic growth is expected to again trail than the statewide forecasts. This is due in part to the greater availability of undeveloped land outside the City, which limits the opportunity for City retail sales growth.

The budget assumes a four-percent growth in the tax base for sales and business taxes, and six-percent growth for the hotel and parking taxes.

**Property Related** – The City’s largest General Fund revenue, the property tax, will benefit from the very strong real estate market and the high volume of construction activity. The County Assessor forecasts continued growth in net revenue producing valuations of nearly eight percent for the second year in a row. Even a slowing in real estate or construction activity would not likely have a severe effect on the property tax base as valuations for the 2005-06 tax year are based on a January 1, 2005 lien date. While a slowing in real estate and construction activity would dampen the growth in supplemental assessments,

normal processing lags ensure a continued flow of supplemental receipts already in process.

There is considerably more risk associated with the documentary transfer tax. City records show a slowing in real estate activity in recent months, which indicates a decline in the volume of transactions during the budget year; budgeted revenue from this source is reduced 15 percent from the expected 2004-05 level.

**Utility Related** – Between the utility users' taxes and franchise income for gas and pipelines, the budget anticipates revenue of \$617 million. Excluding the transfer from the Reserve Fund, this is 17 percent of all General Fund revenue. There is considerable risk associated with utility-related revenues both in fiscal year 2005-06 and on a long-term basis.

The City's \$262 million telephone users' tax is threatened by several pending legal challenges and by proposed federal legislation to limit local control of this long-term local revenue. Traditional understandings of the telephone marketplace have been challenged by the shift to wireless telephone and voice over internet services. The City's telephone tax revenue in the budget year and thereafter could be restricted depending on pending legal and legislative actions.

The budget anticipates receipt of \$111 million from the gas users' tax and gas and pipeline franchise income. These energy-related revenues are tied to the energy commodity prices which are currently near all-time highs. Budget revenue estimates are based on current market conditions, expert opinion, and the forward natural gas commodities market. The market has dropped in the past and could do so again, resulting in a reduction of budgeted revenue.

**Grant Related** – The budget anticipates a substantial reduction in police grant-related revenue. It is now projected that most of the \$134 million COPS universal hiring (supplement 2) grant will be expended by the close of fiscal year 2004-05. This grant generated \$34 million in each of fiscal years 2002-03 and 2003-04 and approximately \$54 million in 2004-05. The supplement 2 grant will be replaced with the much-smaller COPS (supplement 3) grant which will generate only \$4 million in fiscal year 2005-06.

**State Budget Related** – Once again, the state will reduce City property tax receipts by \$48 million and shift those monies to balance the state budget. Permanent reductions in City property tax revenue enacted in the early 1990s already reduced annual City revenue by \$175 million, bringing the fiscal year 2005-06 total property tax shifts to the state to \$223 million. Fortunately, voter-approval of Proposition 1-A on the November 2004 statewide election ballot will restore the \$48 million beginning in fiscal year 2006-07 and limit the state's ability to tap local revenue in the future.

Fiscal year 2005-06 will be the first full year in which portions of the sales tax and vehicle license fees are shifted to the state in exchange for a like amount of property tax revenue.

The sales tax was established as a local revenue in 1946. For uniformity, the state took over collection, enforcement and administration of this local tax in 1956, but the tax remained a local revenue. As part of a debt-financing program, the state reduced the City's sales tax from 1 percent to  $\frac{3}{4}$  percent and used the difference as a "new" source of state revenue to secure its debt. The state has pledged to increase City property tax revenue so as to offset the cost of the sales tax loss. There are some timing and cash flows issues associated with this shift, but based on partial-year experience with this program in 2004-05, it can be reasonably expected that City revenue from the  $\frac{3}{4}$  percent sales tax and sales tax-related property tax will be about the same as would have otherwise been received. This shift of revenue will remain in place until the related state debt is retired; thereafter the City tax rate will revert to its historic 1-percent level.

The vehicle license fee was collected as part of unsecured property tax until the 1930s when the state began collecting the fee at the time of vehicle registration and renewal "in-lieu" of property tax. Beginning in the late 1990s, the state ultimately reduced the fee paid by vehicle owners by two-thirds. After retention by the state of its normal portion of the fee, little is left for cities. For example, City vehicle license fee receipts in fiscal year 2002-03 were \$223 million; vehicle license fee receipts in fiscal year 2005-06 are expected to be \$21 million – less than one tenth of the former amount. To make up for the lost City revenue from the fee reduction, the state increased the City's share of property tax by the amount of the City's fiscal year 2004-05 loss. That amount will permanently be added to the City's property tax base and increase at about the same rate as the property tax.

The net effect of these changes is that City revenue will be reduced in fiscal year 2005-06 by \$48 million. Local sales tax and vehicle license fee receipts will be reduced and offsetting property taxes will be provided. The City's revenue base will be less diversified as the property tax share of General Fund revenue, excluding the transfer from the Reserve Fund, will increase to 31 percent from 20 percent.

**Business Tax Related --** The recently enacted business tax reform initiative provides that if fiscal year 2004-05 business tax receipts exceed \$400 million, a permanent 4-percent reduction in business tax rates would take effect beginning in fiscal year 2005-06. Proportionally smaller reductions in the business tax rate would take effect if fiscal year 2004-05 receipts exceed specified lesser amounts.

It is likely that fiscal year 2004-05 business tax receipts will significantly exceed budget. No recommendation is made to increase the estimate for either fiscal years 2004-05 or 2005-06 because the excess revenue that triggers tax rate

reductions should be set aside in the Reserve Fund to offset the revenue loss from any tax rate reductions. No other funding for tax rate reductions is included in the budget.

**Reserve Fund Transfer** – The amount of this transfer is made possible, in large part, by higher than budgeted revenue in fiscal year 2004-05. Additional revenue of \$91 million related to building activity and real estate accounted for nearly one-half of the change from budget. Another \$29 million in prior-year receipts was recorded for fiscal year 2004-05. An additional \$19 million associated with the increase in natural gas prices also contributed to the higher 2004-05 revenue.

## Summary of Changes To Fiscal Year 2004-05 Revenue Estimates (Thousands Dollars)

# GENERAL FUND REVENUE FORECAST

## Fiscal Years 2005-06 Through 2010-11

### Notes

#### Assumptions for years 2005-06 to 2010-11

##### General Assumptions

###### One-time

FY 2005-06 includes \$18 million in one-time revenue (\$14 million from a carry-over of FY 04-05 revenue and \$4 million from final receipt of the COPS Supplement 2 grant reimbursements) which is more than offset by elimination of a \$48.3 million City contribution to the state budget.

###### Economic Growth

During the 5-year forecast period, the economy could follow a number of paths including mild recession. This forecast is based on long-term historical experience. Periods of economic decline are often followed by years of above-average growth. The projections in this table do not attempt to specify the exact path the economy will follow, including cycles of possible recession or recovery. The average annual economic growth of 4% to 5% shown in these tables, which includes about 3% inflation, is consistent with the City's long-term experience of 1% to 2% real growth.

###### Business Tax

The business tax forecast is based on the economic assumptions stated above, and is adjusted for business tax reform measures. Beginning in FY 2005-06, the business tax is subject to tax rate reductions in any year if specified baseline revenue targets are achieved the prior year. The forecast does not specifically adjust revenue in anticipation of such reductions. Instead, the forecast assumes that revenue over the base line target amount in any year, which would trigger a tax rate reduction the following year, will be impounded and used to offset the revenue loss associated with any future tax rate reduction.

###### State Action

This forecast assumes, as guaranteed by voter approval of Proposition 1A, no further encroachment on local revenue by the state. Specifically it assumes that the \$48 million City contribution to the state in FY 2005-06 will not recur in FY 2006-07 and thereafter. The forecast also assumes that the "triple-flip" state financing plan will be truly revenue neutral to the City and that the state will guarantee the FY 2004-05 VLF property tax swap including the full amount of the 'true up' as the baseline for property tax growth beginning in FY 2005-06.

###### Utility Related

Assumes the water and power systems will both have sufficient net income to permit making the normal transfers in 2005-06 and thereafter; that natural gas commodity prices will decline very gradually, and that telephone users' taxes will experience modest (inflation only) growth as the telecommunications marketplace continues to adjust to changing technology. Legal challenges and federal action pose a threat of this revenue source.

###### Transfer From Reserve Fund

The historically high FY 2005-06 transfer is possible because of unusually high FY 04-05 ending balance caused primarily by higher-than-anticipated revenues from real estate-related taxes; estimates for FY 2006-07 and thereafter are conservative and based on the ten-year-history through fiscal year 2004-05.

###### Property Related

Assumes the ad valorem property tax will continue growth, albeit at a slower rate, throughout the forecast period as the rising market values of recent years are included in additional properties upon sale and improvement; that the excise documentary transfer tax reached a cyclical peak in 2004-05 and will taper very gradually in both 2005-06 and 2006-07 and be stable thereafter. This assumption is reasonable as a trend forecast, although the documentary transfer tax is among the least likely City revenues to remain stable in any specific year.

| <b>Assumptions for years 2005-06 to 2010-11</b>             |   |
|---|---|
| <b>Property Tax (Base)</b>                                  | The FY 2005-06 property tax estimate is 7.3 percent above the FY 2004-05 revised estimate. Growth in property tax revenue is estimated to be in the 5% range thereafter, consistent with long-term experience.  |
| <b>Property Tax -- Sales Tax Replacement (Triple Flip)</b>  | This category reflects voter approval of the state bond financing scheme which reduces the City "point of sale" sales tax rate from 1% to 0.75%. The sales tax has been administered and collected by the state since 1956. Sales tax monies are remitted to the City several months after collection. The state's intent in lowering the City tax rate is that the City's revenue loss from the sales tax rate reduction will be made up by increasing the City's share of property tax revenue in an amount that exactly offsets the sales tax loss. Because the timing of property tax payments is different than the sales tax remittance schedule, City revenue under the swap varies from the historic pattern, but is anticipated to roughly equal what would have been collected at the 1% rate.  |
| <b>Property Tax -- VLF Replacement</b>                      | The state reduced the vehicle license fee from 2% of depreciated vehicle value to 0.65%. This change would be expected to reduce City VLF revenue to about one-third of its historic level. But since the state deducts specified fixed costs from local VLF receipts prior to distribution, the effect of the change in the fee is to reduce city VLF revenue to about one-tenth of its historic level. To offset this local loss from a state-imposed fee reduction, the state dedicated an increased share of local property taxes in an amount intended to exactly offset the vehicle license fee loss. The "Property Tax -- VLF Replacement" revenue will grow at about the same rate as the property tax. A separate property tax category called the 'true-up' permits remittance to the City, in Fiscal Year 2005-06, the full amount of Fiscal Year 2004-05 underpayments. |
| <b>Property Tax -- City Contribution to State Budget</b>    | The State reduced City Property Tax revenue by nearly \$49 million for both Fiscal years 2004-05 and 2005-06. This 'contribution' will no longer be deducted from City revenue beginning in FY 2006-07.   |
| <b>Utility Users' Tax</b>                                   | Major threat to this revenue is uncertainty regarding the telephone users tax. There are a number of pending legal challenges to collection of portions of this tax. A key forecast assumption is that the City's telephone users' tax base will be successfully defended. Forecast is based on modest growth of 2%, and is consistent with historical  |
| <b>Licenses, Permits, Fees</b>                              | Beginning in FY 2005-06, building permit revenue will be recorded in an enterprise fund. Accordingly the base for this account is reduced. Modest growth of 3.5% is anticipated thereafter.   |
| <b>Sales Tax</b>  | The economic assumptions are based on 4% growth throughout the forecast horizon. While higher growth is likely in some years, an economic downturn is also historically likely. The 4-percent growth reflects the long-term trend, not the specific path the economy may take in any specific year. This category now reflects the current local tax rate of 0.75% on transactions made after July 1, 2004. Total sales tax and sales tax-related property tax revenue equals the trend estimate for the local sales tax at the 1% rate.  |
| <b>Business Tax</b>   | Like the sales tax, the business tax forecast is based on a trend of 4-percent growth. The estimate for FY 2005-06 takes into account all recently-approved changes to the business tax and also reflects the nearly \$18 million in business tax reforms approved in FY 2004-05 to take effect in FY 2005-06. The estimates for FY 2005-06 and thereafter are not linked to tax rate reductions, which would be automatically triggered if tax revenue exceeds specified baseline amounts. The forecast assumes that any revenue received in excess of the budget estimate will be impounded to offset the revenue loss in future years of tax rate cuts triggered by that revenue gain.   |
| <b>State Vehicle License Fee (Net of property tax swap)</b> | After adjustment for the one-time carryover of prior-year revenue in FY 04-05, growth in the 3.5% range is anticipated.   |
| <b>Power Revenue Transfer</b>                               | Forecast uses long-term historical growth rate of 2%; amount of transfer is assumed to continue at 7% of income and that sufficient net operating income will be available in all years. .  |

