SECTION 1

2021-22

Overview

## **Preface**

“Exhibit B, Budget Summary Receipts” included in Section 1 of the “2021-22 Proposed Budget” itemizes City revenue by source. Additional information on 2020-21 and 2021-22 receipts is displayed in the “Detailed Statement of Receipts” included in Section 3 of that document. Revenue information is also displayed in other parts of the budget such as “The Detail of Departmental Programs.”

This “Revenue Outlook” is a supplement to the 2021-22 Proposed Budget and provides in one place, supporting information for all General Fund revenue estimates and for estimates for certain special funds that directly finance the budget.

Section 1 of the Revenue Outlook provides an overview, major revenue assumptions, and a five-year revenue forecast. Section 2 provides historical perspective and current information on each General Fund revenue, except for the category “Departmental Receipts,” which is provided in Section 3. Section 4 provides similar information for special fund revenue directly financing the budget.

## **The Economy and Revenue Assumptions Fiscal Year 2021-22**

One year ago, the onset of the COVID-19 pandemic and the introduction of public health measures meant to control its spread brought on massive disruption to businesses, the economy, and society at large. At that time, while economists largely agreed that the pandemic and closures would trigger a recession, there was no consensus on its severity or length. Citing the relative health of the pre-pandemic economy, higher state and local government reserves and current stimulus efforts, less conservative forecasts predicted a U-shape recession and recovery in 2021. At the same time, others offered bleak predictions for a sharp and extended economic downturn, possibly equaling the impact of the Great Depression.

Unable to predict the severity or length of the pandemic and public health restrictions, revenue estimates for 2020-21 were based on the information available at the time. With the initial closure order scheduled to end in May of 2020, a full reopening was expected by the start of the new fiscal year, and most revenue estimates reflected the expected recovery in monthly receipts by the end of the 2020 calendar year. The initial impact that the initial Safer-at-Home order had on City operations, from closed offices and reduced demand for services, were used to estimate decreased departmental receipts. Historical data from prior recessions for the economically sensitive revenues were used to estimate the impact of a shock-induced recession and swift recovery. In light of the challenges in forecasting revenue with so many unknowns, the estimated revenues for 2020-21 are falling significantly below plan.

For the first half of 2020-21, the length and severity of the pandemic presented a moving target in predicting when public health restrictions would end and the economy (and revenues) would begin recovery. The shortfall between budget assumptions and realized receipts grew monthly, resulting in an estimated year-end revenue deficit nearing \$600 million for 2020-21. The extended social-distancing measures, limited business reopenings followed by renewed closures, and tighter travel restrictions, has placed an increasing strain on the economy.

The pandemic's economic impact to business and employment sectors has varied with travel, entertainment, and the leisure and hospitality sectors taking the greatest hit. Manufacturing, retail and personal service activities that depend on close contact have also sustained deep impacts. Unemployment within the City shot up from 4.7 percent (February 2020) to 19.1 percent during the height of the public health restrictions and is currently at 10.2 percent. Of the businesses that closed during the pandemic, many will never reopen. Tourism in the County of Los Angeles (County) dropped 48.5 percent from 2018-19, due to the travel restrictions and economic downturn that began in 2019-20, and recovery will need to overcome tourist hesitancy and reduced demand for

business travel. Similarly, the demand for commercial retail and office space declined with the pandemic-driven business closures, and the increasing shift from brick-and-mortar locations to on-line retail and teleworking solutions may hinder recovery. The drop in demand for parking—from employees, customers and visitors—can also be attributed to public health restrictions and business closures. As a result, the City tax revenues that mirror these economic changes—sales tax, business tax, transient occupancy, parking occupancy, and to a lesser extent, property tax—are falling well below amounts in 2020-21 adopted budget. For receipts that lag behind the economy—sales tax by a quarter, property and business tax by a year—the full impact may not be realized until 2021-22.

City services, while not typically considered economically sensitive, have decreased during this time as well. Reimbursements for police services to Los Angeles World Airports and LA Metro were reduced under declining travel and use of public transportation. Ambulance service billings declined with the need for transport, as individuals remained at home. License, permit, fees and fine receipts dropped with closed City facilities, canceled events and suspended filming.

Conversely, other economic sectors have remained relatively unscathed during the pandemic, resulting in what economists have described as a K-shaped recovery. Business sectors with activities that were free from public health restrictions, or with a workforce that could transition to telecommuting, or with access to capital to weather closures were less likely to lay off employees or reduce work hours. Employees in such sectors as financial services, professional, scientific and technical services, utilities, and construction, were likely to be better skilled and have higher incomes prior to pandemic. Nationwide, the households that experienced no income loss (53 percent) or reported gains (16 percent) have supported economy, including home sales. Consequently, the City's documentary transfer tax and residential development tax, which both experienced drops in revenue with the initial shutdown, have returned to their pre-pandemic levels. However, these modest improvements are insufficient to offset the drop in other tax receipts and other non-tax revenue losses.

In its efforts to sustain the economy and support the pandemic response and recovery efforts, the federal government has provided relief and stimulus funds via the Coronavirus Aid, Relief, and Economic Security (CARES) Act and the American Rescue Plan (ARP) Act. This funding benefits individuals, business, and state and local governments. ARP funding alone will more than offset the City's current year revenue shortfall and the reduced receipts anticipated for the proposed year. Additionally, federal funding in the form of disaster assistance grants from the Federal Emergency Management Agency (FEMA) are anticipated this year and next as partial reimbursement for the City's pandemic response efforts.

In addition to the receipt of federal funds, the budget assumes the widespread availability of COVID vaccines will soon bring an end to the pandemic, with herd immunity achieved by the end of July. Although parts of the country are currently experiencing an uptick in infections and hospitalizations, and notwithstanding the risk of a more virulent COVID variant, no additional closures are presumed. Revenue estimates assume varying degrees of recovery in monthly receipts, depending on the underlying economic drivers that would constrain or boost growth. Additional details and assumptions are provided below, with forecast estimates included in the General Fund Outlook Table and Assumptions in this Section, and with monthly and prior-year data in Sections 2 and 3.

## **2021-22 Revised General Fund Revenue**

Total revised General Fund revenue for 2020-21 is \$7.02 billion, an increase of 5 percent (\$336.6 million) above adopted revenue that includes the receipts from one-time federal funding totaling \$880.6 million. Without this funding, the City would be confronted difficult decisions under a more austere budget. Excluding federal relief funds, budgeted revenue is expected to end the year at \$6.14 billion, \$544.0 million (-8.1 percent) short of adopted receipts.

Adopted General Fund revenue for 2020-21 was \$6.69 billion, an estimated increase of 1.8 percent from 2019-20 adopted revenue, but 4.9 percent above actual receipts due to a \$195.5 million year-end deficit. The deficit, attributed to the first pandemic closures in 2019-20, created a substantial shock to travel, business and home sales activities; halted City services; and prompted initial relief measures for owed taxes, fees and fines. The impact to 2019-20 final quarter receipts foreshadowed the toll it would have on 2020-21 revenues. At the mid-year point of 2020-21, based on data through January 2021, the City anticipated falling \$600 million short of adopted receipts. This estimate has slightly improved to \$544.0 million or 8.1 percent below adopted receipts. The federal funds received to date and expected to arrive later this fiscal year have fully addressed this revenue shortfall.

Representing approximately 70 percent of General Fund's core revenue base are seven major taxes: property, utility, business, sales, document transfer, and transient occupancy and parking occupancy, all of which are vulnerable to declines during an economic downturn. Since 1990 actual receipts from these sources have averaged 3.7 percent growth, yet, during the second year of the Great Recession these combined receipts declined 4.8 percent. The \$544.0 shortfall includes pandemic-related losses for the economy-sensitive revenues totaling \$280.6 million in the transient occupancy, parking occupancy, sales, property, business and utility users taxes (-\$144.1 million, -\$45.1 million, -\$40.9 million, -\$33.8 million, -\$9.6 million, and -\$7.1 million, respectively). The net decline in all seven taxes is -2.3 percent, nearer to the loss seen after the 1990-91 recession. While the drop in tourism, business closures and job loss

were the cause of much of the decline, increasing delinquencies and tax relief measures also contributed to shortfalls.

Other pandemic-related losses identified in current year revenue include reduced city services and reimbursements across multiple departments (-\$184.5 million); decreased parking demand, enforcement and parking-related receipts (-\$80.1 million); reduced earnings on investments (\$9.0 million); and less 2019-20 operating revenue to fund the 2020-21 Power Revenue Fund transfer (\$5.7 million). Offsetting these sizeable revenue losses are smaller surpluses in property tax increment, documentary transfer and residential taxes (\$13.6 million), as well as other miscellaneous receipts (\$2.3 million) that have not been impacted by pandemic.

Federal relief funds has spared the City from making drastic spending cuts to address the \$544.0 million shortfall. This funding includes the transfer of \$125 million in CARES Act funding to the General Fund to repay the Building Permit Trust Fund for front-funding pandemic response efforts; \$78.4 million in estimated FEMA reimbursements for eligible disaster response expenditures; and \$677.3 million in ARP funds anticipated before the close of the fiscal year.

## **2021-22 Proposed General Fund Revenue**

Total proposed General Fund revenue for 2021-22 is \$7.33 billion, which includes receipts from one-time federal funding sources totaling \$703.3 million, and represents an increase of 9.7 percent above adopted revenue and 4.5 percent above revised. Excluding one-time federal receipts from the revised 2020-21 and proposed 2021-22 estimates, total General Fund revenue for 2021-22 is closer to \$6.63 billion, representing a decline of -0.8 percent from the 2020-21 adopted budget, but an increase of 8.0 percent above the revised estimates representing the recovery of the City's core revenue base.

Federal funding included in the proposed budget includes FEMA reimbursements for pandemic response efforts (\$26.1 million) and the second tranche of ARP funding (\$677.2 million). Other one-time receipts include a \$3 million Fire Department grant for breathing apparatus equipment, \$3.1 million in CRA/LA property sale proceeds, \$3 million in transit shelter income, and \$2.4 million from salvage sales and escheatments, to total \$714.8 million.

## Fiscal Year 2021-22 Growth Summary for Economy Sensitive Taxes

Above Average	Average Growth	Below Average	Decline
<ul style="list-style-type: none"> <li>• Business</li> <li>• Sales</li> <li>• Transient Occupancy</li> <li>• Parking Occupancy</li> </ul>	<ul style="list-style-type: none"> <li>• Property</li> <li>• UUT-Gas</li> <li>• Documentary Transfer</li> </ul>	<ul style="list-style-type: none"> <li>• UUT-Electric</li> </ul>	<ul style="list-style-type: none"> <li>• UUT - Communication</li> </ul>

---

Estimated growth compared to 10-year averaged growth.

