

## REPORT FROM

**OFFICE OF THE CITY ADMINISTRATIVE OFFICER**

---

Date: October 31, 2024

CAO File No. 0220-05633-0003

Council File No.

Council District: All

To: Municipal Facilities Committee

*Albert C. Griego*

From: CAO Municipal Facilities Group, Office of the City Administrative Officer

Subject: **NON-PROFIT LEASING POLICY FOR CITY-OWNED FACILITIES**

---

**RECOMMENDATIONS**

That the Municipal Facilities Committee (MFC) recommend the following to the City Council:

1. Adopt the proposed Non-Profit Leasing Policy for City-Owned Facilities, Attachment 1, and the revised Community Benefits Analysis for Proposed Non-Profit Lease, Attachment 1. B; and,
2. Direct the General Service Department, with the assistance of the City Attorney, to update the City non-profit lease language to reflect the revised Non-Profit Leasing Policy for City-Owned Facilities.

**SUMMARY**

This report provides a summary of the proposed Non-Profit Leasing Policy for City-owned Facilities (Policy), which includes guidelines for the leasing of City properties to non-profit agencies (non-profit(s)) at no-cost or below market value. The Policy outlines the approval process and the responsibilities of non-profit lessees. The proposed Policy seeks to limit the City's liability by ensuring that the non-profits that want to lease City property are aware of the current condition of the property, are willing to correct major deficiencies, and maintain the property for the term of the lease.

The City Administrative Officer (CAO) worked with the General Services Department (GSD), and was assisted by the Chief Legislative Analyst, the Office of the City Attorney, and the Bureau of Engineering (BOE), in the development of the proposed Policy (Attachment 1).

## **BACKGROUND**

The City of Los Angeles (City) owns over 600 properties, excluding the facilities controlled by El Pueblo, the Library, and Recreation and Parks. If City-owned space is not required or suitable to support City operations, these facilities may be considered for alternate uses that include leasing to non-profit agencies in exchange for services that benefit City residents and meet or exceed the value of the market rate lease. The City currently leases over 1.5 million square feet of City space to non-profits, or 141 leases. The City also benefits from reducing vacant space as it deters vandalism, and reduces maintenance and nuisance abatement costs. The proposed Policy outlines the approval process for non-profit leases at no-cost or below market rate, defines the lessee responsibilities for maintenance and capital improvement costs, and reporting requirements for continued occupancy.

### Current State of Non-Profit Leases

Of the 141 non-profit leases, 41 are in holdover/expired status, and 43 are currently in-progress, which includes new and renewal leases (Attachment 2). The majority of these leases are no-cost leases or require a nominal rental payment. In the absence of a formal non-profit leasing policy, there has been no established standard for assigning responsibility for maintenance expenses to the non-profit lessees, and are instead negotiated on a case-by-case basis. The non-profit lease terms generally require that the non-profit accept the condition of the property “as-is” and maintain the property with varying degrees of obligation. In addition, there has been no comprehensive physical assessment of the City facilities leased to non-profits, due to insufficient resources to fund and conduct the property inspections. The GSD also reports that most lessees are not currently submitting verification of the services provided to City residents, which is a requirement of a below market rate lease.

## **OVERVIEW OF PROPOSED NON-PROFIT POLICY**

The proposed Policy would apply to all new non-profit leases and renewals. As used herein, the term “lease” includes “licenses” granted for the use of City-owned property, except for licenses/rights of entry granted for short-term use.

Non-profit leases that would be exempt from the proposed Policy include those under the jurisdiction of the following departments, or as otherwise restricted:

- The Department of Recreation and Parks, Library Department, and El Pueblo de Los Angeles;
- Proprietary departments including the Los Angeles World Airport , Port of Los Angeles, and the Department of Water and Power; and,
- Leases related to the provision of services to people experiencing homelessness that are monitored by the CAO’s Homeless Initiatives Group.

## Key Policy Terms

The proposed Policy consolidates existing City practices used for non-profit leases and adds the following key terms. Only those terms indicated by an asterisk (\*) are new components to the GSD's current non-profit leasing requirements.