## GENERAL FUND REVENUE FORECAST

### Fiscal Years 2005-06 Through 2010-11

#### Notes

|   | <b>Assumptions for years 2005-06 to 2010-11</b>  |
|---|--|
| <b>Documentary Transfer Tax</b>             | This is a very cyclical revenue. Forecast assumes a 15% decline in FY 05-06 from the all-time high now anticipated for FY 2004-05 and another 10% decline in FY 2006-07. Thereafter the forecast assumes average revenue will be about 25% below the FY 05-06 level.                     |
| <b>Parking Fines</b>                        | Assumes 2% annual productivity increases.  |
| <b>Transient Occupancy Tax</b>              | Assumes 6% growth through FY 06-07 and average growth of 4% thereafter. Revenue in FY 04-05 is distorted by unusual receipts due to transition to a monthly payment schedule.  |
| <b>Parking Users' Tax</b>                   | Assumes 5% annual growth beginning in FY 06-07 consistent with long-term experience.   |
| <b>Grants Receipts</b>                      | COPS Supplemental 2 grant will be fully drawn down in FY 2005-06; Supplement 3 will be drawn down through FY 2008-09. Beginning in FY 2009-10 estimate for this revenue source is based on historical trend for law enforcement and disaster grants.                                     |
| <b>Franchise Income</b>                     | FY 05-06 estimate includes unusually high amount for gas franchise income related to historically high natural gas commodity prices. After adjusting the FY 06-07 estimate for that, forecast is based on overall growth of about 3.5%, consistent with long-term historical experience. |
| <b>Water Revenue Transfer</b>               | Forecast is based on 2% growth and continuation of payment is based on 5% of net operating revenue and that sufficient income will be available in all years to make the payment.  |
| <b>Interest</b>                             | Forecast made by CAO staff based on long-term trend  |
| <b>Tobacco Settlement</b>                   | Per state payment schedule.  |
| <b>Transfer from Telecomm. Dev. Account</b> | Subject to available revenue and policy decisions by Mayor and council.  |
| <b>Residential Development Tax</b>          | Forecast based on long term historical experience.   |
| <b>Transfer from Tax Reform Fund</b>        | Subject to available revenue and policy decisions by Mayor and council.  |

| Property Tax - ERAF III Shift        | <u>(48,327) (5)</u>       |
| <b>Property Tax</b>                  | <b>\$1,139,777</b>        |

(1) Detail on nearby pages

- (2) Under the "triple flip" mechanism, the local Bradley-Burns sales tax revenue was reduced by one-quarter cent and dedicated to pay debt service on the state deficit reduction bond. The City receives property tax payments in-lieu of the lost one-quarter cent sales tax revenue based on calculations by the Board of Equalization.
- (3) The City's property tax in-lieu of VLF payment for fiscal year 2005-06 is based on the latest VLF receipt estimate for fiscal year 2004-05 and includes escalation of 7.8% for property tax growth.
- (4) Property tax in-lieu of VLF payment for fiscal year 2004-05 was based on the state estimate of VLF receipts. The latest VLF receipt estimate for fiscal year 2004-05 for the City is approximately \$14 million higher. Under the VLF-Property Tax Swap mechanism, this additional payment will be remitted to the City in January 2006.
- (5) In fiscal year 2005-06, local governments will make contributions to the state general fund of \$1.3 billion just as was done in fiscal year 2004-05. The City's portion of the contribution will be the same, \$48.3 million and will again be deducted from property tax receipts.

Summary and assumptions are presented on the following pages. The estimates on this page represent the "base" for the property tax revenue. Adjustments to the property tax revenue due to sales tax replacement, VLF replacement, contribution to state budget, and VLF "True-up" are presented as separate line items on the preceding pages.

## **SUMMARY**

Property taxes represent the City's largest source of General Fund revenue. The City forecasts property taxes based on each of the specific categories of receipts: secured, unsecured, delinquent, redemptions, refunds, supplemental assessments and state replacement monies for homeowner exemptions. Estimates for City secured and unsecured receipts in 2005-06 are based on the County Assessor's estimate of growth in assessed valuation. Adjustments are made for growth in redevelopment project areas. The estimates of current secured and unsecured levy receipts are further adjusted for delinquencies and the timing of remittances to the City. Estimates of other property tax receipts are based primarily on historical collections.

## **Proposition 13**

Article XIII A of the State Constitution (enacted through the passage of Proposition 13 in 1978) limits the ad valorem taxes on real property to one percent of the "full cash value." The county collects the real property taxes and apportions the taxes among local taxing agencies on the basis of a formula established by state law in 1979 (AB 8). That formula was modified in fiscal years 1992-93 and 1993-94 and reduced City revenue; these modifications were known as "ERAF shifts" because City, county and special district tax revenues were shifted to the Educational Revenue Augmentation Fund. Under this formula, the City receives a base-year allocation plus an allocation on the basis of growth in assessed value of properties sold/transferred, new construction, and an inflation adjustment. As of fiscal year 2004-05, the City of Los Angeles remained the highest valued municipality in the county with net revenue producing assessed valuation of \$284 billion, a 7.9% increase from fiscal year 2003-04.

## **Recent City Revenue Trend**

The City's assessed values grew by six to eight percent in the last several years, and the City revenue followed this pattern. The countywide tax collection rate in the last four fiscal years was steady at around 97% of the secured levy.

## **Growth Assumptions for 2005-06**

The County Assessor's estimate of 7.8% growth in countywide property valuations represents the best basis for forecasting secured receipts; his estimate of a 14% decline in countywide unsecured receipts is the basis for the City estimate of unsecured receipts.

## **Additional Detail**

On the following pages, we present historical information and the basis for the revenue projections.

## **NOTES TO PROPERTY TAX OVERVIEW**

### **1. NET REVENUE PRODUCING VALUATIONS**

This is the total of City revenue producing valuations for secured and unsecured property after exemptions. The County Assessor uses this as the basis for projections.

### **2. NET REVENUE PRODUCING VALUATIONS PERCENT CHANGE**

This is the rate of growth in the net revenue producing valuations expressed as a percent change from the prior year. The revised figure for 2004 reflects the Assessor's final determination. We use the County Assessor's preliminary countywide estimate of the net revenue producing valuations as the basis to forecast the 2005-06 net City revenue producing valuations.

### **3. NET SECURED CITY ROLL**

This adjusts the net revenue producing valuations to remove unsecured values, which are estimated separately, and CRA increment values, which are not credited to the General Fund. Assessments for public utilities by the State Board of Equalization are added.

### **4. NET SECURED CITY ROLL PERCENT CHANGE**

Differs from net revenue producing valuations percent change in some years primarily because of shifts in CRA increment values. However, for 2005-06, the County Assessor is forecasting significantly different growth rates for secured valuations (7.8%) and unsecured valuations (-14.4%). The result is the increasing differences in percent change between the Net Revenue Producing Valuations and the Net Secured City Roll.

### **5. SECURED LEVY**

The County Auditor-Controller applies the general tax levy of 1% to the net secured City roll. Portions of that 1%- levy are directed to schools, the County, and special districts. The amount shown in this category is the City's portion of the 1%- levy.

### **6. SECURED LEVY AS PERCENT OF NET SECURED CITY ROLL**

Excluding the temporary ERAF III shift and adjustments made in connection with the sales tax and VLF swaps, the City gets about 27% of the 1%- secured property tax collected in the City; the County, schools and special districts get the rest. The City share of the secured levy has declined slightly in recent years.

### **7. SECURED RECEIPTS BY COUNTY TAX YEAR**

Typically closely parallels the rate of growth for net secured City roll.

### **8. SECURED RECEIPTS BY COUNTY TAX YEAR PERCENT CHANGE**

For 2005-06, projected City revenue growth is expected to exceed the rate of growth for the net revenue producing valuations. Net revenue producing valuations include unsecured valuations which are declining significantly (-14.4%).

### **9. COLLECTION RATE**

2004-05 projected collection rate of 97.8% is historically high but consistent with experience in last several years. Receipts to date support using the same rate in 2005-06.

**10. CASH ADJUSTMENTS**

This is the difference between City fiscal year (receipts from July to June) and County property tax year (City receipts from December to November). For 2004-05 and 2005-06 we assume the normal pattern of receipts.

**11. SECURED RECEIPTS BY CITY FISCAL YEAR**

Current-year secured receipts are recorded by the County Tax Collector between December and the following June. The County Auditor-Controller remits a portion of the City's share of tax collections in July and August, after the City's books close. The Charter requires the City to use only cash received during its fiscal year as the basis for budget planning, and monies remitted by the County after June 30 are credited to the next fiscal year.

**12. SECURED RECEIPTS BY CITY FISCAL YEAR PERCENT CHANGE**

This differs from percent growth in valuations primarily because of year-to-year changes in remittances by the County during months of July and August.

**13. CRA TAX INCREMENT**

The Central Business District CRA project (CBD) received its final property tax increment payment late in 1999-00. Beginning in 2000-01, these tax monies were redirected to other taxing agencies, such as the City.

The City adopted two new redevelopment projects (City Center and Central Industrial) which encompass parts of the CBD project in 2002. The County of Los Angeles filed lawsuits to invalidate the new project areas on the basis that the new areas violate the court-validated project cap on the CBD project. The court issued rulings to invalidate both projects. The City has appealed the decisions, and the results of the appeal are pending.

Pending the outcome of the lawsuit, all monies due to the City from CBD are held in a suspension account by the County Auditor/Controller. If the City wins the appeals, CBD payments to the City's General Fund will be diverted to the two new project areas.

**14. ALL OTHER PROPERTY TAX CATEGORIES**

Includes unsecured property taxes, homeowner exemption reimbursements, redemptions and penalties, supplemental assessment payments, county charges, refunds and all other adjustments. Historical collections and estimates for these sources are detailed in the following page.

**15. TOTAL CITY RECEIPTS**

This shows the effect of all adjustments to the change in net revenue producing valuations. For 2005-06, the total rate of growth in City receipts is about .5% less than the rate of growth in net revenue producing valuations due to the differences in rate of growth between the net revenue producing valuations (7.8%) and the summary of all other (-2.5%).

Values for 2005 are estimates by City staff based on the Los Angeles County Assessor's estimates of countywide valuations.

\* The Los Angeles County Assessor has determined that the aircraft valuation duty will be assumed by the State Board of Equalization in 2005. The significant decrease in assessed valuation reflects removal of aircraft valuation from the unsecured roll.

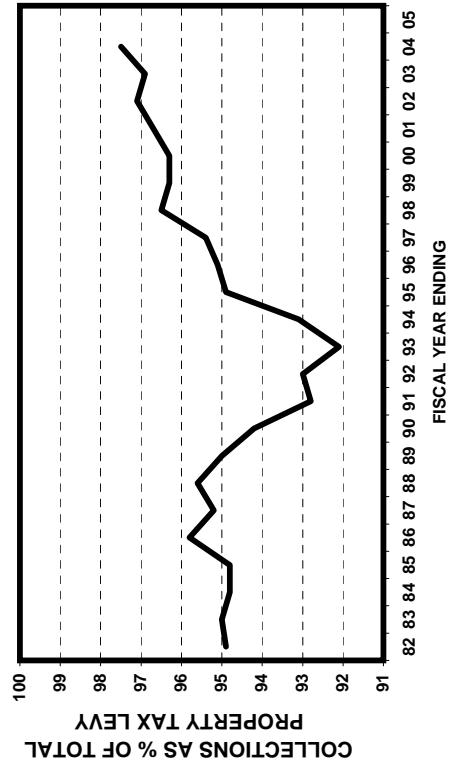

## % CHANGE IN NET REVENUE PRODUCING VALUATIONS

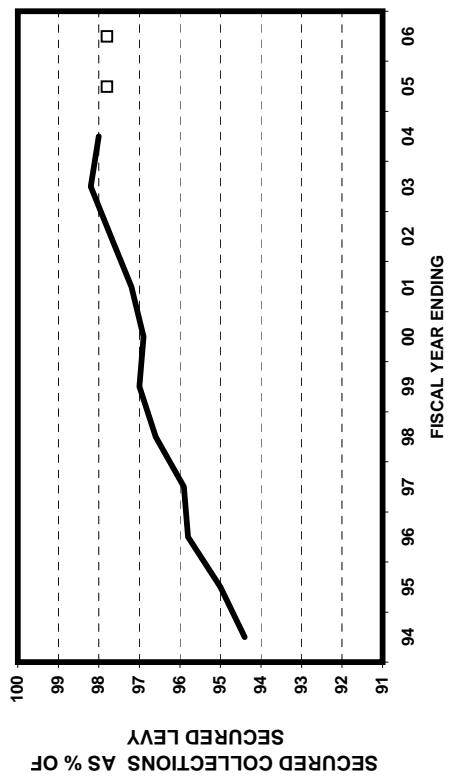

Growth in City valuations has closely tracked growth in countywide valuations for many years. Because the 1994 earthquake disproportionately affected the City, values fell more sharply in the City in 1995. County Assessor staff believes the larger City growth in 1999 reflected restoration of some earthquake-related adjustments. The City and County rates of growth were almost identical for the past four years. The best estimate for 2005 is City growth will continue to closely track that of the County as it has done for many years. We use the County Assessor's preliminary roll forecast for the County as the best available estimate for growth in City net revenue producing valuations.