Growth in the City’s seven major taxes from the revised 2021-22 estimate is 8.8 percent, compared to an estimated decline of -2.3 percent for the previous year. This growth includes the presumed recovery in transient and parking occupancy taxes, which together have dropped an estimated 65 percent from pre-pandemic receipts due to the combined impact of travel restrictions, business closures and recession. Despite the 75 percent growth assumed for both in 2021-22, these receipts are expected to remain well below 2018-19 revenues. Sales tax and business tax (excluding cannabis activities) which includes receipts from sectors able to adapt to the pandemic, dropped an estimated 8.1 percent from 2018-19 revenue. High growth expected for sales tax presumes that 2021-22 revenue surpasses 2018-19 receipts and represents a move towards the pre-pandemic growth trend. More modest, but still higher-than-average growth is assumed for non-cannabis related business taxes as receipts reflect the economic conditions of the prior calendar year—i.e., the 2022 renewal period will reflect the muted business earnings from current 2021 restrictions. Business tax from cannabis activities continued to grow unabated throughout the pandemic, and 2021-22 assumes continuing growth in current tax period receipts and slowing growth in prior-tax period collections.

Property, utility users and documentary transfer tax estimates reflect assumptions that their respective tax base (assessed value; gas, power and telecom pricing and demand; and home prices and sales) were minimally impacted by the pandemic, with previous growth (or decline) trends assumed to continue. However, both property and electricity users taxes reflect adjustments made for increased taxpayer and ratepayer delinquencies seen during 2020-21.

Growth in departmental receipts reflect the easing of pandemic-related restrictions on Transportation, Police, Fire, Building and Safety, Animal Services and other department services, restoring license, permit, fees and fine receipts. Additionally, updates to the cost allocation plan will increase reimbursements for related costs and other expenditures from proprietary and special funded departments. However, decreased balances in the solid waste, gas tax, stormwater, and other special funds will reduce reimbursements below cost recovery.

Other changes to the proposed budget include increased receipts from parking citations and the Special Parking Revenue Fund transfer as parking demand increases; an increased Power Revenue Fund transfer in line with assumptions for current year fund revenue; augmented cable television franchise revenue with the redirection of franchise fees previously deposited in the Telecommunications Development Account; and a decline in interest earnings due to lower investment returns.

Assumptions and potential issues that may adversely affect 2021-22 revenue projections include:

- Revenue estimates assume the end of pandemic restrictions and the recovery in receipts with widespread vaccination and herd immunity reached by the end of July. No additional closures are assumed. If vaccination efforts stall, or if variants prove to be vaccine resistant, there is risk of new outbreaks prompting renewed restrictions.
- The absence of a preliminary growth forecast for property tax from the County Assessor requires that growth estimates be based on historical receipts, current trends and other applicable information from the County or other sources. Lower inflation adjustments are assumed for assessed values for the 2021 tax year, while secured receipts assume a higher collection rate. Growth in supplemental and unsecured receipts are based on 2020-21 fiscal year growth assuming minimal change from the pandemic. Refund and redemption activity are expected to be higher with the revaluation of commercial property and the payment of delinquent taxes. There is downside risk if the pandemic's impact exceeds these assumptions.
- Property tax increment revenue from the former CRA/LA proves difficult to project due to the receipt of additional surplus property proceeds, negotiated settlement payouts, and adjustments to recognized obligation payments. Both the June 2020 and January 2021 remittances deviated significantly from County estimates. The April 2021 estimate for the upcoming June remittance was lower than forecast. The 2021-22 revenue estimate attributes the drop to a shift in the timing of distributions rather than a drop in tax increment value.
- Departmental receipts are dependent on policy decisions to increase departmental fees, collect full overhead cost reimbursements and reimbursements from other agencies. Related cost reimbursements are at risk if vacancy rates for special fund and proprietary reimbursed positions exceed rates assumed in the budget. License, permit, fees and fines receipts are at risk if service levels continue to be constrained by pandemic restrictions.
- The electricity users tax estimate for 2020-21 and 2021-22 are provided by the Department of Water and Power (DWP) and are based on the 2020 load forecast updated with actuals through February 2021 and adjusted to

reflect delinquent payments. DWP's update to the load forecast to reflect the latest economic outlook was pending during the development of the budget.

- Business tax estimates for non-cannabis activities assume a modest recovery in 2022 annual renewal period, based on the growth rate from the 2020 renewal period and estimated 2021 tax period receipts as the base. While tax period growth was lower during the recovery from the Great Recession, this was attributed to the severity of economic decline and the broad sectors that were impacted.
- The sales tax growth rate of 17.5 percent follows two years of consecutive declines. Proposed receipts are only 4.3 percent above the pre-pandemic revenue realized in 2018-19. Revenue estimates assume the return of indoor business operations, a decline in unemployment, and low inflation. There is downside risk if these assumptions are missed.
- Transient occupancy tax revenue assumes a 75 percent increase to hotel and short-term rental revenue, again after two years of declines. Proposed revenue remains below 2018-19 actual receipts. Estimates are based on assumptions for room demand and room rates, with greater downside risk from international tourism assumptions. There is additional risk to short-term rental receipts since the full-year impact of the City's home-sharing ordinance in 2020-21 could not be accurately quantified during pandemic travel restrictions.
- Parking occupancy assumes the same 75 percent growth as transient occupancy tax, although from a relatively smaller decline in 2020-21. There is potential liability for the credit against taxes owed for pre-paid parking occupancy taxes collected from prior year season-ticket holders
- The documentary transfer tax is most volatile when sales volume and price move together. Since the real estate bust, sales volume has remained low while prices have appreciated as a consequence of low inventory. This trend was amplified during the pandemic with the combined drop in inventory and interest rates. The current year estimate assumes that pricing and sales volume remain stable under increasing mortgage rates.
- FEMA disaster grant reimbursements are based on documented project costs that are subject to review and audit. There is downside risk for costs that are disallowed and delays in reimbursements.

The following two graphs provide a perspective on the economy and the City's General Fund taxes. Revised, proposed, and forecasted growth assumptions for 2020-21 through 2025-26 follow. The balance of this book provides detail on each General Fund revenue.

# Gross Domestic Product

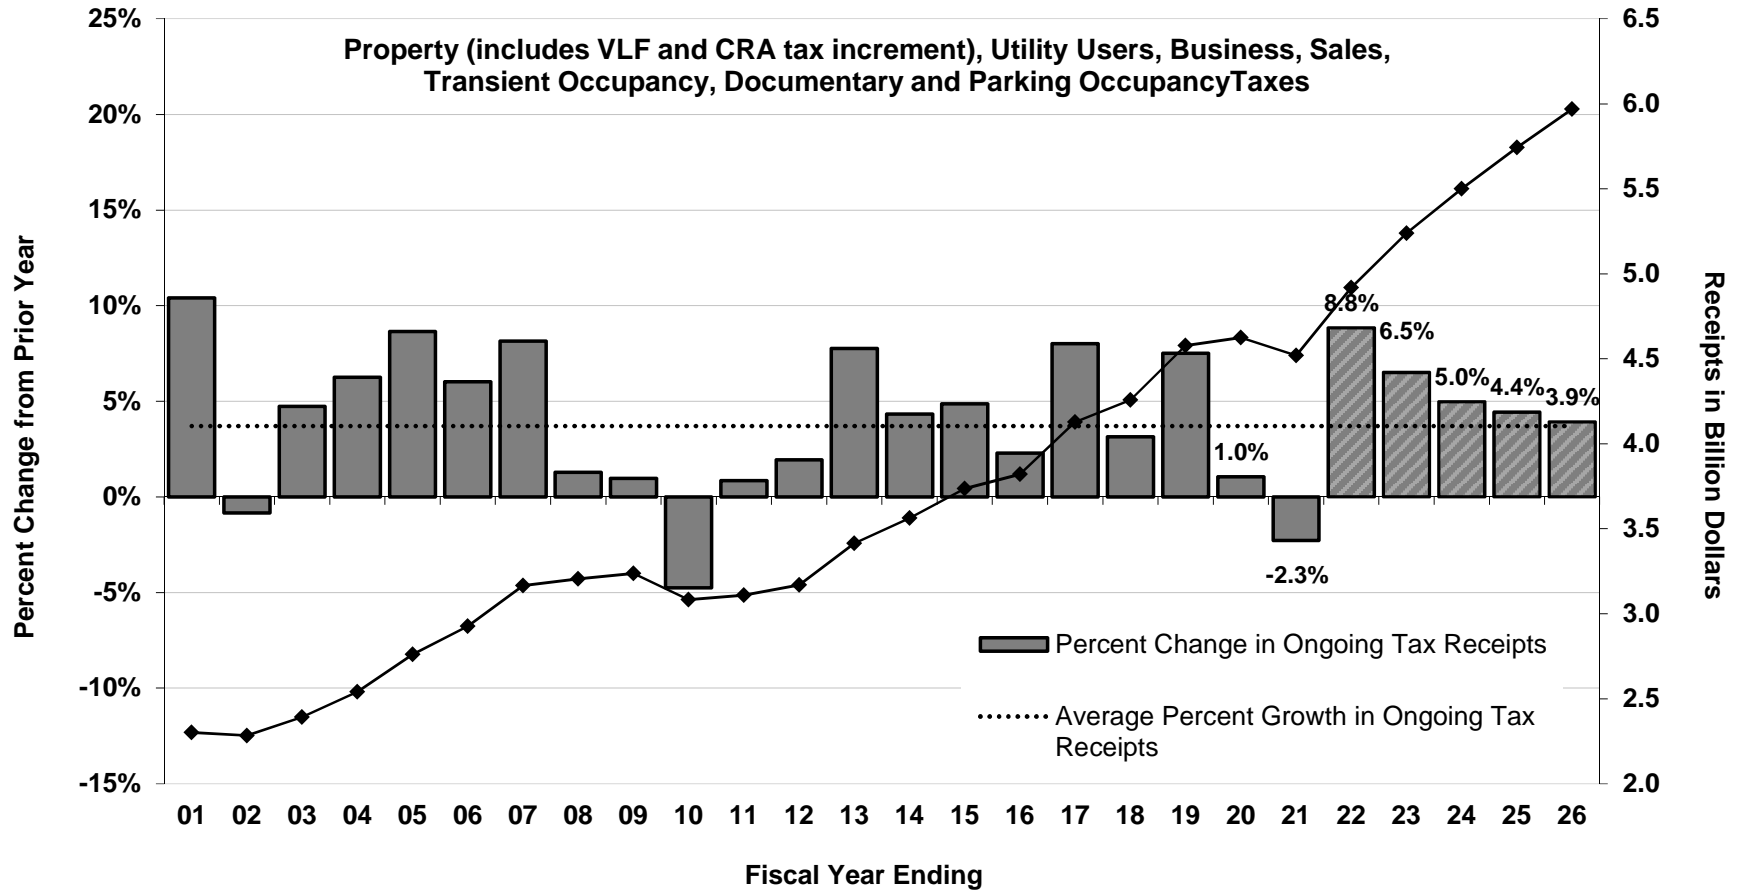

Actual and projected percent change in real GDP by quarter

Survey Conducted by Wall Street Journal (March 2021)

The effect of the change in gross domestic product (GDP) can be seen in the City's receipts as soon as the following quarter. Since the end of the third quarter of 2009 GDP growth has been positive, except for single quarters of negative growth in 2011 and 2014. The pandemic's impact to GDP marks the first recession after the Great Recession, when GDP dropped 15.5 percent over four quarters and took another six to recover the loss. In contrast, the sharp 36.4 percent drop for the first two quarters of 2020 that coincided with the start of the pandemic and the restrictions to control its spread have been offset by growth totalling 37.7 percent for the final two quarters. The post-pandemic recovery is predicted to be stronger than that following the Great Recession, with surveyed economists forecasting annual GDP growth of 5.95 percent for 2021 and 3.17 percent for 2022. Forecasted quarterly growth from the same survey that is most applicable to the 2021-22 fiscal year (second quarter of 2021 through first quarter 2022) is shown in the chart above.