- **City Department Outreach for Space Needs Determination (Section I.B)\*** - The CAO will be required to survey City departments to determine if the proposed space requested for the non-profit lease is needed for City operations. If a City Department requests the use of the space, GSD will assess the space and report back with recommendations to the MFC.
- **Property Inspection (Section II.A)** - The non-profit will be required to hire a commercial real estate inspector if the entire building is being leased to the non-profit or multiple non-profits. A non-profit that is partially occupying a City-owned building is exempt from this requirement. Inspectors must be selected from the City's Pre-Qualified On-Call List of Commercial Real Estate Inspectors to assess any deficiencies or repairs. The purpose of the inspection is for the non-profit to be aware of the site's condition and any necessary improvements, which would inform their decision on executing a lease with the City.
- **Remediation Plan to Correct Deficiencies (Section II.B)\*** – If there is a need for a remediation plan, the Bureau of Engineering will review the feasibility of the remediation plan and modify as necessary. The non-profit will be solely responsible for the remediation costs. Once BOE approves the remediation plan, GSD will review and issue its approval. The non-profit may select its own contractor to implement the plan pursuant to its lease terms with the City.
- **Community Benefits Analysis (CBA) for Proposed Non-Profit Lease (Section III.)** – The only revision to the CBA was to include the property's Assessor Parcel Number (APN) and the confirmation that the outreach to Departments related to space needs has been conducted (Attachment 1. B).
- **License Agreements and Personal Service Contracts (Section IV.)** – Non-profits using City-owned space as a result of a Personal Service Contract with the Community Investment for Families Department, the Economic and Workforce Development Department, the Los Angeles Police Department, and the Department of Animal Services, are also be required to have a lease agreement with GSD, and the Policy restates this requirement.
- **Operations and Maintenance Duties (Section V.B)** – The non-profit will be required to operate and maintain the premises at their sole expense. The extent of these responsibilities will vary based on full or partial occupancy of the building.

- **Annual Service Compliance Report (Section V.E)\*** - The non-profit will be required to submit an annual report to the GSD and the respective Council Office, documenting the services provided, completed maintenance, and any capital improvements, for the previous calendar year.
- **Lease Term (Section VI.A)\*** - The Policy sets a standard term for each lease agreement, not to exceed five years including all options to extend. Consideration for a longer term would be given for sites with a substantial capital investment for remediation.
- **Surplus Land Act (Section VI.A)\*** – This Policy complies with the State of California Surplus Land Act, by limiting the lease term to five years, with a maximum of 15 years, inclusive of any extension or renewal options included in the terms of the initial lease.
- **Prohibited Activities, Subleasing, and Public Access (Section VI.C)** - The non-profit may not engage in any activity which is not permitted under the duties of a 501(c)(3). The Policy does not allow any non-profit to sublease any portion of the City-owned space, or collect rent, without the City's prior written consent.

#### GSD Staffing

Given the City's budgetary situation for Fiscal Year 2024-25, we are not recommending additional staff for GSD to implement the proposed leasing Policy. This Office prepared the Policy with the intent to limit the additional workload on GSD's Real Estate Services Division. Although GSD currently has authority to hire four positions that had been vacant (one was recently hired), these positions support and prioritize the overall 206 payable and receivable lease portfolio. GSD reports that based on the number of leases and a staff of eight in the Leasing Unit, they have no choice but to prioritize the 206 payable and receivable leases (five staff) and the 110 homeless leases (three staff), with the 141 non-profit leases as the last priority, as that portfolio has never been allocated positions to support it.

#### Physical Inspections of Proposed Space

As mentioned above, the Policy includes a new requirement for the non-profit to hire, at its sole expense, a commercial real estate inspector to conduct a physical inspection of the proposed space to be leased from the City's Pre-Qualified On-Call List of Commercial Real Estate Inspectors, and if needed develops a remediation plan. As stated above, this requirement is only applicable to full-building occupancy by the non-profit or multiple non-profits. A non-profit that is partially occupying a City-owned building is exempt from this requirement. The BOE will review the remediation plan and modify it if necessary. The CAO's new proposed Real Estate and Economic Development Qualified List of Consultants, which is pending Council and Mayor consideration, includes qualified inspectors that can evaluate the condition of the proposed leased property. The property inspections will include the review of major building systems and compliance with the Americans with Disabilities Act.