# COLLECTION RATES

COUNTY PROPERTY TAX COLLECTION RATE

CITY SECURED COLLECTION RATE

The table on the left shows the countywide collection rate since shortly after adoption of Proposition 13. Recent collections have been at an historical high.

The table on the right shows City secured collections as a percent of the secured tax levy for recent years. The City data is not strictly comparable with the county data because it excludes unsecured collections. For budget planning, the average collection rate for the previous four years is used.

The table above shows monthly secured receipts by county tax year, which begins in December. The estimate on this page for 2005-06 is based on the County Assessor's projection of 8.9% growth in countywide secured assessed values. The estimate then applies that rate of growth to the net City revenue producing valuations. The City's tax levy is estimated to increase from \$697 million in 2004-05 to \$759 million in 2005-06. The recent experience with collections is that 97.8% of payments are received in the year levied. We assume that the collection rate will continue in 2005-06. The calculation of secured receipts by County tax year is shown below:

|   |                  |
|---|------------------|
| Estimated tax levy (thousand)                                       | \$759,000        |
| Estimated 2005-06 collection rate                                   | 97.8%            |
| Estimated 2005-06 secured collections by county tax year (thousand) | <u>\$742,302</u> |

| JUNE            | 509,583          | 537,798          | 579,895          | 669,000          |         |          | 682,778          | 741,200          |

The county tax year runs from December to August, overlapping two City fiscal years. Receipts in July and August belong to the county's prior tax year, but must be recorded in the City's current fiscal year. When the county's payment pattern is normal, the City receives about 2 percent of secured receipts in July and August. The adjustment between fiscal years generally is no more than \$2 million to \$3 million.

The 2004-05 and 2005-06 estimates are based on normal July and August payments. The principal risk to this estimate is that the county could delay payment of scheduled receipts normally received in May to July of the next fiscal year.

Unsecured property tax is levied on property of common business usage not secured as liens for payment of taxes. Unsecured property is typically business equipment not attached to the building. Personal residences are exempt from unsecured property taxes. Estimating unsecured receipts requires an estimate of the current year levy, an estimate of the portion of the current year levy that will not be collected by June, and an estimate of prior levies that will be collected in the current year.

The significant decrease for 2005-06 reflects the removal of aircraft valuation from the unsecured roll. Unsecured Property Tax Valuations page provides additional detail.

**A = Actual**  
**E = Estimate**

\* Other current-year collections are unsecured taxes from the prior fiscal year that are remitted by the county in the current fiscal year, less unsecured taxes for the current year not remitted to the City by June 30. The category also includes collections from supplemental unsecured assessments that were not part of the original levy and collections of unsecured taxes from prior years.

The first \$7,000 of assessed value of a property owner's primary residence is exempt from local property tax. The state reimburses local governments for the lost tax revenue from this exemption. This category tracks the county's remittance to the City of this state reimbursement.

Unpaid property taxes, both secured and unsecured, are known as delinquencies. Delinquent taxes accumulate interest and penalties. Properties with taxes unpaid for five years are sold through auction by the state to recover unpaid taxes. The property owner may settle the delinquency by redemption. The City's share of principal, penalties and interest is distributed by the county.

The county has no fixed schedule for distribution of these funds. Redemptions and penalties, although economy driven, do not provide a steady stream of revenue. In times of economic growth, delinquent property owners redeem their properties more often than in times of economic adversity. When collection rates are at an historically high level for several years, there is less property to redeem.

Levy of property taxes is based on the lien date of January 1. Properties assessed after the lien date as a result of real estate sales or improvement are counted as supplemental taxes. These taxes are distributed by the county to the various taxing jurisdictions about six months following receipt by the county. The double-digit annual percentage price increases in the real estate market created an environment for a relatively high level of supplemental adjustments. The estimates recognize current market conditions.

The property tax administrative cost is recovered from each jurisdiction that shares in the distribution of the one-percent property tax revenue. The County Auditor-Controller determines each local jurisdiction's proportionate share of the property tax administrative costs by multiplying the total property tax administration costs by the ratio of property tax revenue received by each jurisdiction.

Assessed valuations of property are revised downwards when an appeal of the valuation is successful. There are two types of appeals. The base year appeal revises the assessed value downwards and the revision of value continues for the tenure that the property does not change hands. A proposition 8 appeal is an economic hardship relief afforded to a property owner for the specific period of one year.

The successful appeal process requires a refund of the excess taxes already paid by the property owner and distributed to the City. The refund follows the reverse path of collection and distribution. Revenue from this source is volatile, depending on the number of appeals, processing time and the amounts being appealed.

This category includes what is usually a relatively small amount for adjustments to property taxes due to assessment appeal reduction, mistakes, misassessments or corrections to assessment payments collected by the Treasurer/Tax Collector. Adjustments can be either positive or negative. For 2004-05 we use actual adjustments to date; for 2005-06 we use zero.

The Central Business District (CBD) Community Redevelopment Agency (CRA) received its last special increment of property tax late in fiscal year 1999-00. Monies previously dedicated to the CRA are now available to the original taxing jurisdictions.

The City adopted two new redevelopment projects (City Center and Central Industrial) which encompass parts of the CBD project in 2002. The County of Los Angeles filed lawsuits to invalidate the new project areas on the basis that it violates the court-validated project cap on the CBD project. The court issued rulings to invalidate both projects. The City has appealed the decisions, and the results of the appeal are pending.

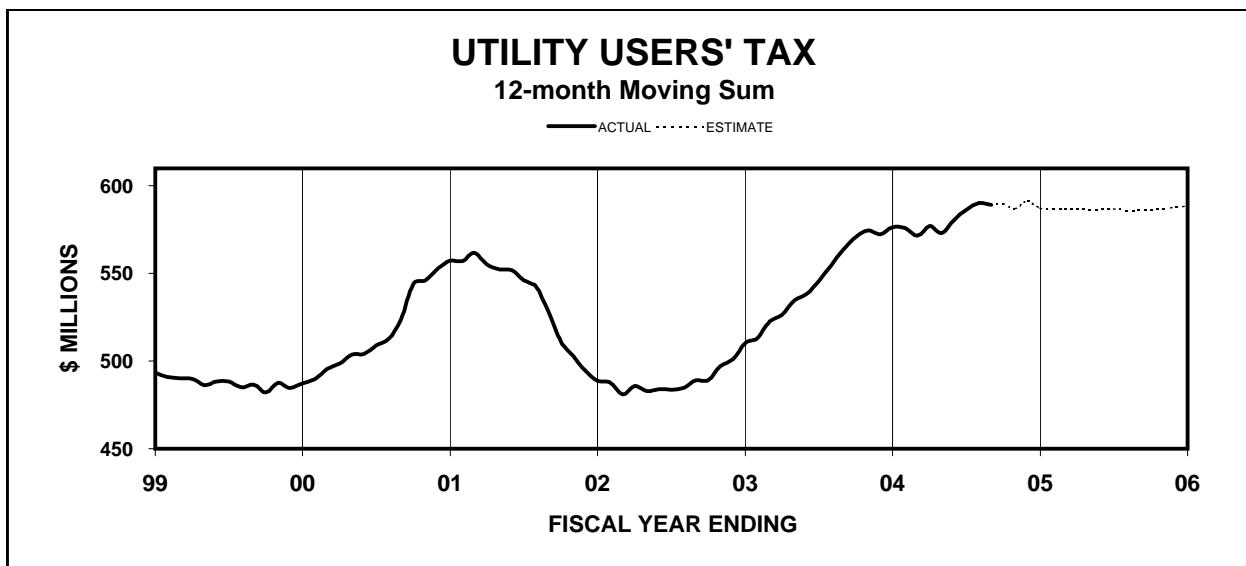

Pending the outcome of the lawsuit, all monies due to the City from CBD are held in a suspension account by the County Auditor/Controller. If the City wins the appeals, CBD payments to the City's General Fund will be diverted to the two new project areas.

Combined 2004-05 utility users' tax receipts are projected to finish nearly \$18 million above budget. Higher-than-expected telephone users' tax mainly from wireless providers and natural gas users' tax receipts account for the variance. For 2005-06, total receipts are expected to be at about the same level as in 2004-05. In 2005-06, the telephone users' tax is expected to decrease due to lower traditional tax collections offsetting growth in the wireless market. Gas users' tax is expected to remain at the level of 2004-05 and electrical users' tax is projected to grow by 2%.

The fiscal year 2004-05 budget includes higher electric users' tax receipts based on DWP's estimate of rising power sales. The gas users' tax estimate is based on the forward gas commodities market. The telephone users' tax is still driven by wireless telephone users' receipts, which received a large boost from the mobile sourcing telephone act. Receipts from land-line long distance and local telephone service providers are continuing to decline.

Revenue from the gas users' tax was stable in the \$50 million to \$55 million band for many years. Turmoil in the energy market during fiscal 2000-01 resulted in revenue more than 60% higher than normal. In 2001-02 prices returned to the normal band but City revenue declined below the normal revenue range as a result of residential rate relief. Natural gas prices climbed again in early 2003 which resulted in greater revenue in 2002-03 and 2003-04. Industry experts project that prices will remain at the higher level through 2005-06. If the price level holds, revenue of \$84 million is likely for 2004-05 and 2005-06.

## GAS COMPANY COST OF GAS

— ACTUALS - - - FORECAST

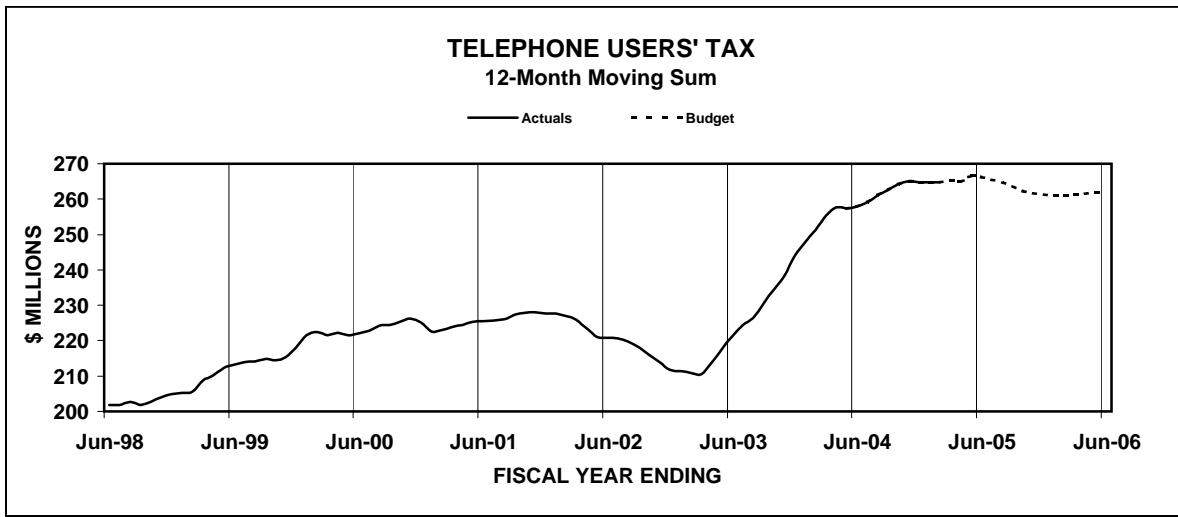

The price of natural gas, which had been reasonably stable for many years, more than tripled in the 2000-01 fiscal year. It then abruptly returned to its historical level during 2001-02. Since then, the price has steadily risen almost to the level reached in 2000-01. The 2004-05 budget was based on expectation that price of natural gas would remain at the same level as 2003-04, but the price has continued to rise. Some analysts believe the September hurricanes contributed to the recent price spike and the Southern California wet weather will help keep the price above past levels. The futures market indicates the cost of natural gas will remain at the current level. But forward prices reflect market conditions at the time the budget is prepared; prices could be different when the Gas Company actually purchases gas. The budget estimate for the gas users' tax reflects actual gas prices for the first eight months of 2004-05 and market conditions at the time the budget was prepared.