## Growth of Seven General Fund Taxes

Major General Fund taxes currently account for more than 70 percent of all General Fund revenue, while the balance includes fees and fines, cost reimbursements, transfers from other funds, franchise revenue, interest income and other miscellaneous receipts. Since 1990, growth in the seven General Fund taxes has averaged 3.7 percent annually, which includes periods of high economic growth during the real estate and tech booms, as well as the subsequent declines during the busts. Growth in fiscal years 2015-16 through 2017-18 reflect the impact of delayed sales tax replacement revenue and overlapping sales tax revenue with the unwinding of the triple flip. Fiscal year 2018-19 growth includes new business tax receipts from cannabis-related business activity.

Actual and estimated growth for 2019-20 and 2020-21 ongoing tax receipts are well below projections assumed at the start of the pandemic, which presumed a single closure event and a quick rebound from the recession. Ongoing tax revenue for 2020-21 is projected to end the year 2.3 percent below that of 2019-20, principally due to second-year declines in transient occupancy, parking occupancy and sales tax revenue under the pandemic. Growth for 2021-22 assume a quick recovery for these receipts; although not to the levels expected prior to the pandemic. Outgoing years assume higher-than-average growth as receipts continue their recovery towards pre-pandemic levels, with average of the downturn and subsequent recovery in line with the historical average for City tax receipts.

## 2021-22 PROPOSED BUDGET DETAIL FOR GENERAL FUND OUTLOOK

Fiscal Years 2020-21 through 2025-26

(Thousand Dollars)

	2020-21	2021-22	2022-23	2023-24	2024-25	2025-26

\*Ongoing changes for redirected cable television franchise revenue are included in the forecasted growth for franchise income.

# General Fund Revenue Outlook

## Fiscal Years 2020-21 through 2025-26

### General Assumptions

Economic Growth	<p>This forecast is based on long-term historical experience, with total City revenue growth for outgoing years estimated between 3.4 and 7.3 percent, excluding federal relief funds. Unless otherwise noted, individual revenue sources reflect continuing growth in fiscal years 2022-23 through 2025-26 based on historical average receipts.</p>
Property Tax	<p>Fiscal year 2020-21 revised receipts reflect the County Assessor’s reported growth in assessed value for the City, offset by refunds and other adjustments. The County Assessor has not provided a preliminary estimate for property tax growth for 2021-22. Assessed value growth of 5.9 percent is based on assumptions for lower growth due to low inflation; redemption activities are assumed to remain flat as taxpayers become current on delinquencies; and refunds are projected to increase as commercial property owners seek reassessment. 2022-23 is based on economic forecast estimates, and outgoing years assume similar growth.</p>
Redirection of ex-CRA Tax Increment Monies	<p>This revenue category was first received in June 2012. Growth is irregular due in part to one-time miscellaneous revenues that may occur in any given year. The June 2021 payment is based on the County’s April estimate. The estimate for 2021-22 reflects the adopted payment schedule (ROPS) and assumptions based on prior disbursements. Additional one-time miscellaneous revenue from surplus property sales are assumed for 2021-22 and 2022-23.</p> <p>Subsequent fiscal years assume conservative growth based on the trend of lower tax increment growth (receipts) and increasing pass-through distributions (expenses) and align with property tax growth assumptions.</p>
Utility Users Tax <ul style="list-style-type: none"> <li>• Electricity Users Tax</li> <li>• Gas Users Tax</li> <li>• Communication Users Tax</li> </ul>	<p>Electricity users tax (EUT) revenue for 2020-21 and 2021-22 are provided by the Department of Water and Power (DWP) and are based on the 2020 load forecast updated to reflect pandemic impacts and actual receipts. Outgoing years assume average growth.</p> <p>Natural gas users tax revenue for 2020-21 reflect receipts-to-date and the first full year of a three-year rate reduction stemming from a class-action lawsuit settlement. 2022-23 and onward assume consumption and prices remain stable.</p> <p>The decline in communication users tax (CUT) revenue has accelerated with strategic wireless plan pricing and decreased landline use. 2021-22 revenue assumes that same rate of decline as 2020-21, and outgoing years assume that drop in CUT receipts slows.</p>
Departmental receipts	<p>Departmental receipts for 2020-21 have been revised downward to reflect the extended impact of pandemic-related closures. 2021-22 receipts assume the end of pandemic-related restrictions and the gradual restoration of full service delivery. Related costs reimbursements for 2020-21 and 2021-22 are based on updated CAP rates and vacancy, salary and service level assumptions.</p> <p>2022-23 assumes receipts to have returned to the pre-pandemic trend in receipts with growth slowing 2.7 percent in outgoing years.</p>
Sales Tax	<p>Sales tax revenue for 2020-21 and 2021-22 onward reflect the decline and then subsequent recovery from the pandemic-driven recession.</p>
Business Tax	<p>The revised estimate for 2020-21 business tax reflects a net increase from 2019-20 due to the delayed receipt of 2019-20 cannabis-related business taxes during the initial pandemic-driven closure and the addition of tax amnesty revenue. 2021-22 receipts reflect the loss of amnesty receipts, recovery in non-cannabis related business activity, and continuing growth in cannabis-related business activity. Outgoing years assume high, but decreasing, growth, primarily attributed to assumptions for cannabis receipts.</p>

# General Fund Revenue Outlook

## Fiscal Years 2020-21 through 2025-26

### General Assumptions

Transient Occupancy Tax	Current year transient occupancy tax (TOT) revenue from hotels and short-term rentals has been revised downward to reflect actual receipts as impacted by pandemic-related travel restrictions. 2020-21 and 2021-22 estimates are based on tourism industry forecasts for Los Angeles County that assume a gradual recovery to pre-pandemic hotel room demand by 2023-24. The forecast for 2025-26 is based on historical growth.
Power Revenue Transfer	The Power Revenue transfer amount for 2020-21 has been reduced to reflect adjustments made for actual 2019-20 power system revenue. The transfer for 2021-22 is based on the estimate provided by the Department of Water and Power (DWP), which is derived from assumptions for estimated 2020-21 Power System revenue. The final transfer amount may be adjusted to conform to actual 2020-21 power system revenue in accordance with audited financial statements. Outgoing years assume an average of amounts transferred since a transfer limit was established.
Documentary Transfer Taxes	Documentary transfer tax revenue is volatile and can have large swings when home sales volume and prices move together. Revenue for 2020-21 has been increased to reflect the quick recovery in home sales after the first wave of pandemic-related closures. While sales remain below the prior year, the decline has been offset by price appreciation attributed to low interest rates and low inventory. 2021-22 and outgoing years assumes both sales volume and prices remain stable under increasing interest rates, as transfer tax revenue is predicted to reach the revenue peak that was set at the height of the real estate bubble.
Parking Fines	The parking fine estimates for 2020-21 and 2021-22 are developed by the Department of Transportation based staff and resources available for parking enforcement activities. Outgoing years assume stable receipts based on 2018-19 revenue that predated the pandemic.
Parking Occupancy Tax	Current year parking occupancy tax has been revised downward to reflect actual receipts, as impacted by the pandemic-related business and event closures. The potential liability for the refunding of pre-paid parking occupancy taxes is not reflected in the estimates for 2020-21 or 2021-22. 2021-22 through 2023-24 receipts are assumed to recover at a faster pace than TOT. 2024-25 and 2025-26 assume historical growth.
Franchise Income	Revised franchise revenue in 2020-21 has been increased to reflect higher receipts in natural gas, offset by the lower official police garage (OPG) receipts realized during the pandemic-related closures.  2022-22 revenue assumes the additional deposit of cable franchise fees in the General Fund, as well as the recovery of OPG franchise revenue. All other receipts are assumed to remain flat. All franchise receipts are assumed to remain constant for outgoing years.
Special Parking Revenue	Due to the pandemic's impact on parking revenues, the 2020-21 transfer has been eliminated. The 2021-22 estimate assumes a smaller surplus available for transfer. Subsequent years assume the base transfer amount of \$23.5 million.
Interest Earnings	The interest earnings estimates for 2020-21 and 2021-22 were provided by the Office of Finance in April, reflecting low economic activity and suppressed fixed-income returns as well as the anticipated receipt of American Rescue Plan funds. Subsequent years assume earnings return to pre-pandemic levels.

# General Fund Revenue Outlook

## Fiscal Years 2020-21 through 2025-26

### General Assumptions

Grant Receipts	Grant revenue is variable. Estimates for 2020-21 and 2021-22 are provided by the various departments receiving grant funds. Outgoing years assume average receipts prior to the pandemic. Additional one-time receipts from FEMA reimbursements of pandemic-response costs are assumed for 2020-21 and 2021-22.
Tobacco Settlement	Growth estimates for 2020-21 and 2021-22 are based on the 2019-20 remittance. No growth is assumed for outgoing years.
Residential Development Taxes	Changes in the residential development tax are correlated with building permit activity. The estimate for 2020-21 is based on receipts-to-date, which have been minimally impacted by the pandemic. Receipts are assumed to fully recover in 2021-22 and remain stable thereafter.
State Motor Vehicle License Fees	This revenue transfer was eliminated by the State in fiscal year 2010-11. However, a special apportionment ranging from \$1.6 million to \$2.5 million annually will continue. The 2012-21 estimate reflects actual receipts and 2021-22 onward assumes no growth.
Reserve Fund and Budget Stabilization Fund Transfers	No transfer from the Reserve Fund or Budget Stabilization Fund (BSF) was included in the 2020-21 budget, nor is one recommended for 2021-22. No transfers from the Reserve Fund or BSF are assumed for outgoing years.
American Rescue Plan Fund Transfer	The transfer amounts for the 2020-21 and 2021-22 are based on the estimate from the House Committee on Oversight and may not be the final allocation.

Property tax is almost one-third of all City General Fund Revenue. The following pages outline the many components of the property tax, but the primary determinant of City property tax receipts is the change in the City's assessed value which is calculated by the County.

The total growth in 2017-18 appears low due to the permanent loss of sales tax replacement revenue with the end of the "triple flip".

Miscellaneous property tax remittances, previously reported under departmental receipts in 2018-19 and prior years, is now being reported under property tax receipts. Prior year receipts are included in the property tax totals above for informational purposes, and as a result, the totals shown above do not correspond to actual property tax receipts as reported by the Controller's Office.

# Property Tax

## Change in Assessed Value - City of Los Angeles

Assessed value includes net revenue producing valuations for secured and unsecured property. The property tax estimate for fiscal year 2020-21 for the City of Los Angeles assumed growth of 6.6 percent, which was subsequently affirmed in the County Assessor's 2020 Annual Report. Actual receipts have been lower. Estimated growth of 5.9 percent in assessed value for the 2021 property tax year, corresponding to growth in property tax receipts for fiscal year 2021-22 for the City, are based on slowing growth in assessed value, as well as the lower growth seen during periods of low inflation.

# Property Tax

## Percent of City Assessed Valuations to County Assessed Valuations

No preliminary estimate for Countywide growth in 2021 assessed valuations is available from the County Assessor, which would otherwise serve as the basis for City 2021-22 estimated property tax growth. The Assessor will release its assessment roll forecast in May.