## Existing Policies and Practices for Other Cities and Departments Exempt from the Proposed Policy

The CAO conducted research on the policies and practices on non-profit leases in use by other cities in California. The City of Los Angeles has far more non-profit leasing agreements compared to other cities. None of the respondents to the outreach had an existing non-profit leasing policy. These municipalities review non-profit leases on a case-by-case basis and process each non-profit lease similar to other lease agreements. In addition, the CAO confirmed that none of the City departments that control their own properties has a non-profit leasing policy.

## **FISCAL IMPACT STATEMENT**

The recommendations in this report do not impact the General Fund.

## **FINANCIAL POLICIES STATEMENT**

The recommendations stated in this report comply with the City's Financial Policies in that the City Council may make exceptions to fair market value when the property is leased to a non-profit entity providing a public benefit.

*MWS:ACG:05240095*

Attachment 1: Proposed Non-Profit Leasing Policy for City-Owned Facilities

Attachment 2: Current List of Non-Profit Leases and Status

## **PROPOSED POLICY NON-PROFIT LEASING POLICY FOR CITY-OWNED FACILITIES**

### **INTRODUCTION**

The City of Los Angeles owns and maintains a large portfolio of properties throughout the City that are vital resources to the local economy and to the delivery of services to City residents, and local businesses. To the extent that City-owned properties are no longer required or suitable to support City operations, these facilities may be considered for alternate uses that include leasing to non-profit agencies in exchange for beneficial services to the community that are comparable to any discount applied to the market rate lease value of the respective properties, except in the case of sites used under Personal Service Contracts as described below.

This Non-profit Leasing Policy for City-Owned Facilities (Policy) provides an overview of the approval process and requirements for leasing City-owned properties to non-profit agencies at no cost or below market lease rates. This Policy applies to all new and renewed non-profit leases. As used herein, the term “lease” also includes licenses granted by the City for the use of City-owned property, except for licenses where a right of entry is granted for less than four months.

Leases exempt from this Policy include those controlled by and under the jurisdiction of the Los Angeles World Airports, the Port of Los Angeles, the Department of Water and Power, the Department of Recreation and Parks, the Library Department, El Pueblo de Los Angeles, homelessness initiative leases, and other leases restricted by the Charter. In addition, the General Services Department (GSD) ground leases on which the capital improvements have been completed are also exempt from this Policy.

For Personal Service Contracts supporting the Community Investment for Families Department (CIFD), Economic and Workforce Development Department (EWDD), the Los Angeles Police Department (LAPD), and the Department of Animal Services (Animal Services) programs, refer to Section IV., License Agreements and Personal Service Contracts.

### **OBJECTIVES**

The objectives of this Policy include:

- Establish a transparent process for the consideration of non-profit leases of City-owned facilities in exchange for services that provide quantified benefits to City residents, which meet or exceed any discount applied to the annual market rate lease.
- Provide non-profit lessees a comprehensive overview of the approval process and ongoing responsibilities.
- Reduce the City’s financial liability by requiring non-profit lessees to assume all associated costs of operating and maintaining the facility in good condition, including any capital improvements negotiated as part of the lease terms and conditions.

- Require annual reports from lessees that document compliance with service provisions and other terms and conditions of the lease as a condition of continued occupancy and/or discounted leasing rates.

## **I. City Process and Qualification Criteria**

### **A. Council Motion to Initiate the Process**

Any consideration of leasing City-owned property to non-profit agencies at discounted rates must be initiated through a Motion introduced by the Council Member representing the district in which the subject property is located. The Motion should include information such as the proposed terms and services to be provided by the non-profit agency.

Adoption of the Motion by the City Council is required to initiate the procedures defined within this Policy. Council approval of the Motion does not guarantee approval to proceed with execution of a discounted lease of City-owned property. A summary of the overall process along with the respective roles and responsibilities of the City and non-profit agencies is provided in the attached Proposed Non-Profit Leasing Policy for City-Owned Facilities Flowchart (Attachment 1.A).