Wireless telephone users' taxes are rising but taxes on more traditional telephone services are falling. The increase in wireless telephone users' taxes is due to greater use of cell phones and the Mobil Sourcing Telephone Act. In contrast, remittances from more traditional local and long distance providers are decreasing as customers move away from these services. In 2005-06, growth in wireless is not expected to make up for declines in local and long distance taxes; telephone users' tax receipts are estimated to be 1.6% below the 2004-05 level. The estimates are based on analysis of each major provider. Since the City is prohibited by law from publicly releasing data that reflects on individual companies, information provided here and on the following pages is on an aggregate basis.

2004-05 growth appears to be 15% above 2003-04; the budget expected 4% growth. The surge in the wireless utility users' tax receipts in 2003-04 is primarily due to the Mobil Sourcing Telecommunications Act. Two telephone companies have filed a lawsuit challenging some aspects of the City's collection of this tax.

The above tables track monthly and cumulative business tax receipts as recorded in the Controller's official financial system. Receipts through March are 7.5% higher than the same period last year. If that pattern continues, fiscal year 2004-05 receipts would be 7.5% above the fiscal year 2003-04 total or \$400 million -- \$13 million higher than the revised plan for fiscal year 2004-05.

The recently enacted business tax reform initiative provides that if fiscal year 2004-05 business tax receipts exceed \$400 million, a permanent 4-percent reduction in business tax rates would take effect beginning in fiscal year 2005-06. Proportionally smaller reductions in the business tax rate would take effect if fiscal year 2004-05 receipts exceed specified lesser amounts.

On the following page, fiscal year 2004-05 collections are compared with prior-year collection activity using the Office of Finance records. While not official, Office of Finance postings provide additional insight because they lead controller information by several days. The Office of Finance table shows business tax receipts ahead of the prior year by 7%; if collections continue at that trend, fiscal year 2004-05 receipts would be enough to trigger some level of tax rate reduction in fiscal year 2005-06.

It is very likely that fiscal year 2004-05 business tax receipts will significantly exceed budget. No recommendation is made to increase the estimate for either fiscal year 2004-05 or 2005-06 because the excess revenue that triggers tax rate reductions should be set aside in the Reserve Fund to offset the revenue loss from the tax rate reductions in fiscal year 2005-06. No other funding for tax rate reductions is included in the budget.

## CROSS-CHECK OF FISCAL YEAR 2004-05 BUSINESS TAX ESTIMATE

While most tax payments are remitted to the City on a monthly or quarterly basis, a major exception is business tax payments, most of which are remitted annually during the business tax renewal period. Since the tax has an annual cycle, it does not lend itself to the monthly tracking process used for other revenues. The business tax is the City's fourth largest general revenue, comprising about 10% of all General Fund receipts, and much attention is given to tracking the annual business tax renewal process. Business taxes are delinquent if not received by March 1. Most non-delinquent renewals are processed by the last day of March and receipts through March are usually a good predictor of end-of-year results. Receipts during April, May and June typically come from collection activity following City issuance of "Notice of Hearing," and from collections as a result of audits. For the past 15 years, receipts in the April-June period have typically been in the \$20 million to \$30 million range, and have averaged \$26 million in recent years. The amount needed to achieve the April-June 2004 requirement is below the normal range and there is reason to hope actual fiscal year 2004-05 revenue will exceed budget by \$10 million. If so, that would trigger more than a 3% business tax rate reduction in Fiscal Year 2005-06. The exact amount of any tax rate reduction will be determined by the Director of Finance from official Controller records after the City's books close at the end of the fiscal year. Any fiscal year 2004-05 revenue in excess of the budgeted amount should be impounded in the Reserve Fund at the end of the fiscal year and used to offset the unfunded revenue consequences of fiscal year 2005-06 tax rate reductions.

|--------------------------|-------------------------|
| <b>FY 2005-06 Budget</b> | <b><u>\$385,145</u></b> |
|--------------------------|-------------------------|

\* Brief summary of the adopted Tax Reform Measures is presented on the next page.

\*\* Estimates are half the annual level to account for implementation time in first fiscal year.

## Tax Reform Measures

**Bad debt deduction** - businesses can deduct "bad debts" from gross receipts and only pay taxes on actual receipts. This deduction is available to all businesses beginning in fiscal year 2004-05. Estimated annual tax relief: \$3 million.

**Small business exemption** - businesses with gross receipts of \$50,000 or less will be exempt from paying business tax beginning in fiscal year 2005-06. The exemption amount is increased to \$100,000 in fiscal year 2006-07. Estimated annual tax relief: \$12.6 million (\$50,000 exemption) and \$20.8 million (\$100,000 exemption.)

**Entertainment talent exemption** - businesses with \$300,000 or less in gross receipts classified as "Talent" within the entertainment industry will be exempt from paying business tax beginning in fiscal year 2005-06. Estimated annual tax relief: \$650,000.

**Production cost threshold changes** - production companies are taxed on their production costs, not their gross receipts. The lower threshold on production companies changes from \$50,000 to \$2.5 million and the upper threshold from \$4.2 million to \$12 million. The minimum and maximum tax amounts (\$147 and \$12,711) will not change. Estimated annual tax relief: \$2 million.

**Automatic tax rate reduction** - commencing with tax year 2006 (fiscal year 2005-06), gross receipts tax rates will be reduced by up to 4% per year for a maximum total rate reduction of 15%. The yearly tax rate reduction will be calculated by the Director of Finance based on Controller records on a percentage basis from the net increase in business tax revenue above a specified baseline.

### Potential Tax Rate Reductions

|                            | Business Tax<br>(\$ millions) | Permanent<br>Tax Rate Cut |
|----------------------------|-------------------------------|---------------------------|
| FY 2004-05 Baseline        | 384.4                         |                           |
| FY 2004-05 Budget Estimate | 386.9                         |                           |

#### Example

If FY 2004-05 Revenue is:

|                   |       |    |
|-------------------|-------|----|
| 1% Above Baseline | 388.2 | 1% |
| 2% Above Baseline | 392.1 | 2% |
| 3% Above Baseline | 395.9 | 3% |
| 4% Above Baseline | 399.8 | 4% |

The amount of the fiscal year 2005-06 tax rate reduction, if any, will be published after the City's fiscal year 2004-05 books close. Any business tax revenue in excess of the fiscal year 2004-05 budget estimate of \$386.9 million should be impounded in the Reserve Fund at the close of fiscal year 2004-05 to finance tax rate reductions in fiscal year 2005-06.

\* The revised estimate for 2004-05 and the plan for 2005-06 are based on reductions due to the "triple flip." Starting in September 2004, 25% of sales tax receipts were diverted to the state (to pay for economic recovery bonds) in return for increased property taxes. Because receipts through March are ahead of plan, the revised budget is increased. The 2005-06 plan is lower than the 2004-05 revised estimate only because it includes the full year effect of the "triple flip." The underlying taxable sales base is expected to grow by 4% in fiscal year 2005-06.

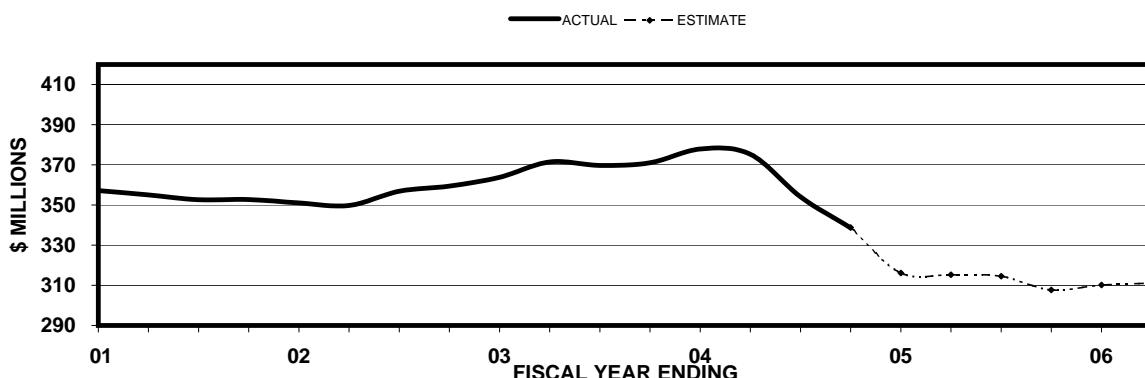

## CITY TAXABLE SALES AND SALES TAX CASH RECEIPTS

### CITY TAXABLE SALES 4 Quarter Moving Sum

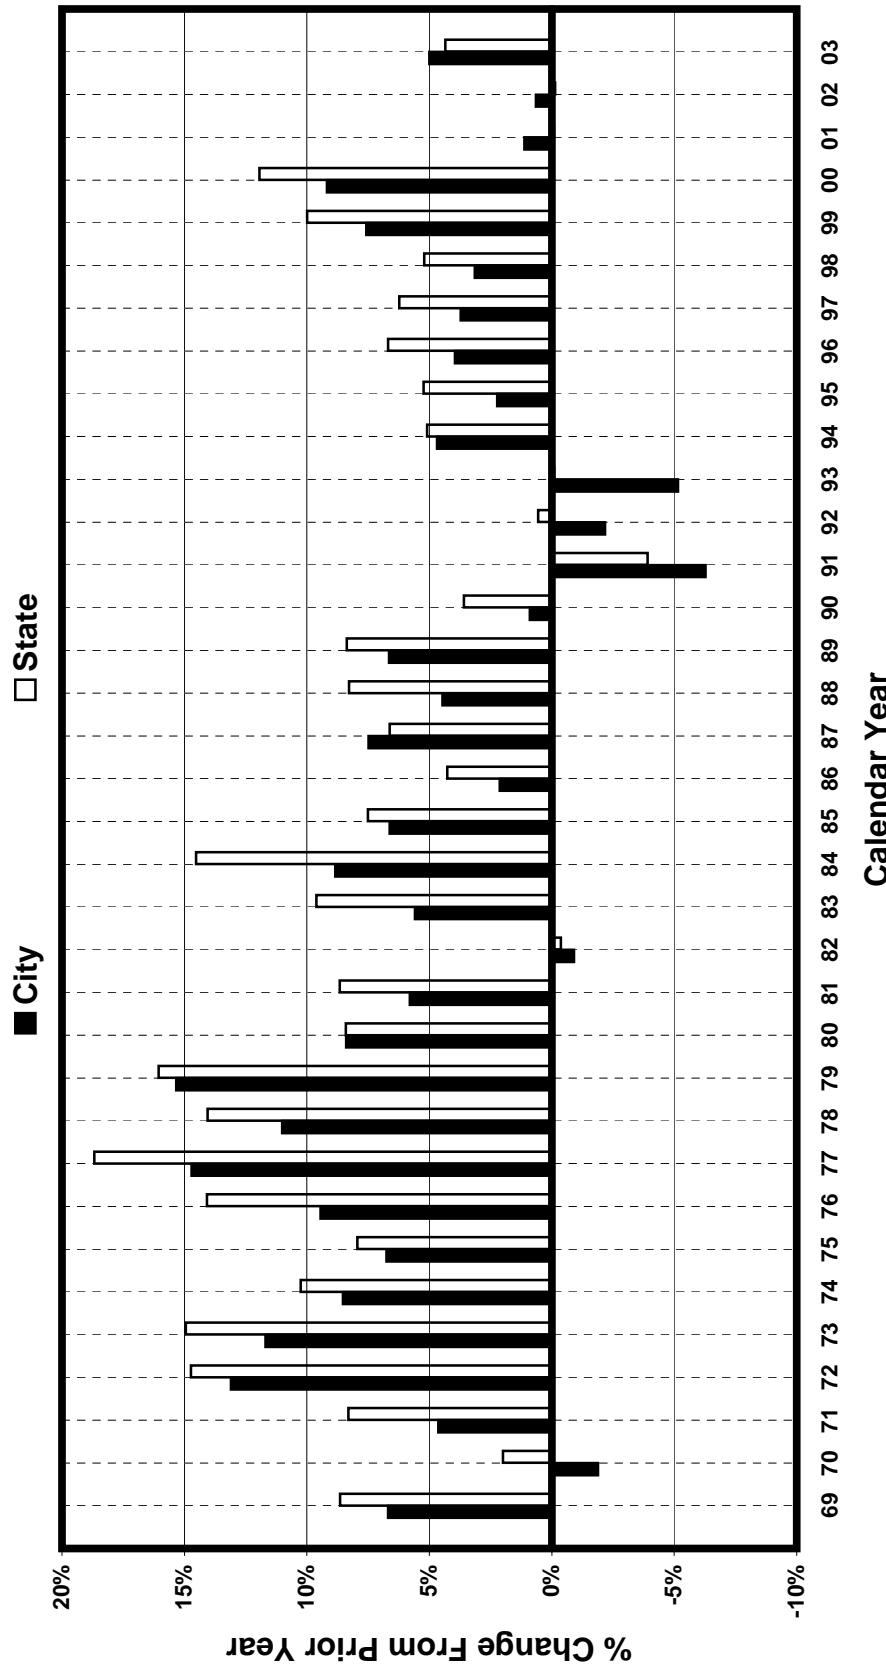

City taxable sales are showing consistant growth.