City assessed valuations have been a stable component of Countywide valuations, but its share has increased in recent years as City growth has outpaced that of the County. Growth in City valuations for the 2021 tax period is assumed to again exceed growth in Countywide valuations.

Change in the City roll typically parallels change in the County roll. Prior to the Great Recession, the County Assessor provided a preliminary forecast concerning growth assumptions for Countywide assessed value which would serve as the basis for the City's growth estimate for property tax revenue. As this information is no longer provided, 2021-22 assumes 5.3 percent growth in Countywide assessed valuations with individual component growth based on the trends for these receipts. City valuation assumes higher growth of 5.9 percent.

# Property Tax

## Change in Countywide Roll Due to Proposition 8 Adjustments (Billion Dollars)

### Assessment Year

Proposition 8 changes include temporary decline-in-value adjustments made for current market value conditions or Assessment Appeals Board findings for prior tax year valuations, as well as restoration-in-value adjustments made after market conditions recover. Between 2004 and 2007, restorations and declines in value nearly offset each other. The Assessor has not provided a preliminary estimate for Proposition 8 related changes to property tax for the 2021 tax roll. The estimate assumes net Proposition 8 changes to be negative due to lower valuations claimed for commercial properties impacted by pandemic and a post-pandemic drop in demand. As the loss in value to commercial properties cannot be quantified, there is risk that decline-in-value adjustments may be greater.

# Property Tax

## Change in Countywide Roll Due to Sale of Property

(Billion Dollars)

The Assessor has not provided a preliminary estimate for sales related changes to property tax for the County for 2021. Projected growth in changes from real estate sales for the 2021 tax year are based on the three-year trend in countywide slowing growth.

# Property Tax

## Change in Countywide Roll Due to Inflation Adjustments (Billion Dollars)

The Assessor has not provided a preliminary estimate for inflation related changes to property tax for the 2021 tax roll. Growth in this category is capped at 2 percent by Proposition 13. When inflation is low, as measured by the consumer price index, the full two-percent adjustment will not be made. For the 2021 tax year, it is assumed that the partial adjustment will be assessed, as indicated by the consumer price index for the western region which was 1.7 percent for 2020.

# Property Tax

## Change in Countywide Roll Due to New Construction (Billion Dollars)

The Assessor has not provided a preliminary estimate for construction related changes to property tax for 2021. Changes from this component is projected to grow at a lower rate from the prior year.

Above are monthly secured receipts by County tax year, which begins in December and therefore does not align with the City fiscal year. The budget estimate for 2020-21 assumed 6.6 percent growth in assessed value (AV) and actual receipts, which corresponded with City AV growth for the 2020 tax year reported in the County's Annual Roll. Actual receipts have fallen below estimates with lower growth and collection rates.

The Assessor has not provided a preliminary forecast for assessment year 2021. The estimated growth of 5.9 percent for the 2021 County tax year is based on 2020-21 receipts-to-date, average historical growth, assumptions for low inflation adjustments as based on the CPI, and improved collection rates with available stimulus funds.

There is significant downside risk in both 2020-21 and 2021-22 revised estimates should the collection rate decrease below assumptions. Additionally, 2021-22 growth may be impacted by reduced valuations for commercial properties that have been adversely impacted by the pandemic and post-pandemic market. No data is available to quantify this potential loss.

JUNE	1,851,833	2,010,508	2,132,308	2,297,080			2,263,319	2,400,250

Fiscal year 2019-20 receipts were anticipated to grow by 6.8 percent, but final quarter receipts dropped due to delinquent remittances attributed to the pandemic. Similarly, the County Assessor estimated 6.6 percent growth for receipts corresponding to the 2020-21 fiscal year. Revised estimates have been reduced to account for delinquencies and other adjustments, with net growth projected at 6.1 percent.

The County Assessor no longer provides a preliminary estimate for property tax growth for the upcoming (2021) tax year. Net 2021-22 receipts reflect similar growth of 6.1%, although for different reasons. Specifically, while delinquencies are expected to decrease, so is the growth in assessed value for secured and unsecured receipts, due to the delayed impact of the pandemic-economy on property valuations and tax revenue. There is downside risk to receipts from both higher delinquencies and lower growth.

The County tax year runs from December to August, overlapping two City fiscal years. Receipts in July and August belong to the prior County tax year. Variations in the amounts remitted in May and in July and August shift property tax receipts between fiscal years which can skew growth rates reported for both. Please refer to the previous page for assumed growth.

The February spike in 2017-18 revenue (and its echoing drop in 2018-19) in the chart below can be attributed to early tax payments made by property owners in response to federal income tax deduction changes. The pandemic's impact to remittances (vs property values) is reflected in the partially delayed May remittance from the County, received in June in 2019-20. Receipts since the pandemic have been lower than plan and are attributed to delinquent payments. Lower collections are presumed for the rest of 2020-21 and 2021-22, as indicated by the low February 2021 remittance.

Unsecured property tax is levied on property of common business usage that are not secured as liens for payment of taxes and is typically business equipment and machinery not attached to a building. Aircraft and watercraft are also considered unsecured property and are subject to taxation. The estimate for 2020-21 has been revised downward to reflect lower actual receipts. The estimate for 2021-22 assumes a similar decline to reflect the delayed impact of the pandemic-economy on valuations.

The first \$7,000 of assessed value of a property owners primary residence is exempt from local property tax. The State reimburses local governments for the lost tax revenue from this exemption. This reimbursement has been stable, but declining. This page tracks the State reimbursement made by the County.

Unpaid property taxes, both secured and unsecured, are known as delinquencies. Delinquent taxes accumulate interest and penalties. Properties with taxes unpaid for five years are sold through auction by the State to recover unpaid taxes. The taxpayer may settle the delinquency by redemption. The City's share of principal, penalties and interest is distributed by the County. Prior to the pandemic, redemptions had been decreasing with improving property values after the Great Recession. Receipts for 2020-21 have increased, likely attributed to the recovery of late tax payments made during the pandemic. The estimate for 2021-22 assumes similar receipts for the recovery of current year delinquent taxes.

The levy of property taxes is based on the lien date of January 1. Properties assessed after the lien date due to real estate sales or improvements are supplemental taxes which are distributed to taxing jurisdictions about six months following receipt by the County. The real estate boom created an environment for a high level of supplemental adjustments. Receipts bottomed out in 2009-10. Receipts from 2014-15 through the current year have been steadily increasing with modest price appreciation and low sales volume. The 2019-20 estimate has been decreased to reflect the current trend in receipts. The same growth is assumed to continue for 2021-22.

The property tax administrative cost is recovered from each jurisdiction that receives property tax revenue. The County Auditor-Controller determines each local jurisdiction's proportionate share of the administrative costs by multiplying the total costs by the ratio of property tax revenue received by each jurisdiction. Growth in this fee has increased, and the estimate for 2021-22 assumes the same increase in costs as seen in 2020-21.

A property's assessed valuation (AV) is revised downwards when an appeal of the valuation is successful. A base year appeal revises the AV downwards until the property changes hands. A Proposition 8 appeal is a temporary reduction to AV when the current market value is lower. A successful appeal requires a refund of the prior year taxes previously distributed to the City. This deduction is volatile, depending on the number of appeals, processing time and the amounts being appealed. Refund activity has been high since 2016-17, exceeding amounts seen during the real estate decline. While 2020-21 has seen lower refunds, the 2021-22 estimate expects appeal activity to increase for commercial secured and unsecured property valuations impacted by the pandemic and refunds to increase accordingly.

This category captures what is usually a relatively small amount of property tax adjustment activity due to assessment appeal reductions; mistakes; incorrect assessments; monies previously directed to Central Business Districts (CBD) Community Redevelopment Agency; or corrections to assessment payments collected by the Treasurer/Tax Collector. Adjustments can be either positive or negative. Since these adjustments are usually under \$1 million annually and could be either positive or negative, budget estimates typically include all entries to date for the current fiscal year. 2021-22 makes no assumptions for adjustments.

The adjustment total for 2018-19 reflects the impact of the CRA-related tax settlement agreement with the Los Angeles Community College District which was realized as a credit against property tax receipts.

In 2019-20, the recording of receipts from miscellaneous property taxes were moved out of the departmental revenue source category (which is used to report reimbursements from special funds, proprietary departments and outside agencies and receipts from licenses, permits, fees and fines) to the property tax revenue source category. Prior year receipts are presented here for informational purposes. Estimated growth for 2021-22 assumes the same growth as 2020-21.

The estimates on this page represent the "base" for the property tax revenue, roughly equivalent to one percent of the home value at the time of sale. The primary determinant of growth in City property tax is the change in City assessed value calculated by the County Assessor. Revised growth of 6.0 percent for 2020-21 reflects the County's estimate for percent growth reported in its 2020 annual tax roll plus other adjustments. The unusual growth in 2018-19 in chart below corresponds to early tax payments made by property owners in response to federal income tax deduction changes. The addition of recording miscellaneous property tax receipts starting in 2019-20 makes growth appear larger on the table above.

The estimate for 2021-22 reflects net 6.1 percent growth based on current year receipts and the unique trends of the various components.

Vehicle license fees (VLF) are in-lieu of an “ad valorem” tax on the value of non-exempt registered vehicles in the State. The State collects this revenue and distributes receipts to local governments. Beginning in 2004-05, the State redirected most local VLF monies to its budget and shifted property taxes to California cities to offset the loss of VLF monies. This account receives the property taxes in-lieu of all but a small portion of VLF receipts. Of all property tax components, VLF growth tracks most closely with the growth in assessed valuation projected by the County Assessor. The County’s estimate for percent growth reported in its 2020 annual tax roll is 6.6 percent. The proposed budget assumes growth of 5.9 percent for 2021-22

The dissolution of the former Community Redevelopment Agency under AB1x26 resulted in the redistribution of net Tax Increment (TI) resources to the various taxing entities, including the county, schools and the City. The City began receiving additional property tax payments (former TI funds) beginning in June 2012. A second component of miscellaneous revenue consists of one-time monies from the due diligence review and subsequent distribution of former CRA funds, for which the City received its last distribution in 2013-14, as well as the proceeds from the sale of surplus properties. This page represents the sum of both the tax increment and miscellaneous components. The drop in 2018-19 revenue reflects the impact of a tax settlement agreement.

Tax increment estimates are preliminary and subject to change based on many factors such as interpretation of legislation relative to enforceable obligations and the recommendations and decisions made by the Governing Board, Oversight Board and the State Department of Finance (DOF). Distributions occur only after accounting for certain fees, pass-throughs and enforceable obligations. Revenues are received in advance of the allocation period. Revised 2020-21 revenue is based on the County Auditor-Controller's estimate for the June 2021 remittance. Estimated 2021-22 revenue assumes average tax increment growth and uses the approved CRA/LA enforceable obligations amount to be applied against the January 2022 distribution.

Miscellaneous revenue includes the distribution of excess funds and proceeds from surplus property sales. 2018-19 miscellaneous receipts reflect the impact of a tax settlement agreement. 2020-21 revenue has been updated to reflect actual receipts from surplus property sales. Additional receipts are anticipated for 2021-22 with regards to the sale of City-optional properties, with additional receipts anticipated for future fiscal years.