### **B. City Department Outreach for Space Needs Determination\***

Once a Motion has been approved by the City Council, the Office of the City Administrative Officer (CAO), will survey all City departments and coordinate with the GSD, to determine if the proposed property is needed for City operations. If the proposed space is needed for City operations, GSD will assess the space feasibility for the requesting department. If the space is feasible, GSD will work with the CAO to issue a report to the Municipal Facilities Committee (MFC), the City Council and Mayor, with the recommended action. If the proposed property is not needed for City operations, the assessment for the non-profit lease proceeds.

### **C. Proof of Current Non-Profit Status**

The prospective lessee shall provide GSD the following documentation to verify active status as a non-profit agency, exempt from federal tax under the Internal Revenue (IRS) Code as a 501(c)(3) organization:

- (IRS) Non-Profit Determination Letter;
- Statement of Information from the Secretary of State with a certificate of good standing;
- Articles of Incorporation and Organization By-laws;
- Annual Return of Organization Exempt from Income Tax (Form 990) filed with the IRS for the last three years or as available for new agencies; and,
- Other appropriate documentation, as requested, such as the prior year Governing Board Membership and Board meeting minutes, to substantiate active status as a non-profit agency.

The non-profit agency will be required to maintain its non-profit status throughout the duration of the lease.

## **II. Non-Profit Requirements for Lease Acceptance**

### **A. Property Inspection\***

The non-profit agency will be required to hire, at its sole expense, a commercial real estate inspector to conduct a physical assessment of the subject property if the non-profit(s) lease is for an entire or a majority of the City building. If the non-profit is proposing to lease space in a facility majority-occupied by City departments, the physical assessment is not required. The commercial real estate inspector must be selected from the City's Pre-Qualified On-Call List of Commercial Real Estate Inspectors.

The inspection must include an assessment of deficiencies for the building structure, its major systems, and compliance issues for the Americans with Disabilities Act (ADA) (refer to Section V., D. Alterations and Improvements). The inspection report should specify whether the deficiencies must be corrected prior to occupancy, or can be repaired as part of a deferred maintenance schedule. Any significant deficiencies that are identified through the inspection may result in a recommendation to terminate consideration of the proposed lease.

### **B. Remediation Plan to Correct Deficiencies\***

If significant deficiencies are identified through an inspection conducted by the selected on-call inspector, a remediation plan must be developed by the inspector and include a recommended timeline for completion. The prospective non-profit lessee will have full responsibility for the cost of the remediation plan. The Bureau of Engineering will review the feasibility of the plan and may propose modifications in order to address health and safety liabilities, ADA compliance, and other concerns. Once BOE approves the remediation plan, GSD will review and issue its approval. The non-profit may select its own contractor pursuant to its lease terms with the City.

A prospective non-profit lessee may request consideration of a lease term that exceeds the standard term defined within this Policy (refer to Section VI., Lease Terms and Renewals, Lease Provisions, and Service Modifications), to amortize and recover the value of substantial capital investments required for necessary site remediation.

In the case of a ground lease, the non-profit would be exempt from Section II. A and B above, but would have to provide a financial plan and timeframe for the completion of the proposed capital improvements or any other necessary site improvements.

Any repairs or improvements to a culturally or historically designated building must comply with local, State, and federal building codes and ordinances required for building preservation.

### **III. Community Benefits Analysis**

As a condition of leasing City-owned property at below-market leasing rates, the prospective non-profit lessee must demonstrate a public benefit that is equal to or exceeds the current market lease rate value of the property. The assessment of equivalent value will be conducted through a Community Benefits Analysis (CBA) to be administered by the CAO, with input from GSD.

The CBA determination process will only be initiated after the non-profit agency has provided sufficient proof of its tax-exempt status to GSD, completed the property inspection, and negotiated a remediation plan, if applicable. Once these conditions have been satisfied, GSD will assess the market value of the property, which will be provided to the prospective non-profit lessee by the CAO as part of the Revised Community Benefits Analysis for Proposed Non-Profit Lease (Attachment 1.B).