### CITY SALES TAX CASH RECEIPTS 4 Quarter Moving Sum

Although taxable sales are growing, cash receipts are declining because of the temporary triple flip, which reduced the City's sales tax rate by 25% to enable payment of state-issued economic recovery bonds. The lost sales tax revenue is now returned to the City in property taxes.

## Change in Taxable Sales

### Calendar Year

Since 1969, statewide taxable sales increased at an average annual rate of 2 percent more than Los Angeles City taxable sales. Between 1969 and 2000, City taxable sales growth exceeded that of the state in only one year – 1987. Since 2000, the rates of change for the state and the City were about the same due to the severe effects of the recent recession on Northern California. For the long term, the established trend of lower City growth is most likely to again emerge.

## CURRENT FORECASTS FOR 2005-06 SALES TAX

### California Forecasts (Taxable Sales)

|  |             |
|--|-------------|
| Governor's Budget (For State FY 2004-05)               | 5.7%        |
| Chapman University                                     | 4.9%        |

| UCLA**   | <u>4.8%</u> |
| <b>Average</b>   | <b>5.6%</b> |
| Less estimate for normal lag between<br>State and City | <u>1.5%</u> |
| City of Los Angeles Sales Tax Estimate                 | <u>4.0%</u> |

The consensus of California forecasts shows growth statewide for taxable sales, averaging 5.6%. The City budget estimate is 4.0% growth. City sales tax revenue has typically grown at a rate 2% lower than statewide taxable sales. Because other parts of the state were hit harder by the recent recession, that normal differential did not occur in recent quarters. But with statewide economic recovery, the relationship between the City and State taxable sales is expected to return to the normal pattern.

\* Revised based on three quarters of actual receipts.

\*\* Budget estimate based on consensus of local economists and statewide forecasts.

This table presents actual City receipts from the sales tax. Each year is affected to some extent by such events as audits, tax increases known as "base broadeners," new tax exemptions, law changes, major refunds and other adjustments. Many factors besides the economy influence City sales tax receipts.

For most years, the effects of these adjustments, some positive and some negative, offset one another. Thus, the percent change in sales tax receipts from year to year is a good indication of the local economy. Highlighted are periods of revenue decline, which are generally coincident with national recessions.

The duration and depth of the Southern California-recession of the early 1990s was unprecedented. While the U.S. experienced a moderate recession, the Southern California economy more resembled a depression. In other recessions, periods of declining receipts did not exceed one year and the revenue level prior to the recession was exceeded in the first year of recovery. But sales tax revenue declined four years in a row in the early 1990s and did not exceed the previous peak until nine years after the downturn began.

During the six year-expansion beginning in 1994-95, the rate of growth averaged nearly 5%. Following the 1982-83 downturn, the rate of growth averaged nearly 7%. After the 1970-71 decline, the average growth rate was more than 10%.

The recession of 2001 appears to more resemble earlier ones than the Southern California contraction of the early 1990s with recovery around 4%.

This growth is expected to continue for 2005-06. To facilitate comparison, this table shows City sales tax in FY 2004-05 and 2005-06 at the previous 1% rate.

## Sales Tax Components

### Los Angeles County

### 2005

| <u>State Rate</u>                          | <u>Old Split</u> | <u>New Split</u> |   |
|--|------------------|------------------|---|
| General Fund Portion                       | 5.0%             | 5.25%            | This rate was temporarily lowered to 4.75% in calendar year 2001, but returned to 5% on January 1, 2002. It was increased to 5.25% on July 1, 2004 when the state exchanged local sales taxes for property taxes. |
| Local Revenue Fund                         | 0.5%             | 0.5%             | To support health program costs.  |
| Local Public Safety                        | <u>0.5%</u>      | <u>0.5%</u>      | For the Local Public Safety Fund, approved by the voters in 1993 to support local criminal justice activities. The City gets a small share of this, almost \$30 million.  |
| Total State Rate                           | 6.00%            | 6.25%            |   |
| <hr/>                                      |                  |                  |   |
| <u>Uniform Local Tax Rate</u>              |                  |                  | This rate is levied by all counties, of which .25 % is for county transportation funding. The remaining portion is allocated to point of sale jurisdiction.   |
| County Transportation                      | 0.25%            | 0.25%            | The county allocates a small portion of this to the City.   |
| Local Point of Sale                        | <u>1.00%</u>     | <u>0.75%</u>     | This is the City sales tax. The City's share was reduced by the triple flip starting September 2004.  |
| Total Uniform Local Rate                   | 1.25%            | 1.00%            |   |
| <hr/>                                      |                  |                  |   |
| <u>Optional Local Rates</u>                |                  |                  | State law permits optional voter approval of local tax rates.   |
| Proposition A                              | 0.5%             | 0.5%             | Voter approved measures to improve public transit and reduce traffic congestion.  |
| Proposition C                              | <u>0.5%</u>      | <u>0.5%</u>      |   |
| Total Optional Local Rate                  | <u>1.00%</u>     | <u>1.00%</u>     |   |
| <hr/>                                      |                  |                  |   |
| Total Sales Tax Rate in Los Angeles County | 8.25%            | 8.25%            | This ranges within the state from 7.25% to 8.5%. No county imposes the maximum allowable rate of 8.75%.   |

NOTES:

(1) Annual taxable sales data for 2004 are not available from the State Board of Equalization.

(2) Although the City's tax rate was temporarily reduced beginning in 2004, for the period shown in the table, the City's tax rate was 1% of taxable sales. The taxable sales values in this table do not directly correspond with City sales tax receipts. For example, although one percent of City taxable sales in 2000 is \$313 million, the City sales tax receipts in 2000-01 were 14% more -- \$557 million. The difference is partially related to the timing between calendar taxable sales activity and fiscal year remittances of cash to the City. Also, the state cannot identify all taxable sales activity by point of sale; in such cases, it distributes unidentified monies proportionately among taxing jurisdictions. Finally, the amounts of City sales tax receipts are adjusted due to audits, late remittances by retailers and other accounting corrections.

(3) City taxable sales outperformed the state in the period 2001 through 2004. For the five year period beginning in 1996, state growth was 8% compared to City growth of 5.5%.

The transfer from the Power Revenue Fund has historically been set as a percentage of prior-year gross operating power revenue. The Charter provides that the transfer may not exceed net income. The basis for the transfer was increased from 5 percent of prior-year power system operating income to 7 percent beginning in 2001-02. The 2005-06 power transfer will continue at 7 percent of 2004-05 power revenue, estimated at \$160 million.

For consistency, the above table does not include supplemental transfers. In 2002-03 a \$29 million one-time supplemental transfer was made directly to the Reserve Fund, followed by a similar transfer of \$25 million in 2003-04. In 2004-05, a third supplemental transfer of \$60 million was made, but this transfer was recorded as revenue to the General Fund.

The documentary transfer tax works like a real estate sales tax (tax rate = 0.45%). This tax is tied to real estate market activity and is more volatile than other City revenues. Because of lags in collections, City receipts trail market activity by about one calendar quarter.

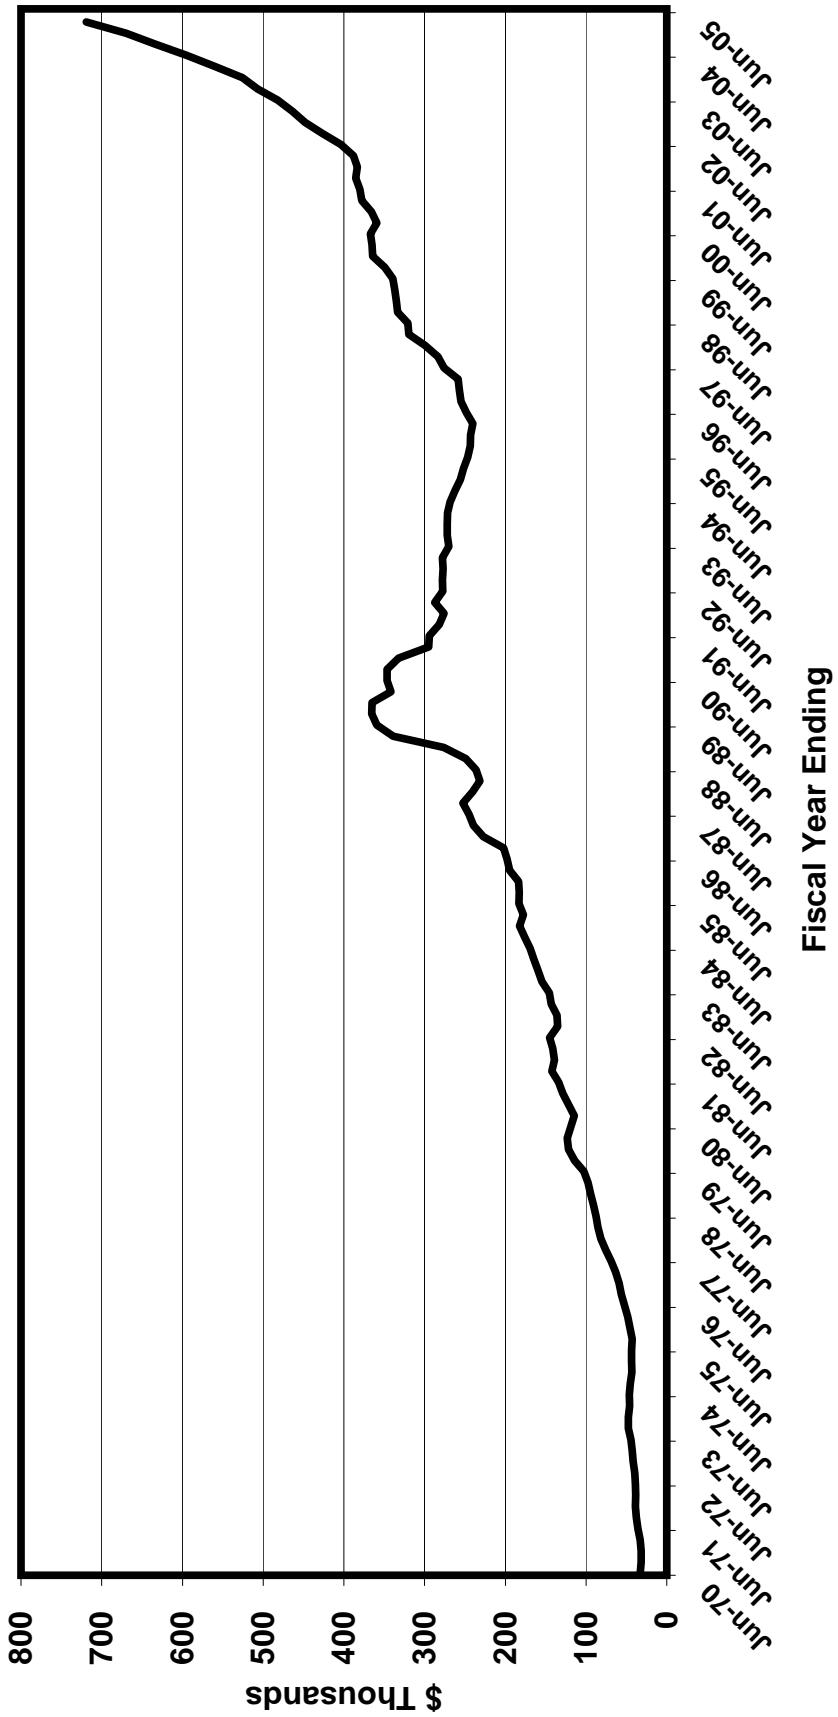

Prices are rising at a slower rate and volume is declining. The estimate for 2005-06 is based on advice of a leading local real estate expert and is consistent with published reports on local real estate activity. Key assumptions are that volume of real estate activity will decline from the present level and that any price increase will be at a much slower rate.