The City imposes a tax upon businesses located in or doing business within the City. The business tax is typically based on gross receipts and is not an income tax. Taxpayers apportion gross receipts in cases where business activity occurs both within and outside the City.

The Office of Finance is consulted on estimates for revised and proposed year estimates. Total 2020-21 revenue reflects the impact of pandemic-related closures and recession on business activity, which has been partially offset by growth in cannabis-related business activity and delayed receipts, as well as the tax amnesty program. 2021-22 business tax revenue will also be impacted as pandemic-related closures and business restrictions continue into the 2021 calendar year.

This tax category represents tax receipts from all business tax categories, with the exception of cannabis-related business activity. Most taxpayers remit on annual basis and are assessed at rates between \$1.01/\$1000 and \$4.25/\$1000 of gross receipts.

The 2020-21 budget assumed approximately \$38 million in prior year receipts from impact of the Civic Center closure on tax collection efforts, a delay that did not materialize. A 7 percent decrease in 2021 tax renewal receipts was assumed for non-cannabis renewal activity for the pandemic, based on declines from previous recessions. This decline is closer to 8.3 percent. Receipts from the tax amnesty program, estimated at \$19 million, offset these shortfalls. 2021-22 revenue assumes 4.7 percent growth for the 2022 tax period, based on growth that preceded the pandemic. Additional recovery growth is not assumed as receipts will reflect 2021 calendar-year business activity currently under restrictions.

This tax category represents tax receipts from cannabis-related business activity as reported in the LATax system. Cannabis businesses remit at rates between \$10/\$1000 and \$100/\$1000 of gross receipts based on activity, with recreational cannabis sales having the highest rate. Cannabis businesses have moved from an annual remittance schedule to quarterly in 2018-19 and then to monthly in 2019-20, impacting growth between fiscal years. Receipts from prior tax periods make up a large share of total revenue, which includes receipts collected under pre-licensing audits.

2020-21 receipts reflect 35 percent growth from the 2019-20 tax period and prior year taxes, including \$8.9 million in receipts attributed to the closing of Finance's cash handling activities. 35 percent growth from the 2020-21 tax period is again assumed for the proposed year's tax period receipts, with lower growth for prior year taxes as new businesses are licensed.

The total sales tax rate of 9.5 percent in the City is imposed upon the sale of tangible goods, with exemptions for certain essentials like groceries and prescription drugs. The 2019-20 and 2020-21 actual and revised revenue reflect the impact of pandemic-related business closures, the resulting recession, and the State's tax relief measures. In contrast with recessions driven by the contraction of the defense industry or the collapse of the housing market, the 2021-22 estimate reflects higher growth for recovery from the pandemic business closures and recession. However, proposed receipts are only 4.3 percent above the pre-pandemic revenue realized in 2018-19.

**Adjusted Sales Tax Revenue - 12 Month Moving Sum**

(Million Dollars)

## Sales Tax Change in City Sales Tax Receipts by Quarter

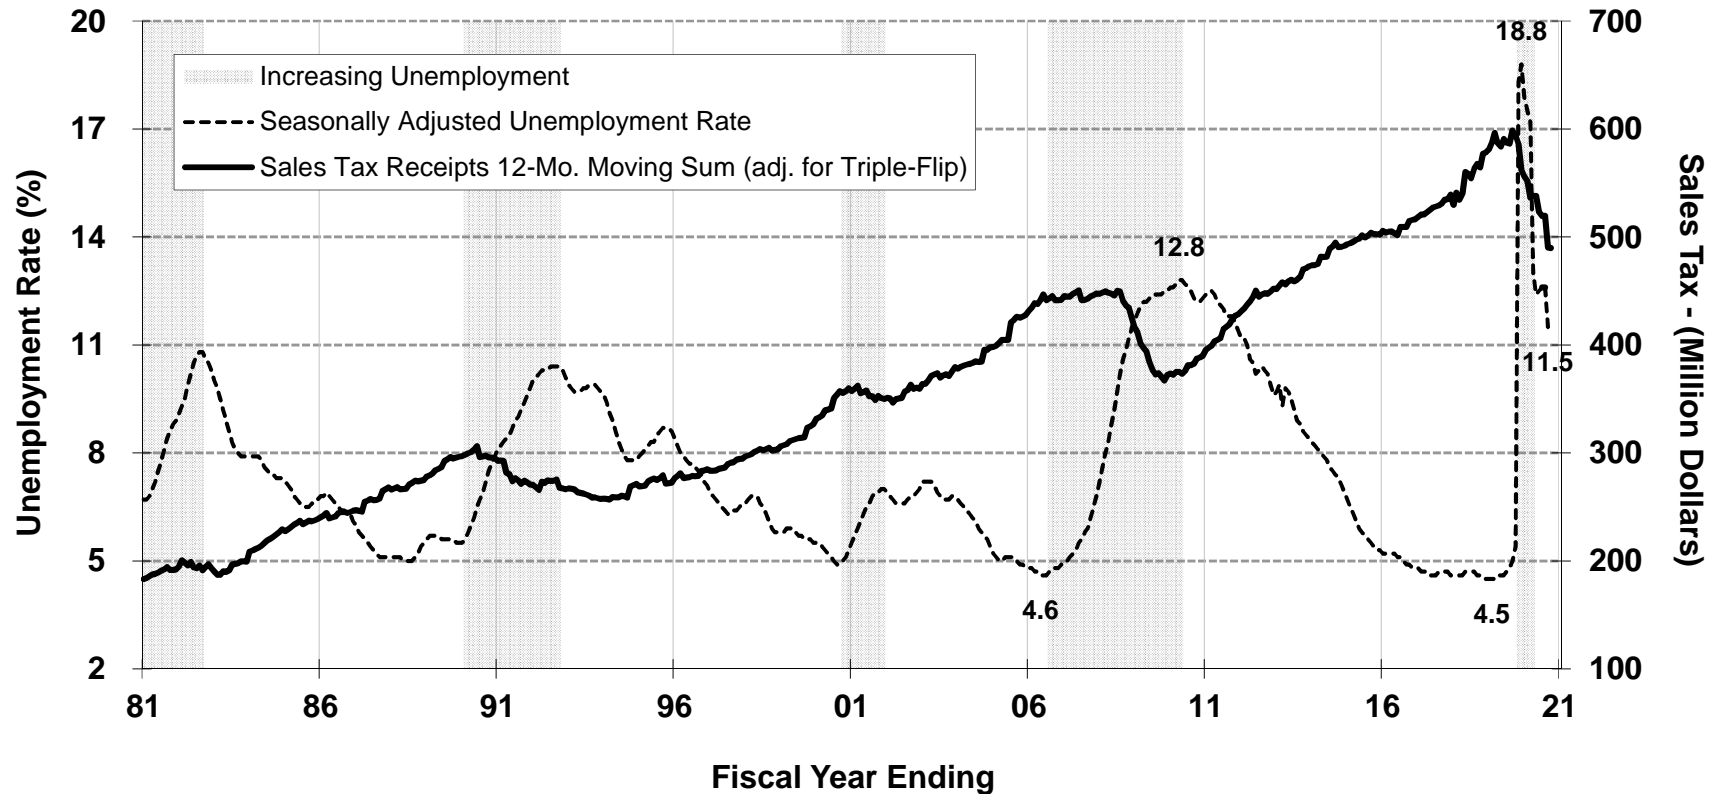

The City's fiscal year sales tax revenue (July-June) is derived from taxable sales between April of the previous fiscal year and March. City sales tax revenue for the current fiscal year-to-date is 14.6 percent below prior year receipts, due to the pandemic's impact on the economy. The year-over-year drop in receipts bottomed out at 18.1 percent in February. Other quarterly variations from trends can be attributed to delayed remittances and the changes to the tax allocation schedule that began with the State's implementation of a new sales tax automation system in the quarter ending in June 2018, the State's first extension for sales tax filings in the quarter ending in June 2020, and subsequent recovery of these receipts in the quarter ending in September 2020.

Forecasted quarterly and annual growth are provided by the City's sales tax consultant.

## Sales Tax

### City 1-Percent Sales Tax and Local Unemployment Rate

Sales tax revenue is an economically sensitive revenue that echoes changes in employment. In the chart above, as the unemployment rate increases during economic downturns, growth in City sales tax revenue slows or declines. Prior to the pandemic, the unemployment rate was at its highest level (12.8 percent) during the Great Recession in this 40-year time series, which coincided with a significant drop in sales tax revenue. As the local unemployment rate dropped to its historically low rate of 4.5 percent, sales tax revenue experienced steady growth. With the onset of the COVID-19 pandemic, the local area witnessed an unprecedented jump in unemployment, with the five months between April and September at rates that exceeded the worst of the Great Recession. At this time, unemployment remains high and it is unclear how the pandemic-related closures will translate into permanent job loss for the City. State unemployment for the 2021-22 fiscal year is forecast to average 5.8 percent (March 2021 UCLA Anderson Forecast). Local unemployment tends to exceed that of the State.

Receipts after September 2004 are adjusted to reflect 1 percent sales tax rate prior to the start of the triple-flip which reduced City tax receipts by 25 percent. Receipts for April 2016 onward are no longer adjusted with the restoration of the 1 percent rate with the end of the triple-flip.

## **Sales Tax**

### **Notes for the Long-Term Sales Tax Table**

The table on the preceding page presents City sales tax receipts from 1956-57 through 2019-20 and estimates for 2020-21 and 2021-22.

Beginning in 2004-05, the local sales tax was temporarily reduced from 1 percent to 0.75 percent. To facilitate comparison, this table shows City sales tax receipts from 2004-05 through 2015-16 adjusted to reflect the 1 percent rate.

Each year is affected to some extent by such events as audits, tax increases known as "base broadeners," new tax exemptions, law changes, major refunds, allocation calculation changes, and other adjustments. Many factors besides the economy influence City sales tax receipts.

For most years, the effects of these adjustments, some positive and some negative, offset one another. Thus, the percent change in sales tax receipts from year to year is a good indication of the local economy. Highlighted are periods of revenue decline, which are generally coincident with national recessions.

Compared to the Great Recession, the duration and depth of the 1990s Southern California-recession was unprecedented. While the U.S. experienced a moderate recession, the Southern California economy more closely resembled a depression. In typical recessions, periods of declining receipts did not exceed one year, and the first year of recovery exceeded the revenue level prior to the recession. In the early 1990s, however, sales tax revenue declined four years in a row and did not exceed the previous peak until nine years after the downturn began. During the seven year-expansion beginning in 1994-95, the rate of growth averaged 4.8 percent. During the recovery of prior downturns, the rate of growth was much higher, averaging 10.4 percent and 6.6 percent for the 1970-71 and 1982-83 downturns, respectively.

The 2001-02 recession resembled that of prior years. The duration did not extend beyond one year and sales tax revenue returned to the prior level in the following year. Revenue growth averaged 4.9 percent until 2007-08 when sales tax growth declined significantly. During the subsequent Great Recession from 2008-09 and 2009-10, tax revenues declined by a cumulative 17 percent, losing a greater portion of the tax base in two years than was lost in the four-year downturn of the early 1990s.