The prospective non-profit lessee will need to complete Section II. and Section III. (A-D) of the CBA form in its entirety to provide general background on the agency's history and current operations, along with a quantified value of proposed services to be conducted onsite at the City-owned property under consideration for lease. Prospective non-profit lessees will also be required to provide financial information including, if they receive any City funding, and the budget for ongoing maintenance, operational costs, and capital improvements to the City-owned property. If the value of services and capital improvements do not meet or exceed the market lease rate value of the property, additional rental payments equivalent to the difference in value will be required as a condition of the lease terms. Any income anticipated from subleases will be taken into account. If the sublease income will be used to offset operating expenses, it will be considered in the CAO analysis. Further, if the sublease income is more than the value stated in the CBA, the rent differential will have to be added to the lessee's rental payment.

The CBA form has been revised to include the Assessor Parcel Number (APN) and the confirmation of Department Space Needs Determination completion. The CAO will provide the completed CBA analysis to GSD for inclusion in the report that outlines the proposed lease terms with the CBA analysis for initial consideration by the MFC. The MFC recommendations will be transmitted for consideration by the City Council and Mayor. If approved, GSD will work with the non-profit agency and City Attorney to execute the approved lease.

### **IV. License Agreements and Personal Service Contracts**

Non-profit organizations using City-owned space as a result of a Personal Service Contract with the CIFD, the EWDD, the LAPD or Animal Services, must also have a lease agreement with GSD outlining the use requirements and responsibilities related to this use of the City space/facility. This Policy, except for the CBA, applies to all of these lease agreements.

## V. **Non-Profit Lessee Requirements and Responsibilities**

### A. Rental Payments

The non-profit lessee shall be responsible to pay any discounted leasing rates determined through the CBA process, in accordance with the specific terms defined in the lease, and subject to a three (3) percent automatic annual increase. Failure to submit rental payments in a timely manner could result in lease termination, in accordance with the procedures defined in the lease.

### B. Operations and Maintenance Duties

Non-profit lessees will be required to operate and maintain the premises at their sole expense, with the exception of Animal Services leases. The extent of these responsibilities may vary based on full or partial building occupancy, as described below:

1. *Full occupancy:* The non-profit lessee(s) will be solely responsible for the maintenance and operation of facilities that are leased to a single or multiple non-profit(s). This includes, without limitation, interior/exterior maintenance, repairs, utilities, sewer, foundation, roof, fire/life safety, electrical and plumbing systems, security, custodial, and landscaping costs. The non-profit lessee(s) shall operate and maintain in good condition the facility's heating, ventilating, cooling, air handling and control system. The City will not be responsible for any maintenance or operations costs for these leases.
2. *Partial occupancy:* The non-profit lessee will be solely responsible for maintaining the portion of space assigned for its exclusive use including regular maintenance, repairs, and any negotiated improvements. The non-profit lessee is responsible for the full cost of utilities at facilities that have separate meters in place.

### C. General Liability Insurance

The non-profit lessee is required to maintain general liability insurance with fire legal liability coverage, and/or any other insurance type coverage, with the minimum amounts determined by the CAO-Risk Manager for coverage of its operations continuously throughout the lease term. These amounts and types are subject to change depending on the nature of the non-profit organization's operations and the requirement of applicable statutes, ordinances, and regulations.

All non-profit lessees will be required to indemnify the City against all claims which may arise from their operations and tenancy. Additionally, the City must be listed as an additional insured party as part of the insurance policy terms.

#### D. Alterations and Improvements

The non-profit lessee is required to obtain advance written approval from GSD before causing any alterations, renovations, or tenant improvements to be performed to the City-owned property. Further, any alterations, renovations, or tenant improvements to the facility must comply with all applicable Federal, State, and local regulations, including, but not limited to, building codes, ADA, or seismic requirements, and will be at the sole expense of the non-profit lessee. As stated in Section II., B. Remediation Plan to Correct Deficiencies, the non-profit may select its own contractor, pursuant to its lease agreement with the City.