Due to declining volume and more stable prices, the forecast for 2005-06 anticipates a 15 percent decline in City revenue from the current year. Recent and long-term trends are presented on the following pages.

**Average Selling Price**  
**4-Quarter Moving Average**  
(Imputed from Documentary Transfer Tax Receipts)

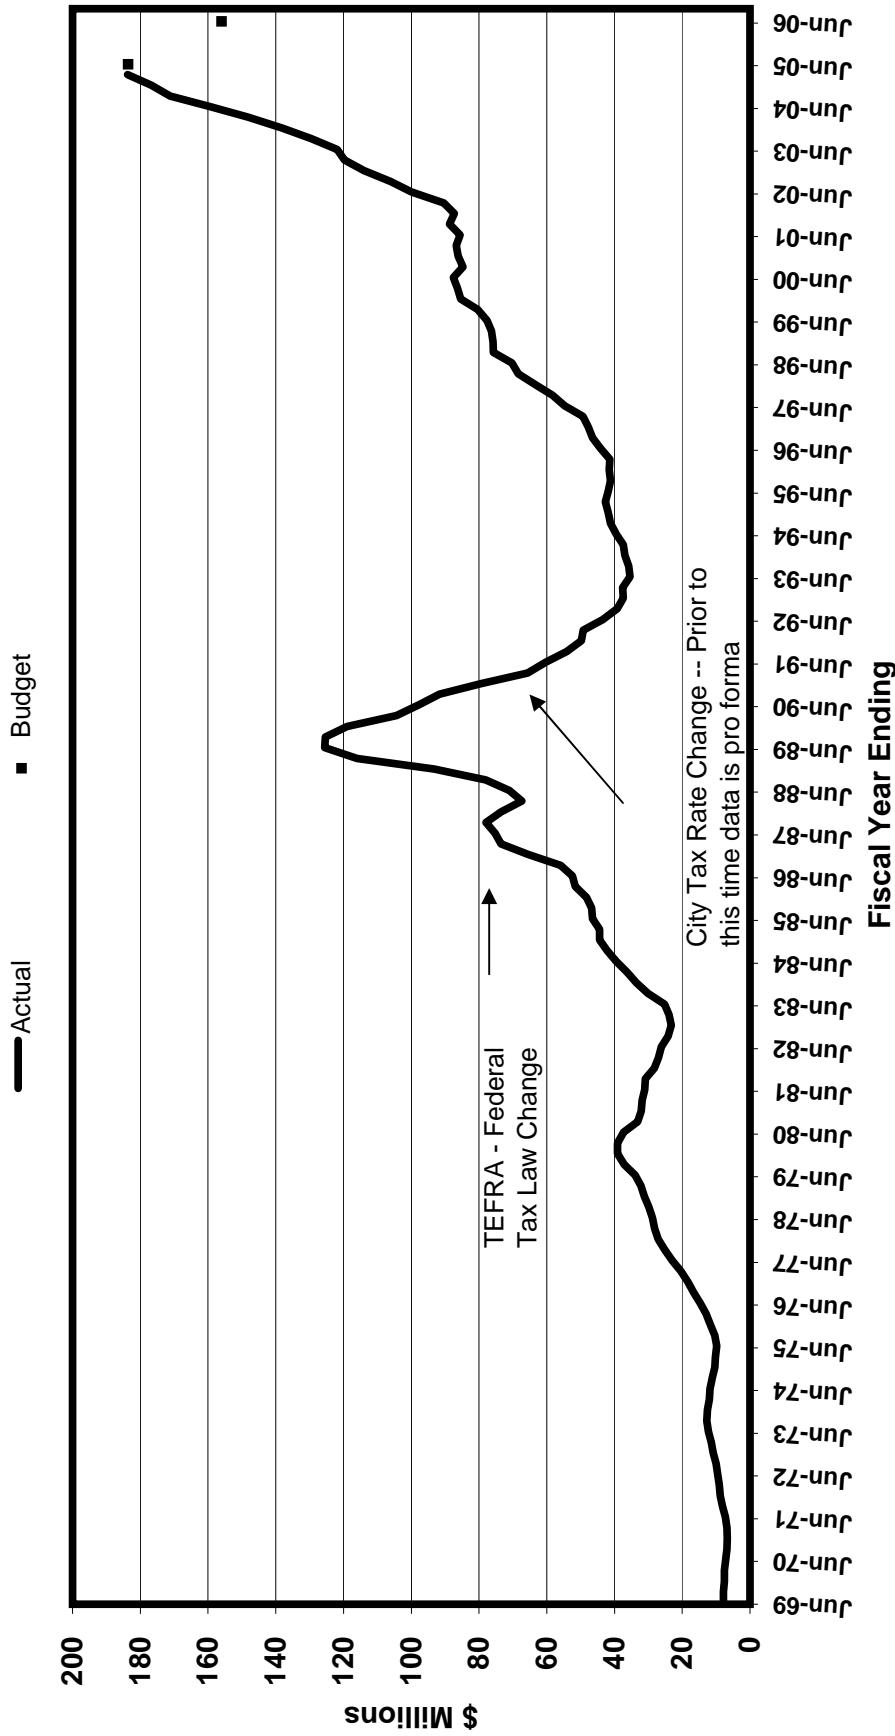

This graph tracks combined commercial and residential real estate prices. The documentary transfer tax forecast is based on expert opinion that real estate volume will decline but that prices will continue to rise, albeit at a slower rate. If prices were to fall, as they did in the early 1990s, the revenue estimate is very much at risk.

Although real estate volume has been rising steadily since 1992-93, it is anticipated to decline somewhat during 2005-06.  
Note the downturn in recent months.

**Documentary Transfer Tax Receipts**  
**4-Quarter Moving Sum**  
*(Adjusted for Change in Tax Rate)*

The cyclical nature of the local real estate market is apparent in this presentation. Adjusting for the tax rate change, City revenue declined by \$90 million between fiscal 1989-90 and 1992-93. In 1990-91 alone, the decline was \$37 million. There is high risk associated with any forecast of this revenue. The budget estimate is based on anticipated slowing in real estate activity offset by continued moderate growth in prices. Historical experience suggests caution.

The 2004-05 Revised Budget includes \$16 million added as one-time accelerated revenue reflecting a change in the date of hotel operator tax remittance from the last day of the month following the end of each calendar quarter to the 25th day of the month following the end of each preceding month. The 2004-05 growth in TOT revenue (less the one-time revenue) is estimated to be approximately 10%. The original 2004-05 budget had estimated growth at 6%. The amount estimated for 2004-05 (net of the one-time revenue) is still below the level reached in 2000-01: \$107,717 vs. \$108,539.

The 2005-06 Plan assumes TOT revenue growth of 6% over the revenue level estimated in 2004-05, net of the one-time 2004-05 revenue of \$16 million for accelerated collections. The amount estimated for 2005-06 will finally exceed the level reached in 2000-01, but it took five years to recover from the previous recession and the effects of 9/11 on travel.

\* Receipts shown in this table for FY 2004-05 reflect only the historical quarterly cash flow pattern. In addition to the \$108 million shown here, \$15.7 million should be added for accelerated collection. Total estimated FY 2004-05 revenue is \$123.7 million.

Based on taxable hotel sales, each 1% tax rate is equal to \$8.307 million in FY 2004-05 and \$8.805 million in FY 2005-06.

Based on City cash receipts, which include the effects of the shift from monthly to quarterly remittance in FY 2004-05, each 1% tax rate is equal to \$9.517 million in FY 2004-05 and \$8.805 million in FY 2005-06.

## CITY TAXABLE HOTEL SALES

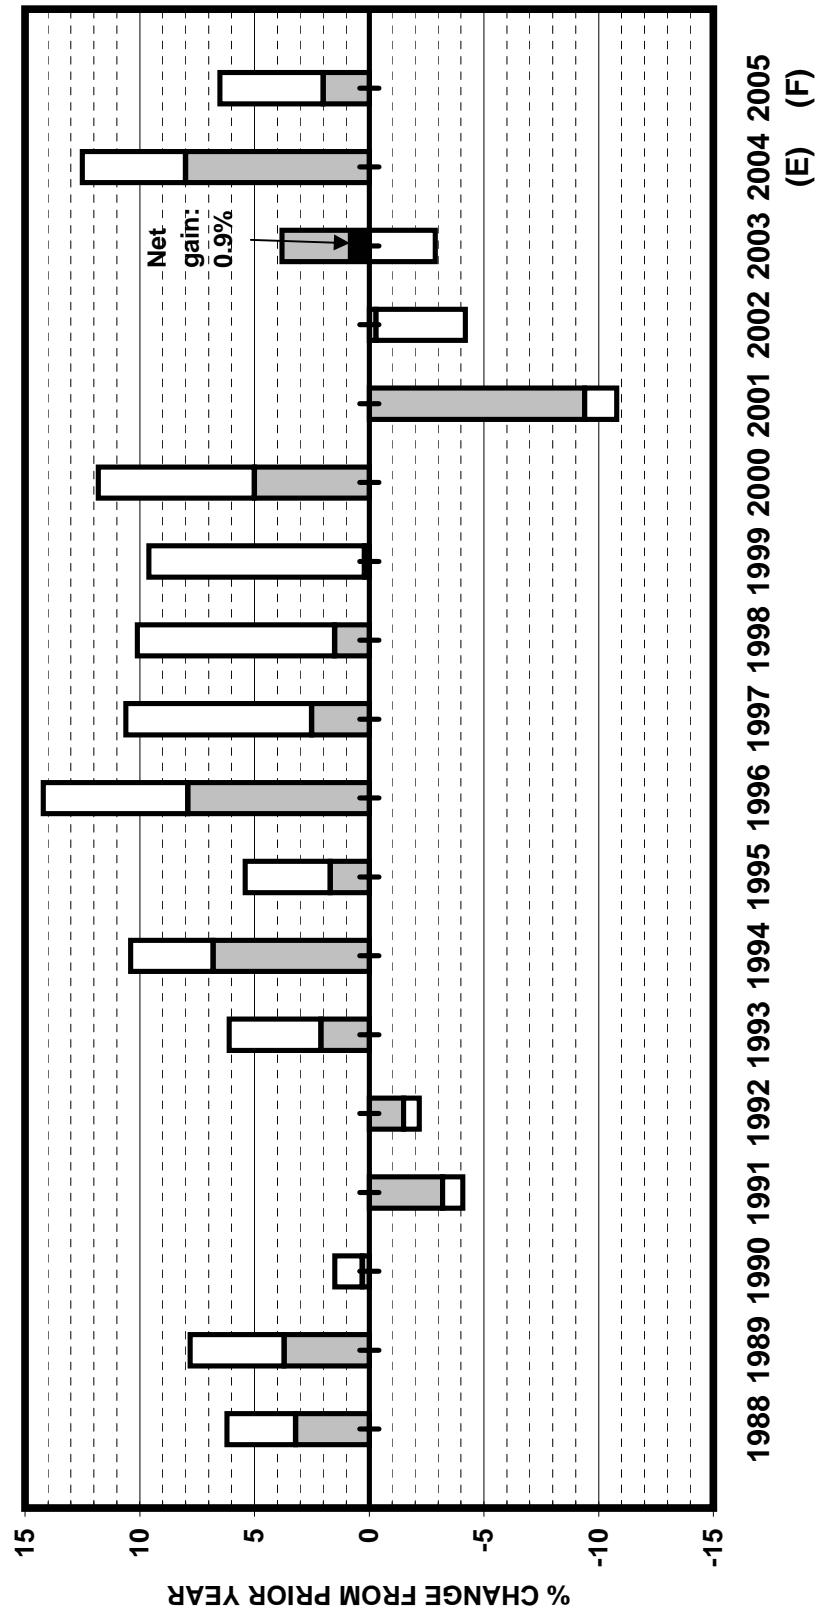

4-QUARTER MOVING SUM

In the early 1990s, hotel tax receipts fell by 16% during a period of 11 quarters. It took nearly six years to recover to the pre-recession level. Even so, the hotel tax outperformed the sales tax, which took 9 years to reach the pre-recession level. The current estimate anticipates 10% growth in hotel taxable sales in fiscal year 2004-2005 and 6% in fiscal year 2005-06, which will place the revenue above the fiscal year 2000-01 level.

The Department of Transportation (DOT) reports decreased "tickets issued" compared to the same period last year, but expects this situation to be corrected by the end of fiscal year 2004-05.

According to DOT, the unusually wet winter increased traffic control and other related activities and limited enforcement of street cleaning violations.