Receipts have been increasing since 2010-11 despite a trend towards lower growth due to shifting consumer-spending habits. Low growth in 2017-18 receipts and subsequent high growth in 2018-19 coincides with significant statewide changes to the tax collection and allocation system, new receipts from legalized recreational cannabis business activity and increased out-of-state remittances resulting from the Supreme Court's Wayfair decision.

Actual and estimated tax receipts for 2019-20 and 2020-21 reflect the outsized impact to the local economy from the pandemic-driven business closures, the resulting drop in employment and spending, and the State's efforts to provide tax relief through extended tax filing due dates. The 2021-22 estimate reflects higher growth as receipts recover from the pandemic restrictions and recession, which assume the return of indoor business operations, a decline in unemployment, and low inflation.

<b>Total All Outlets</b>	<b>\$44,255,966</b>	<b>\$45,192,765</b>	<b>\$46,716,861</b>	<b>\$49,505,496</b>	<b>\$50,174,451</b>
<b>% change from prior year</b>	<b>1.8%</b>	<b>2.1%</b>	<b>3.4%</b>	<b>6.0%</b>	<b>1.4%</b>

<b>L.A. County Taxable Sales</b>	<b>\$151,981,740</b>	<b>\$155,155,641</b>	<b>\$160,280,130</b>	<b>\$166,023,796</b>	<b>\$172,313,603</b>
<b>% change from prior year</b>	<b>5.8%</b>	<b>2.1%</b>	<b>3.3%</b>	<b>3.6%</b>	<b>3.8%</b>

<b>State Taxable Sales</b>	<b>\$638,631,955</b>	<b>\$653,856,259</b>	<b>\$677,823,493</b>	<b>\$706,835,201</b>	<b>\$732,756,903</b>
<b>% change from prior year</b>	<b>3.7%</b>	<b>2.4%</b>	<b>3.7%</b>	<b>4.3%</b>	<b>3.7%</b>

<b>City as % of County</b>	29.1%	29.1%	29.1%	29.8%	29.1%
<b>City as % of State</b>	6.9%	6.9%	6.9%	7.0%	6.8%

Since the recovery from the Great Recession, taxable sales growth in the City has lagged behind the County and the State. While this trend appeared to end in 2018, lower receipts in the subsequent year's taxable sales for 2019 likely indicate a change in record keeping rather than sales activity. Ignoring the 2018 tax period, City taxable sales represent a consistent share of State and countywide taxable sales.

## Sales Tax

### State, County and Local Sales Tax Components in effect for Los Angeles City

<u>State Rate</u>		
General Fund	3.6875%	State General Fund
General Fund	0.2500%	(Inoperative in 2001, but effective thereafter.)
Local Public Safety Fund	0.5000%	The Local Public Safety Fund was approved by the California electorate in 1993 to support local criminal justice activities. The City receives a small share of this -- about \$30 million annually.
Local Revenue Fund	0.5000%	For local health and social service programs. This portion was established as part of 1991 realignment.
Local Revenue Fund	1.0625%	This portion was established as part of 2011 realignment.
<i>Subtotal for State purposes</i>	<i>6.00%</i>	
<u>Uniform Local Tax Rate</u>		
County Transportation	0.25%	The county allocates a small portion of this to the City for transportation purposes.
<b>Local Point of Sale</b>	<b>1.00%</b>	<i>This is the source of City sales tax revenue. The City's share was reduced from 1% of taxable sales within the City to 0.75% by the triple flip starting with City receipts in September 2004. Replacement property tax in lieu revenue was remitted to the City to make up the shortfall during this period. The City is now receiving the full 1 percent rate.</i>
<i>Subtotal for Local Purposes</i>	<i>1.25%</i>	
Total Statewide Rate	<u>7.25%</u>	
<u>Voter Approved Local Rates</u>		
Proposition A Los Angeles County Transportation Commission	0.50%	State law permits voter approval of optional local tax rates. The following countywide voter-approved local rates are applicable in the City of Los Angeles.
Proposition C Los Angeles County Transportation Commission	0.50%	Voter Approved in 1980 for public transit
Measure R Los Angeles MTA	0.50%	Voter Approved in 1990 for public transit
Measure M Los Angeles MTA	0.50%	Voter Approved in 2008 for public transit
Measure H Los Angeles County	0.25%	Voter Approved in 2016 for public transit
Total Optional Local Rate Applicable in City of Los Angeles	<u>2.25%</u>	Voter Approved in 2017 for homeless services
<b>Total Sales Tax Rate in City of Los Angeles</b>	<b><u>9.50%</u></b>	<i>This rate dropped to 8.75% with the expiration of Proposition 30 in December 2016, and increased to 9.5% in July 2017 with the implementation of Measures M and H.</i>

## Utility Users Tax Components

(Million Dollars)

Change in electricity and gas users tax receipts is primarily caused by changes in consumption (often impacted by extreme weather), rate increases, and prices for energy sector commodities. The ongoing decline in communications users tax receipts is due to competitive cellular plan pricing and the decline in landline subscribers.

JUNE	625,853	644,152	638,379	614,620			607,500	595,400

The utility users tax (UUT) is composed of the electricity (EUT), gas and communications users (CUT) taxes. Its components are affected by the price of fuel, weather and the changing telecommunications marketplace.

The 2020-21 estimate has been reduced to reflect lower projected receipts for EUT and CUT, offset by higher gas users taxes. The 2021-22 decline is largely due to the continuing decrease in CUT revenue.

The Department of Water and Power (DWP) provides estimates for electricity users tax (EUT) revenue.

DWP data reveals that the decline in power consumption and revenue from commercial users has been offset by the increase from residential users. However, the Department reports that delinquencies have increased as well, reducing the amount of EUT remitted. The 2020-21 and 2021-22 estimates for the electricity users tax are based on the 2020 load forecast, which has been updated to incorporate the impacts from the pandemic through December 2020 and future adjustments.

Revenue from the Communications Users Tax (CUT) has been declining steadily since the beginning of 2009-10, and may be attributed to the declining use of landline service and less expensive voice and text cellular service options. The decline slowed in 2016-17 with the implementation of AB1717, which ensures the collection of CUT from the prepaid wireless market. Despite AB1717, the decline resumed in 2017-18 due to "sales leakage" (purchases outside the City) in the prepaid wireless market and aggressive plan pricing in the postpaid wireless market.

The 2020-21 estimate has been decreased to reflect actual receipts. 2021-22 assumes a similar rate of decline.

Revenue from the gas users tax is a factor of price and consumption. Prices have dropped significantly in recent years and are subject to volatility. City receipts, which have historically followed the natural gas prices, have diverged during peaks in supply and demand such as during the Aliso Canyon gas leak and the colder winters. Remittances for 2018-19 in the table above reflect the reduced May payment reflecting the California Climate Credit's credit impact on gas utility user bills.

The 2020-21 estimate assumed a decline from the previous year from the full year impact of a legal settlement that will reduce the tax rate for three years. This decline has been offset by the current trend in increasing natural gas prices. The 2020-21 and 2021-22 revised and proposed estimates are based on current receipts, the increase in actual prices, and stable futures.

The transfer from the Power Revenue Fund has historically been set as a percentage of prior-year gross operating power revenue. The Charter provides that the transfer may not exceed power system net income. The 8.5 percent drop in revenue from 2016-17 and 2017-18 reflects first year impact of a settlement agreement limiting the amount of the transfer.

The 2020-21 transfer amount was reduced in accordance with lower audited 2019-20 power system revenue. The estimate provided by the Department of Water and Power for the 2021-22 transfer reflects assumptions for 2020-21 power system revenue.

The documentary transfer tax is assessed at the time of a property's sale. Additional revenue is generated when controlling interest in a legal entity holding real property is transferred. This tax is the most volatile General Fund revenue source as revenue growth (or decline) is magnified when home prices and sales volume move together. This account recorded more than \$217 million in 2005-06 at the peak of the real estate bubble. Three years later in 2008-09, revenue declined to under \$84 million. Monthly receipts for May through July 2020 reflect the drop in sales activity that immediately followed the initial pandemic-driven stay-at-home order. Receipts have since recovered.

The 2019-20 estimate has been increased to reflect the unusually high real property and legal entity transfer proceeds received in January. After adjusting for January receipts, the 2020-21 estimate reflects modest growth in pricing and sales volume.

This table breaks down monthly revenue into components of number of deeds and average revenue per deed to serve as proxy data for sales volume and price for the housing market. Both revenue per deed and the number of deeds recorded dipped with the onset of the pandemic. Both metrics are recovering; although both remain below 2019-20 levels. 2020-21 sales volume and home prices are assumed to return to 2019-20 activity and price levels.

The documentary transfer tax rate is \$2.25 per each \$500 of sales price. This tax is the most volatile General Fund revenue source as revenue growth (or decline) is magnified when home prices and sales volume move together. Since the Great Recession, price appreciation has been largely a factor of low sales inventory. This trend was amplified during the pandemic with both a drop in inventory and in interest rates. Both revenue per deed (proxy for price) and deeds recorded (proxy for sales) which dropped at the start of the pandemic, are trending towards pre-pandemic levels.

The proposed budget estimates assume modest, continuing growth in both metrics, with the increase in interest rates slowing the price appreciation.

This revenue is received when the controlling interest of a legal entity holding real property is transferred. Fiscal year 2010-11 marks the first year of its collection. This revenue can be erratic, exhibiting significant fluctuations from month to month, which is best exemplified by a \$12.4 million transfer received in August 2015 (not shown). The variability of receipts makes this revenue difficult to project. The revised 2020-21 estimate assumes the 12-mo average of receipts for the last three months of the fiscal year, excluding January's high remittance. The 2021-22 revenue assumes average monthly receipts.

The transient occupancy tax (TOT) is levied on the rate of hotel and motel rooms as well as privately owned rooms or properties rented for 30 days or less. TOT is paid by the occupant and is collected and remitted to the City by the host (or agent on their behalf). The tax rate is 14 percent, of which 1 percent is remitted to the Greater Los Angeles Visitors and Convention Bureau Trust Fund and 13 percent is remitted to the General Fund. From General Fund revenue 1 percent is appropriated to the Arts and Cultural Facilities and Services Trust Fund. The table below provides the estimated revenue from hotel and short-term rental activity in the City and the 1 percent share based on TOT actual and estimated receipts.

Due to the COVID-19 pandemic's extended impact on tourism and travel restrictions, monthly receipts since the April 2020 have been approximately 28 percent of the previous year.

Revised 2020-21 revenue reflects the impact of extended restrictions on travel and the pandemic and economy-driven drop in demand. The 2021-22 estimate assumes herd immunity and the end of travel restrictions by the end of July, with receipts reflecting this recovery the following month. Growth is based on tourism industry estimates for Los Angeles County. Despite the predicted 75 percent increase in receipts, total revenue is below 2018-19 receipts.

The chart below depicts actual and estimated TOT revenue from hotels and from all TOT activity and reflects the 67 percent drop in year-over-year receipts from the pandemic.

The transient occupancy tax is levied on lodging rented for 30 days or less to be paid by the occupant (guest). The operator (host) is responsible for collecting and remitting the TOT to the City. Hosts renting out private rooms or residences are not exempted from collecting the TOT from their guests. The majority of this revenue is from collection agreements with online platforms such as Airbnb and VRBO. 2020-21 receipts to date are well below the 30 percent reduction assumed with the full implementation of the City's home-sharing policy. The change is assumed to be entirely pandemic driven, which is reflected in credits taken against prepaid taxes for cancelled reservations, resulting in the variation seen in monthly receipts. As such, 2021-22 assumes similar growth as TOT from hotels.

The parking occupancy tax is levied on the rent of parking spaces, equal to 10 percent of the parking fee. Monthly receipts fluctuate significantly, but generally grow over time.

Pandemic-driven business closures and event cancelations have resulted in a drop in demand for parking, with year-to-date receipts at 47 percent of receipts recorded in 2019-20. 2021-22 revenue mirrors growth assumed for the transient occupancy tax.

Franchise income records fees collected from City franchisees. This includes natural gas distributors, cable TV operators, solid waste collection companies, official police garages and taxi cabs, as well as other businesses that operate as a result of obtaining a City franchise.

Revised franchise revenue in 2019-20 has been increased to reflect higher estimated receipts in natural gas, the resumed collection of taxicab franchise revenue, and the drop in official police garage (OPG) receipts, reflecting reduced parking enforcement during the pandemic. Growth in 2021-22 revenue reflects the redirection of cable television franchise fees to the General Fund and the recovery of OPG receipts with renewed parking enforcement.

This revenue results from the adoption of an exclusive franchise system for solid waste collection from commercial and multi-family properties, with receipts first recorded in 2017-18.

2020-21 receipts are near plan, and 2021-22 assumes revenue remains stable.

A 6 percent fee imposed on gross cable TV revenue, of which half is received as general fund revenue. In 2020-21 and prior years, the other 3 percent fee is deposited in the Telecommunications Development Account, of which two-thirds may be used for public, educational and government (PEG) access programming and other telecommunications uses in the City, such as funding the Information Technology Agency (ITA), and one-third are used to pay capital costs related to providing PEG programming. Payments are made quarterly. Current year estimate is anticipated to meet budget.

The 2021-22 estimate assumes total franchise fees remain stable. However, the 66.7 percent increase in receipts reflects the redirection of the PEG 2 percent to the General Fund.

The franchise payment received from natural gas suppliers is two percent of the gross sales of gas plus the value of gas not sold, but rather transported within the City. The 2020-21 revised estimate is based on receipts-to-date. The 2021-22 estimate, based on historical receipts since 2009-10 and natural gas price futures, is expected to remain flat.

Franchise income is a fee of 7 percent of an Official Police Garage operators revenue from towing fees, storage fees and vehicle lien processing fees from impound requests from the Police and Transportation departments. As the number of impounds declines, operator revenue and franchise fee revenue declines accordingly. Changes in the Police Department's impound policy for unlicensed drivers significantly reduced the number of impounds, attendant fees and franchise revenue in 2012-13. Since then, receipts have remained stable until the pandemic. 2019-20 and 2020-21 actual and estimates receipts reflect both the drop in parking demand and relaxed parking enforcement; although receipts have not declined to the same extent as other parking related revenues. As such, the 2021-22 estimate assumes a return to pre-pandemic receipts.

The pipeline franchise payment is based on the size and length of pipe and an established fee which is adjusted for the change in the producer price index. It is also affected by the number of franchisees. Fifty percent of the proceeds from this fee are deposited into special accounts for neighborhood improvements in areas impacted by petroleum gas pipelines. This account records the balance of gas franchise fees which are deposited into the General Fund.

The 2020-21 and 2021-22 estimates were provided by the Board of Public Works and are within average of recent receipts.

Franchise income includes a fixed franchise fee per taxi cab; a fee charged each time a cab franchise changes hands; and miscellaneous charges and penalties.

2019-20 actuals reflects the Taxi Commission's action to eliminate franchise fees in March in advance of the taxicab franchise ordinance's expiration in June 2020. Adopted 2020-21 revenue assumed the ordinance would not be extended with the planned implementation of a new permitting system, thereby ending franchise revenue and increasing departmental receipts under the Department of Transportation.

As the permitting system was not implemented in 2020-21, franchise fee collections has temporarily resumed. Implementation is now planned for 2021-22, and franchise fees and departmental receipts reflect this assumption.

Franchise receipts for electricity and telephone lines and railways are included in the category. Estimates are based on receipts to date, historical experience, and the recommendations of departments responsible for administration of franchise agreements. Franchise revenue from railways accounts for most of this revenue.

Estimates for General Fund revenue from grants are provided by departments receiving grant funds including the Economic and Workforce Development Department, Emergency Management Department, Fire Department, Housing and Community Investment Department, Office of the City Attorney, Office of the Mayor, and Police Department. In response to the COVID-19 pandemic, \$78.4 million in Federal and State grant aid are assumed in the 2020-21 revised estimate, and \$26.1 million in Federal grant aid are assumed in the 2021-22 proposed estimate as reimbursement for a share of the City's costs in responding to the COVID pandemic.

The adopted and revised estimates are provided by the Office of Finance. Interest income credited to the General Fund through March is not a predictor of current year receipts since the amounts shown include interest earnings that must be credited to proprietary departments and special funds before the end of the fiscal year. These transfers are reflected as negative receipts in the actual column in the table above. The 2020-21 and 2021-22 estimates were provided by the Office of Finance and reflect lower realized and presumed earnings on investments, as well as the anticipated receipt of American Rescue Plan funds.

This revenue is part of a settlement in which seven tobacco companies agreed to restrictions on marketing practices and to pay \$206 billion during a 25-year period through 2025 to California, 45 other states, the District of Columbia and five U.S. territories. This agreement has since been extended indefinitely. In 2000, the State first received California's share of the settlement, estimated to be more than \$0.9 billion annually. Half of the payment goes to California's General Fund. The remainder is divided based on population, among California's 58 counties and four largest cities for use as decided by each local government. Major factors for change include the volume of cigarettes shipped, prices, and the relative population of California counties. Estimates for 2020-21 and 2021-22 are based on prior-year receipts.

An ordinance to amend the Administrative Code in 2008-09 allowed the Council to determine a surplus amount of Special Parking Revenue Funds (SPRF) to be transferred to the Reserve Fund for unrestricted use. The code was subsequently amended in 2011-12 to require that prior to declaring a surplus, funding would be set aside for a 5-year maintenance and operations plan for SPRF-funded programs.

A reduced transfer amount, below the base of \$23.5 million, was assumed for 2020-21 in anticipation of lower parking meter and parking lot receipts from the first pandemic closure. Extended and renewed closures reduced parking demand further, eliminating surplus funds available for transfer. The \$8.5 million transfer amount for 2021-22 reflects anticipated surplus funds after funding operations and maintenance costs.

The General Fund residential development tax is a \$300 tax imposed on each new dwelling unit constructed in the City. An additional \$200 tax is called the dwelling unit construction tax and is deposited into the Parks and Recreation Sites and Facilities Fund. This tax revenue can be very volatile since its range of activity, 3,000 to 19,000 units annually, is determined by economic conditions and the availability of building sites in the City. As the City is relatively "built up," housing construction activity is not directly comparable to that of the State and County. The estimate for 2020-21 reflects receipts-to-date without significant reduction to permitting activity during the pandemic. The 2021-22 estimate assumes recovery in line with 2019-20 receipts.

Motor Vehicle License Fee (MVLFF) revenues are collected by the Department of Motor Vehicles. In 2011-12, the State eliminated the distribution to municipalities made under California Revenue and Taxation Code Section 11005 in order to fund community law enforcement programs that were realigned from the State to the county.

Municipalities continue to receive "excess" revenue under Section 11001.5(b), estimated to range between \$17 million and \$20 million annually. A municipality's share of excess revenue is allocated according to its population size, for which the City receives approximately 12.6 percent. Prior to 2019-20, receipts ranged from \$1.6 million to \$2.5 million annually. The 2021-22 estimate assumes the same amount as the March 2021 remittance.

The American Rescue Plan Act of 2021 is a \$1.9 trillion economic stimulus package that includes \$350 billion in funding to state and local governments to address budget shortfalls and mitigate the fiscal shock of the pandemic.

The transfer amounts for the 2020-21 and 2021-22 are based on the estimate from the House Committee on Oversight and the final distribution, in two separate payments, may differ.

The sources that contribute to this revenue include fees collected by various departments for services such as animal registrations and ambulance services. Additionally, more than one-half of this revenue comes from reimbursements from special funds and proprietary departments for services paid for by the General Fund, such as health insurance.

Details of this revenue category can be seen on the following pages.

## DEPARTMENTAL RECEIPTS

### SIGNIFICANT CHANGES

<b>FY2019-20 Actuals</b>	Millions <b>\$ 1,198.3</b>
♦ One Time Reimbursements - Receipt of \$125 million from the COVID-19 Federal Relief Fund was recorded as one-time revenues. The \$125 million was fully applied towards repayment of temporary loans that the General Fund incurred to front fund emergency COVID related expenditures.	122.2
♦ Special Funded Reimbursements - Changes in CAP rates from CAP 42 to CAP 43 and increased reimbursements from various special funds account for higher 2020-21 estimated related costs e.g. Transportation Grant and Sidewalk Repair Program for P/W St. Services, Citywide Recycling for PW Sanitation, St. Lighting Assessment for PW Street Lighting, Prop C for DOT, Measure W for PW Sanitation, and others.	46.4
♦ Gas Tax Projects - Costs were shifted to the Street Damage Restoration Fund. This freed up funding in the Gas Tax Fund (Fund) and allowed expenses previously paid for by the Fund to be programmed for overhead reimbursement.	17.9
♦ Solid Waste Fee - Increase is mainly due to higher PW Sanitation CAP rates.	7.1
♦ Services to Airports - Increased estimated billings to Fire, GSD, and PW Contract Administration are anticipated to be offset by lower Police billings.	5.9
♦ Services to Harbor - Reimbursements to Fire and PW Contract Administration are expected to be higher in 2020-21.	5.8
♦ Recreation and Parks Reimbursements - Increase is related to employee benefits, retirement and other costs not billed to the Department.	3.5
♦ Library Reimbursements - Increase is mainly due to changes in CAP e.g. employee benefits, retirement, other costs and salary assumptions.	2.8
♦ PW Contract Administration - A and B Permits and Special Excavation Inspection Permit services are expected to increase in 2020-21.	1.9
♦ City Clerk - The additional revenue is attributed to LAUSD cost reimbursements for the March 2020 election.	1.5
♦ MTA Reimbursement - MTA revenues largely declined due to reduced services related to the pandemic and a delay in the opening of Metro's new Crenshaw line.	(30.9)
♦ Ambulance - The decrease is due to the impact of the pandemic. In addition, the Ground Emergency Medical Transport program has been put temporarily on hold by the CA Dept. of Health Care Services in 2020-21	(20.7)
♦ Services to DWP - DWP audit identified prior years overpayments which were credited to the 2020-21 billing.	(19.0)
♦ Services to Sewer - Change in CAP rates reduced reimbursements to PW Sanitation and others offset by higher reimbursements to PW Engineering.	(15.2)
♦ Police - False alarm, Impound, special events, and police permit services are expected to decrease largely due to the pandemic.	(12.0)
♦ Fire - Construction Plan Checking, filming permit and other services were negatively impacted by pandemic closures and restrictions.	(7.3)
♦ Transportation - Off Street Parking and filming permits revenues decreased in 2020-21 due to the pandemic.	(6.6)
♦ Building and Safety - Local enforcement agency fee, non-compliance and code violation inspection fee permit receipts were impacted by the pandemic.	(4.8)
♦ State Mandated - The State paid various prior-year claims in 2019-20.	(3.4)
♦ CAO - In 2019-20, the County reimbursed the City for the Census 2020 program. In 2020-21, the annual LA Marathon event was cancelled due to pandemic	(3.0)
♦ Court Fines - Revenues declined due to the impact of the pandemic.	(2.7)
♦ Personnel - The difference represents prior year reimbursements for Workers Compensation collected in 2019-20.	(2.6)
♦ Liability Claims - Reimbursements from other funds for legal costs in 2019-20 are not expected in 2020-21.	(1.8)
♦ Services to Stormwater Fund - Reimbursements to PW Engineering, PW Street Services and others are decreasing in 2020-21.	(1.7)
♦ GSD - Figueroa Plaza parking and other revenues declined due to the impact of the pandemic.	(1.4)
♦ Transit Shelter Income - Decrease was primarily due to the impact of the pandemic on the Sidewalk and Transit Amenities Program (STAP) and Bus Bench advertising revenues.	(1.2)
♦ ITA - Miscellaneous revenues and reimbursements from other agencies accounted for this decrease in 2020-21.	(1.1)
♦ All others	(2.1)
<b>FY2020-21 Revised Budget</b>	<b>\$ 1,275.8</b>
<b>Change from FY2019-20 Actuals</b>	<b>\$ 77.5</b>