The 2005-06 base estimate of \$110 million assumes "tickets issued" level of approximately 3.2 million - about the same level as 2002-03 and 2003-04. The full deployment of 44 additional traffic officers in October 2005 will add another 75,000 tickets. The implementation of the second-late-penalty (\$10) in October 2005 and the additional officers will generate approximately \$3 million in additional revenue. The total projected revenue for 2005-06 is \$113 million.

\* Starting in 2005-06, the receipts for the Other Court Fines & Fees will be reflected in Licenses, Permits, Fees & Fines as Court Fines.

This is a 10% excise tax on users of commercial parking facilities in the City. FY 2001-02 revenue was affected by the recession, the temporary closure of the airports and by the decline in visitor traffic. The parking tax recovered more quickly than the other economy-sensitive revenues. In FY 2004-05, the tax remittance schedule for parking lot operators shifted from a quarterly to a monthly basis. This change does not affect fiscal year collection, but does modify the pattern of receipts. This account has shown steady growth in recent quarters.

This category records franchise fees (generally from users of public rights-of-way). This includes the distributors of natural gas; cable TV operators; and other businesses that operate as a result of obtaining a City franchise, including official police garages and taxi cabs. In prior years the largest franchise revenue was the wastewater fee, which averaged nearly \$20 million annually; that fee was eliminated in phases through fiscal year 2001-02. Additional detail is presented in the following pages.

The franchise payment received from natural gas suppliers is 2% of the gross sale of gas plus the value of gas not sold but only transported within the City. Franchise fee revenue between 1996-97 and 1997-98 was consistently close to \$13.4 million. It increased to \$21 million in 2000-01 due to higher natural gas prices. Although prices fell during 2001-02, the price of natural gas has increased again in recent months. A Gas Company representative states lower prices are not on the horizon. A review of forward market prices supports this.

This chart reflects revenue from the General Fund share of a 5%-fee imposed on gross cable TV revenue. (A 2%-portion of the fee is deposited into the telecommunications development account. The General Fund share is 3%) Although we track this revenue monthly, payments by the cable TV operators are made quarterly. Audit recoveries accounted for unusual growth in some quarters. With the exception of the audit recoveries, receipts have shown steady growth.

Four Quarter Moving Sum

Franchise income includes a fixed franchise fee per cab; a fee charged each time a cab franchise changes hands; and miscellaneous charges and penalties. Most taxi cab franchise income is determined by multiplying the number of cabs in service by the established city franchise fee. Higher fares and associated franchise fees were authorized and collected beginning in 2000. Revenue in the \$2.4 million range is expected to continue.

\* Rounded

The average cash balance available for investment to the benefit of the General Fund includes actual General Fund balances and all balances in those other funds that do not retain interest earnings.

The increase in TRAN interest income from FY 2003-04 to FY 2004-05 is a result of a \$200 million increase in the size of the TRAN. The increase in TRAN interest income from FY 2004-05 to FY 2005-06 is a result of an increased earning interest rate: the FY 2004-05 TRAN earning interest rate was 2.192%; the FY 2005-06 expected earning interest rate is approximately 3.35%.

This historically local revenue was at one time collected as part of the property tax. In the 1930s the state began collecting this local revenue as part of the vehicle registration process. More than 90 percent of this historically local revenue has been swapped back to property tax.

\* As modified by state actions.

\*\* July 2005 remittance included carry-over revenue from fiscal year 2003-04 which was not included in the budget. Most of the revenue from VLF is now swapped with in-lieu property tax. The remaining revenue from VLF is expected to be in the \$20 million range.

## VEHICLE LICENSE FEES

This revenue is an “ad valorem” tax and is based on the value of all registered vehicles in the state. Vehicle license fees (VLF) are traditional local revenue and, in the past, were collected as unsecured property tax. In the 1930s, the state began collecting this local revenue and distributing receipts to local governments in lieu of property taxes. This revenue source averaged 7.5% annual growth between fiscal year 1995-96 and fiscal year 2002-03.

Beginning in fiscal year 1998-99, the total amount distributed to local government consisted of VLF paid by vehicle owners (which were eventually reduced to about 35 percent of the total) and the amount paid by the state General Fund (about 65% of the total in fiscal year 2003-04) through an offset. In fiscal year 2003-04, the state Department of Finance determined that insufficient state revenue was available to pay the offset. This resulted in suspension of the offset and a drop in fiscal year 2003-04 City revenue of about \$66 million.

State repayment of the \$66 million in lost City revenue was deferred until fiscal year 2006-07. In March 2005, the City participated in the California Communities VLF gap loan financing program and received approximately \$60 million to hire additional police officers.

Proposition 1A, passed by the voters in November 2004, permanently changed the VLF rate from 2% to 0.65%, and the VLF offset was eliminated and replaced with a like amount of property taxes. As part of Proposition 1A, local governments will also forego approximately \$1.3 billion in both fiscal years 2004-05 and 2005-06, which reduces City revenue by about \$48 million in each of these fiscal years.

Most of the revenue the City formerly received from VLF is now received as property tax. The remaining revenue from VLF is expected to be about \$20 million; this is less than 10 percent of what was formerly received. Information on swapped VLF property taxes and remaining VLF revenue is summarized below and in the property tax section.

### **VLF for Property Tax Swap** (Million Dollars)

| City of Los Angeles share of population of all California cities | 13.1%         |
| <b>City VLF receipts</b>   | <b>\$20.9</b> |

\* Due to the VLF-Property Tax Swap mechanism, these categories are only applicable in FY 2004-05 and are eliminated in FY 2005-06.

\*\* The state VLF accounting is one month behind actual receipts. The July 2004 payment to the City was based on June 2004 actual numbers and did not account for the VLF-Property Tax Swap mechanism. The July 2004 payment included approximately \$170 million in additional revenue from the VLF fees paid by the vehicle owners as well as all the associated deductions, fee and collections which will not apply to the account after July 2004.

Annual estimates are projected by California Attorney General.

This revenue is part of a settlement in which seven tobacco companies agreed to restrictions on marketing practices and to pay \$206 billion during a 25-year period ending 2025 to California, 45 other states, the District of Columbia and five U.S. territories. In January 2000, the California Attorney General's office began receiving California's share of the settlement, which is about \$0.75 billion annually. Half of the payment goes to California's General Fund. The remainder is divided, based on population, among California's 58 counties and four largest cities for use as decided by each local government. Major assumptions include an adjustment for the volume of cigarettes shipped, a price-level adjustment, and that relative population of California counties will not shift. For the 2005-06 budget year, such assumptions do not pose a major threat to the estimate.

A \$500 tax is imposed on each new dwelling unit constructed in the City. Revenue is divided into two parts. \$200 of the \$500 tax is called the dwelling unit construction tax and is deposited into the Parks and Recreation Sites and Facilities Fund. Monies in that fund are used exclusively for the acquisition and development of park and recreational sites and facilities. The remaining \$300 is called the residential development tax and is deposited into the General Fund. This is a very volatile account since it is based on a relatively low volume of activity -- 3,000 to 7,000 units annually. Building activity is determined by economic conditions and the availability of building sites in the City. Because the City is relatively "built up," its housing construction activity is not directly comparable to that of the state and county.

This tax does have some relationship to the economy. Construction of new units all but collapsed in the early 1990s. Growth has been steady since the time of the 1994 earthquake. The sharp decline in fiscal year ending 2002 was undoubtedly connected to September 11. Nevertheless, similar to the documentary transfer tax, this account has outperformed the economy-sensitive categories.

Section 5.97 of the Los Angeles Administrative Code provides for the Telecommunications Liquidated Damages and Lost Franchise Fees Fund which receives all monies collected from cable television franchise holders as liquidated damages and franchise fees lost to the City due to unexcused delays in the construction or activation of cable systems. In addition, the Telecommunications Development Account within the Fund receives a two-percent share, or 40 percent, of the five-percent franchise fee payments from cable television and other telecommunications franchise holders. Monies from this account may be used for public, educational and municipal access programming and other telecommunications uses in the City, such as funding the costs of the Information Technology Agency.

The Administrative Code further provides that funds from the Telecommunications Development Account may be transferred to the General Fund upon a majority vote of the Council and approval by the Mayor. This revenue source receives any such transfers authorized by the Mayor and Council. The transfer amount is a budget policy decision, but cannot exceed the available balance in the Telecommunications Development Account. The transfer for 2004-05 was \$4.7 million - \$2.5 million more than the 2003-04 transfer and substantially more than is available for transfer in the 2005-06 budget. This additional transfer in 2004-05 was made possible by higher revenues in 2003-04 from audits and collection of back taxes and by reductions in contractual services expenses, ITA staff costs, Channel 36 funding, and capital equipment. Funds available for transfer in 2005-06 are closer to the 2002-03 level.

Court Fines (a former subset of Municipal Court Fines) is now included in Licenses, Permits, Fees and Fines beginning in 2005-06. In Fiscal Year 2004-05, PW Bureau of Financial Management and Personnel Services was merged into PW Board. Transit Shelter Income, Civic Center Parking Income and Los Angeles Mall Rental Income were also included in this account beginning in 2004-05. Building permit revenue which was formerly recorded in this account will be credited to a special fund beginning in Fiscal Year 2005-06.

Many departmental receipts are reimbursements from special funds and proprietary departments or other revenue that is best viewed on a City-wide basis. A City-wide perspective is presented on the following page.

**LICENSES, PERMITS, FEES AND FINES**  
**SUMMARY BY SPECIAL CATEGORIES AND DEPARTMENT**

Court Fines (a former subset of Municipal Court Fines) is now included in Licenses, Permits, Fees and Fines beginning in 2005-06. In Fiscal Year 2004-05, PW Bureau of Financial Management and Personnel Services was merged into PW Board. Transit Shelter Income, Civic Center Parking Income and Los Angeles Mall Rental Income were also included in this account beginning in 2004-05. Building permit revenue which was formerly recorded in this account will be credited to a special fund beginning in Fiscal Year 2005-06.

## LICENSES, PERMITS, FEES AND FINES

### SIGNIFICANT CHANGES

|  | Millions        |       |
|--|-----------------|-------|
|  | \$ 462.6        |       |
| <b>2003-04 Actuals</b>   |                 |       |
| ◆ DWP 2003-04 actuals included some one time payments and 2004-05 is reduced to offset prior year overcharges.                         |                 | (7.2) |
| ◆ MTA reimbursements for police services ended in 2002-03, 2003-04 reimbursement was clean-up payment; nothing expected in FY 2005-06. |                 | (4.6) |
| ◆ SEC overhead reimbursements reduced in 2004-05, due to insufficient funding for full payment.  |                 | (4.4) |
| ◆ Gas tax overhead reimbursements reduced in 2004-05, insufficient funding for full payment.   |                 | (3.5) |
| ◆ Special Parking Revenue Fund overhead reimbursements reduced in 2004-05.   |                 | (2.6) |
| ◆ Services to Harbor for Fire and PW Bureau of Contract Administration reduced in 2004-05.   |                 | (2.1) |
| ◆ Stormwater Fund reimbursements to the PW Bureaus are reduced due to workload changes.  |                 | (1.5) |
| ◆ PW Bureau of Street Services street/curb permit work reduced.  |                 | (1.4) |
| ◆ Reduced fire services to Airports.   |                 | (1.3) |
| ◆ CAO received a one-time reimbursement in 2003-04.  |                 | (1.0) |
| ◆ State mandated payment for animal adoption costs, one-time payment.  |                 | 1.0   |
| ◆ Police false alarm fees are reduced in 2004-05 due to uncertainties regarding this revenue.  |                 | 1.1   |
| ◆ Increase salvage and lease receipts expected in 2004-05.   |                 | 1.2   |
| ◆ Increased Miscellaneous Taxes and Fees expected in 2004-05.  |                 | 1.3   |
| ◆ Civic Center Parking Income now part of LPFF receipts in 2004-05, was formerly accounted for elsewhere.                              |                 | 1.7   |
| ◆ Animal Services license revenue is expected to increase in 2004-05.  |                 | 1.9   |
| ◆ Transit Shelter revenue now part of LPFF receipts in 2004-05, was formerly accounted for elsewhere.                                  |                 | 2.0   |
| ◆ Planning fee activity at higher level in 2004-05, driven by housing market.  |                 | 2.4   |
| ◆ Funding for Grant Funded Overhead reimbursements increased.  |                 | 2.9   |
| ◆ Personnel will receive payment of backlog of Workers' Compensation billings.   |                 | 10.3  |
| ◆ Increased services to Sewer Construction and Maintenance in 2004-05.   |                 | 10.4  |
| ◆ Funding is available to pay increased other special funded overhead reimbursements.  |                 | 10.9  |
| ◆ Increased Building and Safety activity, driven by housing market.  |                 | 13.3  |
| ◆ All others   |                 | 0.8   |