## DEPARTMENTAL RECEIPTS

### SIGNIFICANT CHANGES

	Millions
<b>FY 2020-21 Adopted Budget</b>	<b>\$ 1,335.3</b>
◆ One-time reimbursements - This category can fluctuate depending on what revenues become available. For 2020-21, the increase is mainly attributed to \$125 million in COVID-19 Federal Relief Fund reimbursements and \$9.9 million in returned MICLA excess reserves.	136.4
◆ City Clerk - LAUSD reimbursements for the March 2020 election were received in 2020-21.	1.5
◆ Special Funded Reimbursements - Change in CAP rates, vacancies, salary assumptions, and lower than anticipated revenues for certain funds have primarily reduced related costs reimbursements e.g. Cannabis Regulation, Planning special funds, WIOA, Housing Code Enforcement, Measure M, Prop A, and others.	(48.2)
◆ MTA Reimbursement - The decrease is due to the delay in opening of the Crenshaw line and reduced Police services as a result of the pandemic.	(39.6)
◆ Ambulance - The CA Dept. of Health Care Services has temporarily put on hold Ground Emergency Medical Transport reimbursements and the decrease in emergency ambulance services contributed to the decline in revenues.	(28.1)
◆ Services to DWP - DWP will apply the credit for prior year overpayments identified in its audit findings in the 2020-21 billing.	(17.1)
◆ Transportation - Filming permits, vehicle application, special environmental impact reports and other fees, transportation control services, parking meter & lot maintenance, and off street parking revenues have been negatively impacted by the pandemic.	(11.7)
◆ Police - Police permits, impound fees, and other miscellaneous police services are anticipated to be lower than budgeted due to the pandemic.	(10.5)
◆ Services to Airports - City Attorney, Fire, ITA, Police, and PW Contract Administration services to the Airport are expected to be lower than budgeted.	(10.2)
◆ Fire - Inspection fees, including construction plan check fees and filming permits, and other revenues are projected to be lower than budgeted due to the pandemic, offset by higher than anticipated reimbursements from other agencies for mutual aid and partial impact of fee adjustments approved during the fiscal year.	(6.6)
◆ Building and Safety - Local enforcement agency, non-compliance, and code enforcement fee receipts are estimated to be below budget due to the pandemic.	(4.4)
◆ GSD - The decrease is attributed to the deferral of the Land Mobile Radio project, and lower Figueroa Plaza parking and other receipts.	(3.7)
◆ Services to Stormwater Fund - Measure W reimbursements were budgeted in SPA but actuals were recorded in a new Measure W related costs revenue account.	(3.7)
◆ Court Fines - Due to social distancing protocols, there were court closures and limited court appearances reducing revenues.	(3.4)
◆ Services to Harbor - Fire, Personnel, and PW Contract Administration revised billings are expected to be lower than budgeted, offset by increased City Attorney costs reimbursements.	(2.3)
◆ Library Reimbursements - Reduced GSD services and Water and Electricity are related to facility closures.	(1.9)
◆ Animal Services - Filming permits and dog licenses services decreased due to pandemic restrictions. Shelter fees are below budget as the number of animals impounded declined due to increased adoptions.	(1.8)
◆ Transit Shelter Income - Advertising revenues are lower than anticipated due to the impact of the pandemic.	(1.7)
◆ Civic Center Parking Income - Parking services were negatively impacted by the pandemic.	(1.2)
◆ PW Bureau of Street Services - Building material permit services are anticipated to be lower than budget.	(1.2)
◆ All others	(0.1)
<b>FY 2020-21 Revised Budget</b>	<b>\$ 1,275.8</b>
<b>Change from FY 2020-21 Adopted Budget</b>	<b>\$ (59.5)</b>

## DEPARTMENTAL RECEIPTS

### SIGNIFICANT CHANGES

	Millions
<b>FY 2020-21 Revised Budget</b>	<b>\$ 1,275.8</b>
♦ Services to Sewer - Changes in CAP rates resulted in an increase in anticipated reimbursement primarily to PW Sanitation.	34.3
♦ MTA Reimbursement - Increased Police services to MTA are projected in 2021-22.	21.7
♦ Services to DWP - In 2020-21, reimbursements were reduced due to credits applied by DWP. 2021-22 services are based on estimated billings for the cost of services to be provided to DWP.	21.3
♦ Transportation - The increase is mainly attributed to parking meter and lot maintenance and off street parking reimbursements, as well as filming permits and vehicle application services.	14.9
♦ Recreation and Parks Reimbursements - These overhead costs reimbursements are based on employee benefits, retirement, other costs and salary assumptions.	11.9
♦ Police - Impound fees, special events, and false alarm fees services are estimated to increase compared to 2020-21.	7.7
♦ Fire - Various Fire services such as filming permits, fire safety office cost recovery, construction plan checking, other inspection services, etc. are expected to increase in 2021-22 and reflect full-year impact of fee adjustments approved in fiscal year 2020-21.	6.4
♦ Ambulance - Emergency ambulance service revenue includes anticipated fee adjustments. The CA Dept. of Health Care Services' temporary hold on the Ground Emergency Medical Transport program is expected to continue in 2021-22.	5.4
♦ Library Reimbursements - Reimbursements are expected to be higher for GSD, Water and Electricity and General Fund - Miscellaneous, offset by a decrease in Police services.	3.8
♦ PW Bureau of Street Services - Special events and building material permit services are expected to increase in 2021-22.	3.5
♦ Transit Shelter Income - the increase is primarily attributed to the General Fund's share of an anticipated one-time upfront payment to be paid by the new contractor selected through a Request for Proposal process.	3.2
♦ Court Fines - Restrictions regarding court appearances are expected to ease and collections anticipated to improve in 2021-22.	1.8
♦ Building and Safety - Increases are expected for local enforcement agency, non-compliance and code violation inspection services.	1.3
♦ Animal Services - Filming permits, dog pound and various animal services are projected to rise in 2021-22.	1.2
♦ One-time reimbursements - This category can fluctuate depending on what revenues become available. The revenues for this category is mainly for surplus property sales, salvage receipts, escheatments, unclaimed assets from the State and construction projects. For 2021-22, one-time receipts from MICLA and the COVID-19 Federal Relief Fund are not continued.	(137.4)
♦ Solid Waste Fee - The fee is not at full cost recovery and can only partially reimburse PW Sanitation overhead costs.	(50.7)
♦ Special Funded Reimbursements - Based on CAP rates, salary assumptions and availability of funds, the largest decreases in 2021-22 related costs are Prop C for DOT, Code Enforcement for Housing, Arts and Cultural Facilities for Cultural Affairs, etc., offset by increases in Planning special funds for City Planning; Measure M for DOT; Measure R for PW Street Services and others.	(4.9)
♦ Gas Tax Projects - Gas Tax Fund pays for partial related costs only.	(4.4)
♦ Services to Stormwater Fund - The Fund will not reimburse PW Sanitation and others any related costs in 2021-22.	(3.0)
♦ Services to Airports - Expected reimbursements are based on estimated billings for the cost of services to be provided to Airports; and decrease is primarily attributed to GSD and PW Contract Administration.	(1.8)
♦ City Clerk - No election reimbursements are anticipated in 2021-22.	(1.7)
♦ PW Engineering - Various permit revenues are expected to be lower in 2021-22.	(1.1)
♦ All Others	(0.5)
<b>FY 2021-22 Proposed Budget</b>	<b>\$ 1,208.7</b>
<b>Change from FY2020-21 Revised Budget</b>	<b>\$ (67.1)</b>

Engineering revenues are comprised of street and curb permits, zoning and subdivision fees, other engineering fees and overhead reimbursements from special funds. Overhead reimbursements are a function of CAP rates and filling of vacant positions.

GCP revenue is mostly from reimbursement from other funds. In July 2020, the reimbursement from the COVID-19 Relief Fund was recorded in GCP Reimbursement from Other Funds account (C.F. 20-0600). At the request of the CAO, the Controller reclassified the receipts to a new account "Reimbursement from COVID-19 Federal Relief Fund" in order to separate one-time CARES Act reimbursements from other reimbursement receipts and to include with other citywide revenues reported in GF Miscellaneous.

DWP collects and remits this fee to the Solid Waste Resources Revenue Fund. The revised 2020-21 decline is the result of delinquent payments due to economic hardship experienced during the pandemic. 2021-22 revenues are projected to return to pre-pandemic levels.

In 1993, State legislation provided for the allocation of 1/2 cent sales tax to local government. Proposition 172 was approved by voters in November 1993 which extended the allocation exclusively for public safety purposes. Funds are allocated by the Board of Equalization to counties, which in turn, distribute a portion to cities. A city's share is determined by the amount of property taxes shifted to schools in the 1993-94 State budget and further adjusted by other State actions.

Since 1999-2000 growth in fund revenue has mirrored growth in the City's sales tax revenue. Growth has diverged in 2019-20 and 2020-21 due to the differing impact the pandemic has had on City and State taxable sales activity. The revised and proposed budget are in line with estimated growth for statewide sales tax revenue.

The Traffic Safety Fund receives revenue from fines, bail and traffic school fees associated with citations for moving violations. Tickets are issued by LAPD, as well as the California Highway Patrol and other traffic enforcement agencies. The City's share of revenue varies by citation type, but averages 92 percent in collections. The ongoing decline in receipts accelerated with the expiration of speed limit zones, the discontinuance of license suspensions and the reduction of fines based on ability-to-pay. With the completion of traffic studies, ticket issuances increased slightly. 98 percent of the speed limit zones have been updated. However, revenue in 2020-21 declined significantly due to the coronavirus pandemic and change in enforcement policy in response to the 2020 civil rights protests. Revenue is anticipated to remain at a significantly lower level in 2021-22 as a result of the latter.