The wastewater program is scheduled to make a larger payment to the General Fund for support services in 2004-05 and 2005-06 compared to previous years. Overhead cost reimbursements are increased due to cost-of-living allowances and higher cost allocation plan rates.

| <b>Total Services to Stormwater Fund</b>       | \$ 6,374,201       | \$ 6,374,201      | \$ 6,374,201      | \$ 6,374,201      | \$ 4,921,570      | \$ 4,921,570       |
|  |                    |                   |                   |                   |                   | \$ 7,330,638       |

2004-05 overhead cost reimbursements are reduced since full funding is not available to pay all costs. In 2005-06, the revenue for the Stormwater Fund is expected to be sufficient to pay a larger amount of overhead costs.

| Treasurer                            | 909,395            | 954,177           | 781,319           | 142,949           | 1,035,321         | 516,780            | 778,373           |
| <b>Total Services to Airports</b>    | \$ 33,556,372      | \$ 37,631,498     | \$ 48,413,727     | \$ 52,929,858     | \$ 39,017,832     | \$ 51,659,533      | \$ 41,952,470     |

The \$18.1 million shown in fiscal year 2003-04 as "non-departmental" is for police-related services at the Airports and that amount should be added to the \$10.6 million shown for Police. Total Police-related expenses in 2003-04 were about \$29 million. The Fiscal Year 2004-05 reimbursements for City services are increased primarily for greater police presence due to the September 11th terrorist attacks. The Fiscal Year 2005-06 reimbursements are lower since specific Airport-related Police overtime expense is not included in the budget (except for some expected spillover for costs incurred in 2004-05 but not billed and received until 2005-06). Should such an expense become necessary, additional offsetting reimbursements would be received.

|  |                      |                      |                      |                     |                     | <b>\$ 956,168</b>   |

Declining Gas Tax Fund revenue and increased appropriations from cost-of-living allowances leave less funding available for reimbursement of overhead costs in 2004-05 and 2005-06. The General fund will make up the difference.

|                          |                    |                   |                   |                   |                   | \$ 776,381         |

This reimburses the General Fund for such services as telephone, information technology support, workers' compensation, health and similar costs. The overall chargeback reimbursement was reduced starting in fiscal year 2003-04 because chargebacks are now only received from Pensions and CERS. Chargebacks are no longer paid by Recreation and Parks, El Pueblo and Library because these departments rely on partial funding from the General Fund.

For 2004-05, the estimate is primarily made up of economy-sensitive revenue from building permits, plan check fees and other construction related fees. In 2005-06, Building and Safety receipts will be deposited into the Building and Safety Enterprise Fund. The 2005-06 estimate is primarily made up of overhead cost reimbursements to the General Fund.

The City Attorney's revenue budget includes proprietary service reimbursements, damage settlements and special fund reimbursements. The reduction in the 2004-05 revised budget from the 2004-05 adopted budget is due to damage settlements coming in below the original plan. In 2005-06, increased reimbursements from proprietaries is expected.

The majority of the City Clerk's revenue is for reimbursement of election costs from the Community College District elections. For 2005-06, the City Clerk expects a reduction in election reimbursement due to reduced election services provided to the Community College and Los Angeles Unified school districts.

Cultural Affairs' revenue is primarily reimbursement of overhead costs from special funds and these reimbursements are lower in 2005-06. There is insufficient funding available in the Arts and Cultural Facilities and Services Trust Fund to reimburse General Fund overhead costs at the 2004-05 level.

## General Fund Departmental Receipts

General Service's revenue is made up of special fund overhead reimbursements, sale of surplus property and equipment, chargebacks to CERS and Pensions and lab testing fees. A repayment of previous overbilling for services provided to DWP and reduced lease revenue reduces the 2004-05 revised and 2005-06 proposed estimates.

Personnel Department's revenue is primarily made up of proprietary department reimbursements for personnel services. The 2004-05 revised estimate includes payment of \$12 million in workers' compensation billings (two year's worth) due to a backlog. In 2005-06 the revenue from such billings is expected to return to the more normal level of \$6 million.

Planning Department's revenue is largely from various zoning and land use fees and reimbursement of overhead costs from special funds. For 2004-05, planning fees are doing very well due to the housing market. As the construction and permitted remodeling of homes is expected to decline in 2005-06, planning fees are expected to decline slightly.

Reflects mostly street and curb permits and overhead reimbursements from special funds. While increased engineering fees are expected to moderately increase revenue, the increase in 2005-06 is primarily due to increased overhead reimbursements from SCM.

Street Services revenue is mostly from street/curb permits and reimbursement of City overhead costs from special funds. Increased curb permit activity, overhead reimbursements and a new revenue for newsrack enforcement are responsible for the increase in 2005-06

## General Fund Departmental Receipts

Office of Finance revenue is included prior to fiscal year 2002-03. The increase in 2005-06 is due to increased reimbursements from the proprietaries and new revenue sources such as the asset management and credit card convenience fees.

Detail of these court fines is shown on following page. This is a very volatile revenue and is affected by court orders and unpredictable court charges for court reporter salaries. Prior to fiscal year 2005-06, this revenue was recorded in "Municipal Court Fines."

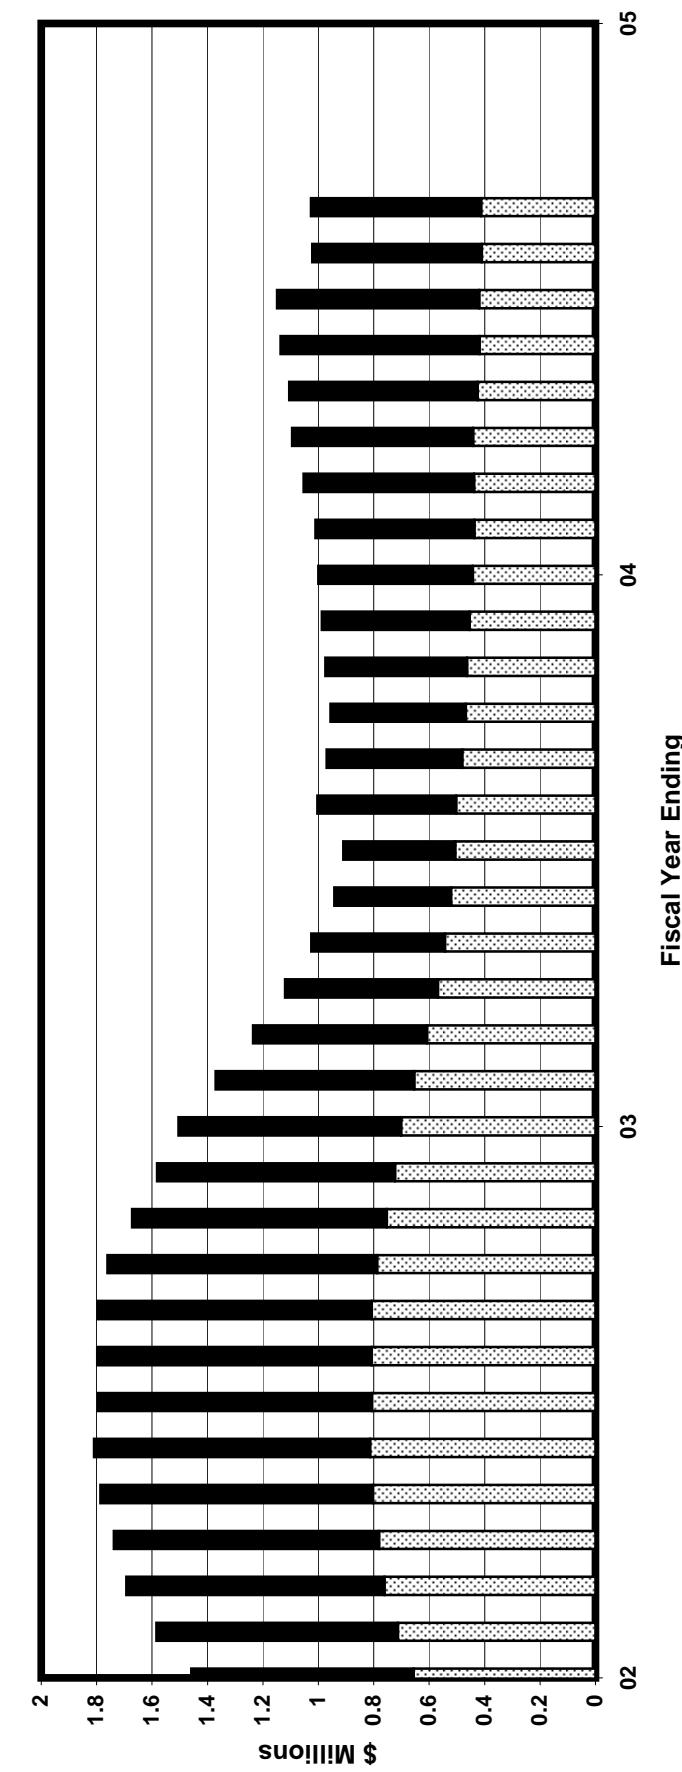

**SUMMARY**  
**Court Fines to the City of Los Angeles**

**Source: Monthly Distribution Report Prepared by Superior Court and City Financial Records**  
**Reflects Court Activity Between June 2001 and February 2005**

Fiscal year 2003-04 was affected by significant bail refunds; this account is very volatile. Photo camera violations are only one relatively small variable.

## City Revenue From Photo Red Light Violations 12-Month Moving Sum

One component of this account is revenue from photo-red-light citations. State law provides that about one-half of the revenue from such violations is to be deposited into the Traffic Safety Fund; the balance -- shown as the darker portion of the bar graph is deposited into the General Fund. As can be seen on the preceding page, many factors affect court fines.

## Non-Parking Related General Fund Court Fines 12-Month Moving Sum

The sanitation equipment charge monthly rate was increased from \$6.00 (\$4.00 for dwellings on multi-unit properties) to \$10.00 (\$6.60 for dwellings on multi-unit properties) in October 2003. The 2004-05 budget recognized a temporary \$1.00 increase for single-family dwellings (\$0.67 for units on multi-unit properties) to finance the central transfer station. This change became effective September 2004.

## **SANITATION EQUIPMENT CHARGE**

In 1993, state legislation provided for the allocation of 1/2 cent sales tax to local government. Proposition 172 was approved by the electorate in November 1993 which extended the allocation, for use exclusively for public safety purposes. Funds are allocated by the Board of Equalization to counties, which in turn, distribute a portion to cities. A city's share is determined by the amount of property taxes shifted to schools in the 1993-94 state budget and further adjusted by other state actions.

The rate of growth is different than that used to estimate the Proposition A and C allocations, which are driven by L.A. County taxable sales. The rate of change is also different than that used to estimate city sales tax, which is determined by taxable sales in the City. Also different is the lag between the taxable sales event and receipt of tax proceeds by the City. City receipt of sales tax distribution lags the taxable event by about one calendar quarter. For the Local Public Safety Fund, the lag is about six months.

\* June 2004 receipt would have been \$1.466 million and fiscal year 2003-04 total would have been \$16.082 million except an extraordinary \$0.8 million deduction to offset the City's assessment for court reporter costs.

The Traffic Safety Fund receives revenue from fines, bail and traffic school fees associated with citations for moving violations within the City except where other disposition of such revenue is provided by law. Tickets are primarily issued by LAPD, but some are issued by the California Highway Patrol and all other traffic enforcement agencies.

The City's share of moving violation revenue varies by type of citation, but is typically 92% of non-penalty collections. The City share was cut in half beginning in fiscal year 1991-92 and was restored in fiscal year 1998-99. Moving violation citation issuance by LAPD increased steadily from about 400,000 in 1993 to approximately 600,000 in 2000, but declined again to about 460,000 in 2003. We have seen signs of higher citation issuance in recent months. This account includes a portion photo-red light-related-fines.

## MOVING TRAFFIC VIOLATIONS 12 MONTH MOVING SUM

Coincident with the 1991 Rodney King-related events, the 1992 civil disturbance, and a 1991 State law change that diverted 50% of the City's share of traffic violator fine revenue to the courts, citation issuance declined from 700,000 in 1990 to 400,000 in 1993. With the exception of an unexplained dip in 1998, citation issuance increased steadily to 600,000 through 1999, when State law was amended again to restore the City's share of fine revenue. Then, coincident with Rampart issues, monthly citation issuance began dropping rapidly to about 500,000 in 2000. It increased to 550,000 in 2001.

After September 11, 2001, citation issuance once again turned down, but it is not likely that diversion of police officers to post-9-11 security fully explains the drop in citation issuance through 2003. Citation issuance increased during 2004.