#### E. Annual Service Compliance Report\*

The non-profit lessee is required to prepare and submit to the City an annual report that documents the services provided during the calendar year (January 1 – December 31) consistent with the activities incorporated into the lease terms, to GSD with a copy to the respective Council Office,\* no later than February 1<sup>st</sup> of each year. The report shall include all completed maintenance, annual inspection compliance reports required by Los Angeles Fire Department, Department of Building and Safety, or other licensing or permitting City department or outside agency, as well as any capital improvements, if applicable, for the reporting period.

#### F. Request for Service Modifications

The non-profit lessee may submit a written request to GSD to amend its service plan through a new CBA determination, based on the following:

1. New service priorities defined by the respective Council Office;
2. Significant changes in the needs of the local community due to changes in local demographics or other factors; and,
3. Substantial changes in financial resources prompting the discontinuation or expansion of service activities.

The City will consider the merits of any such requests on a case-by-case basis, in accordance with the process defined in Section III., Community Benefits Analysis. This may require a lease amendment to be approved by Council.

The non-profit lessee is required to provide sufficient advance notice to enable the City to complete the CBA determination process prior to any contemplated changes in mandated services required under the terms of the lease. Except in extenuating circumstances, the non-profit lessee will continue to be responsible for providing mandated services, until the City completes its determination process and obtains all necessary approvals of the proposed service changes.

## **VI. Lease Terms and Renewals, Lease Provisions, and Service Modifications**

### **A. Lease Term\***

The initial lease term shall not exceed five (5) years including all options to extend. Unless and until a determination is made on whether to renew the non-profit lease agreement upon expiration, the lessee may continue provision of allowable services on holdover terms.

A non-profit lessee may request consideration of a term that exceeds the five-year limit, but no longer than 15 years to amortize and recover the value of substantial capital investments for site remediation (refer to Section II., B. Remediation Plan to Correct Deficiencies).

To comply with the State of California Surplus Land Act, the lease term should be no longer than 15 years, inclusive of any extension or renewal options included in the terms of the initial lease.

### **B. Lease Renewals**

Before the Lessee engages in a lease renewal process, GSD will contact the respective Council Office to verify support for continuation of the lease and associated service requirements. The respective Council Office may withdraw support to continue the lease or may request adjustments to the terms, including proposed modifications to the service plan requisites. Significant adjustments to the service plan, both in terms of the types and levels of services proposed, will require a new CBA determination process subject to the same levels of approval as the original determination (refer to Section III., Community Benefits Analysis) before the renewal is submitted to the Council and Mayor for approval.

### **C. Prohibited Activities, Subleasing, and Public Access**

Non-profit lessees may not conduct or engage in any activity which is not permitted in accordance with the IRS Code Sec. 501(c)(3), and such activity will be accepted as cause for eviction and termination of the lease agreement.

Non-profit lessees may not sublease any portion of the City-owned space to any other entity and may not collect rent for any portion of the property in accordance with the lease terms without the knowledge and prior written consent of the City. Exceptions may apply to those lease/licenses detailed above in Section IV., License Agreements and Personal Service Contracts.

Non-profit lessees are required to abide by all City ordinances and standard provisions that pertain to the lease including, but not limited to, providing services and access to the City-owned facility to the general public without discrimination as to race, color, ethnicity, creed, age, national origin, religion, citizenship status, gender, gender identity or expression, sexual orientation, disability, medical condition, genetic information,

marital status, partnership status, employment status, income status, military status, veteran status, and other protected classes provided by law.

## **VII. Cancellation or Early Termination of the Lease**

The City may at its sole option terminate the lease and require the non-profit lessee to vacate the property for failure to meet the performance guidelines established or incorporated into the lease that include mandatory service provision and maintaining the property in an acceptable condition, and following notice by the City, failure to correct any deficiencies within the defined period.

However, illegal or prohibited activities, or any violation of the lease, may result in a unilateral termination of the lease, in accordance with applicable terms and defined remedies to cure.

The non-profit lessee may request cancellation of the lease with appropriate written notice according to standard lease term provisions.

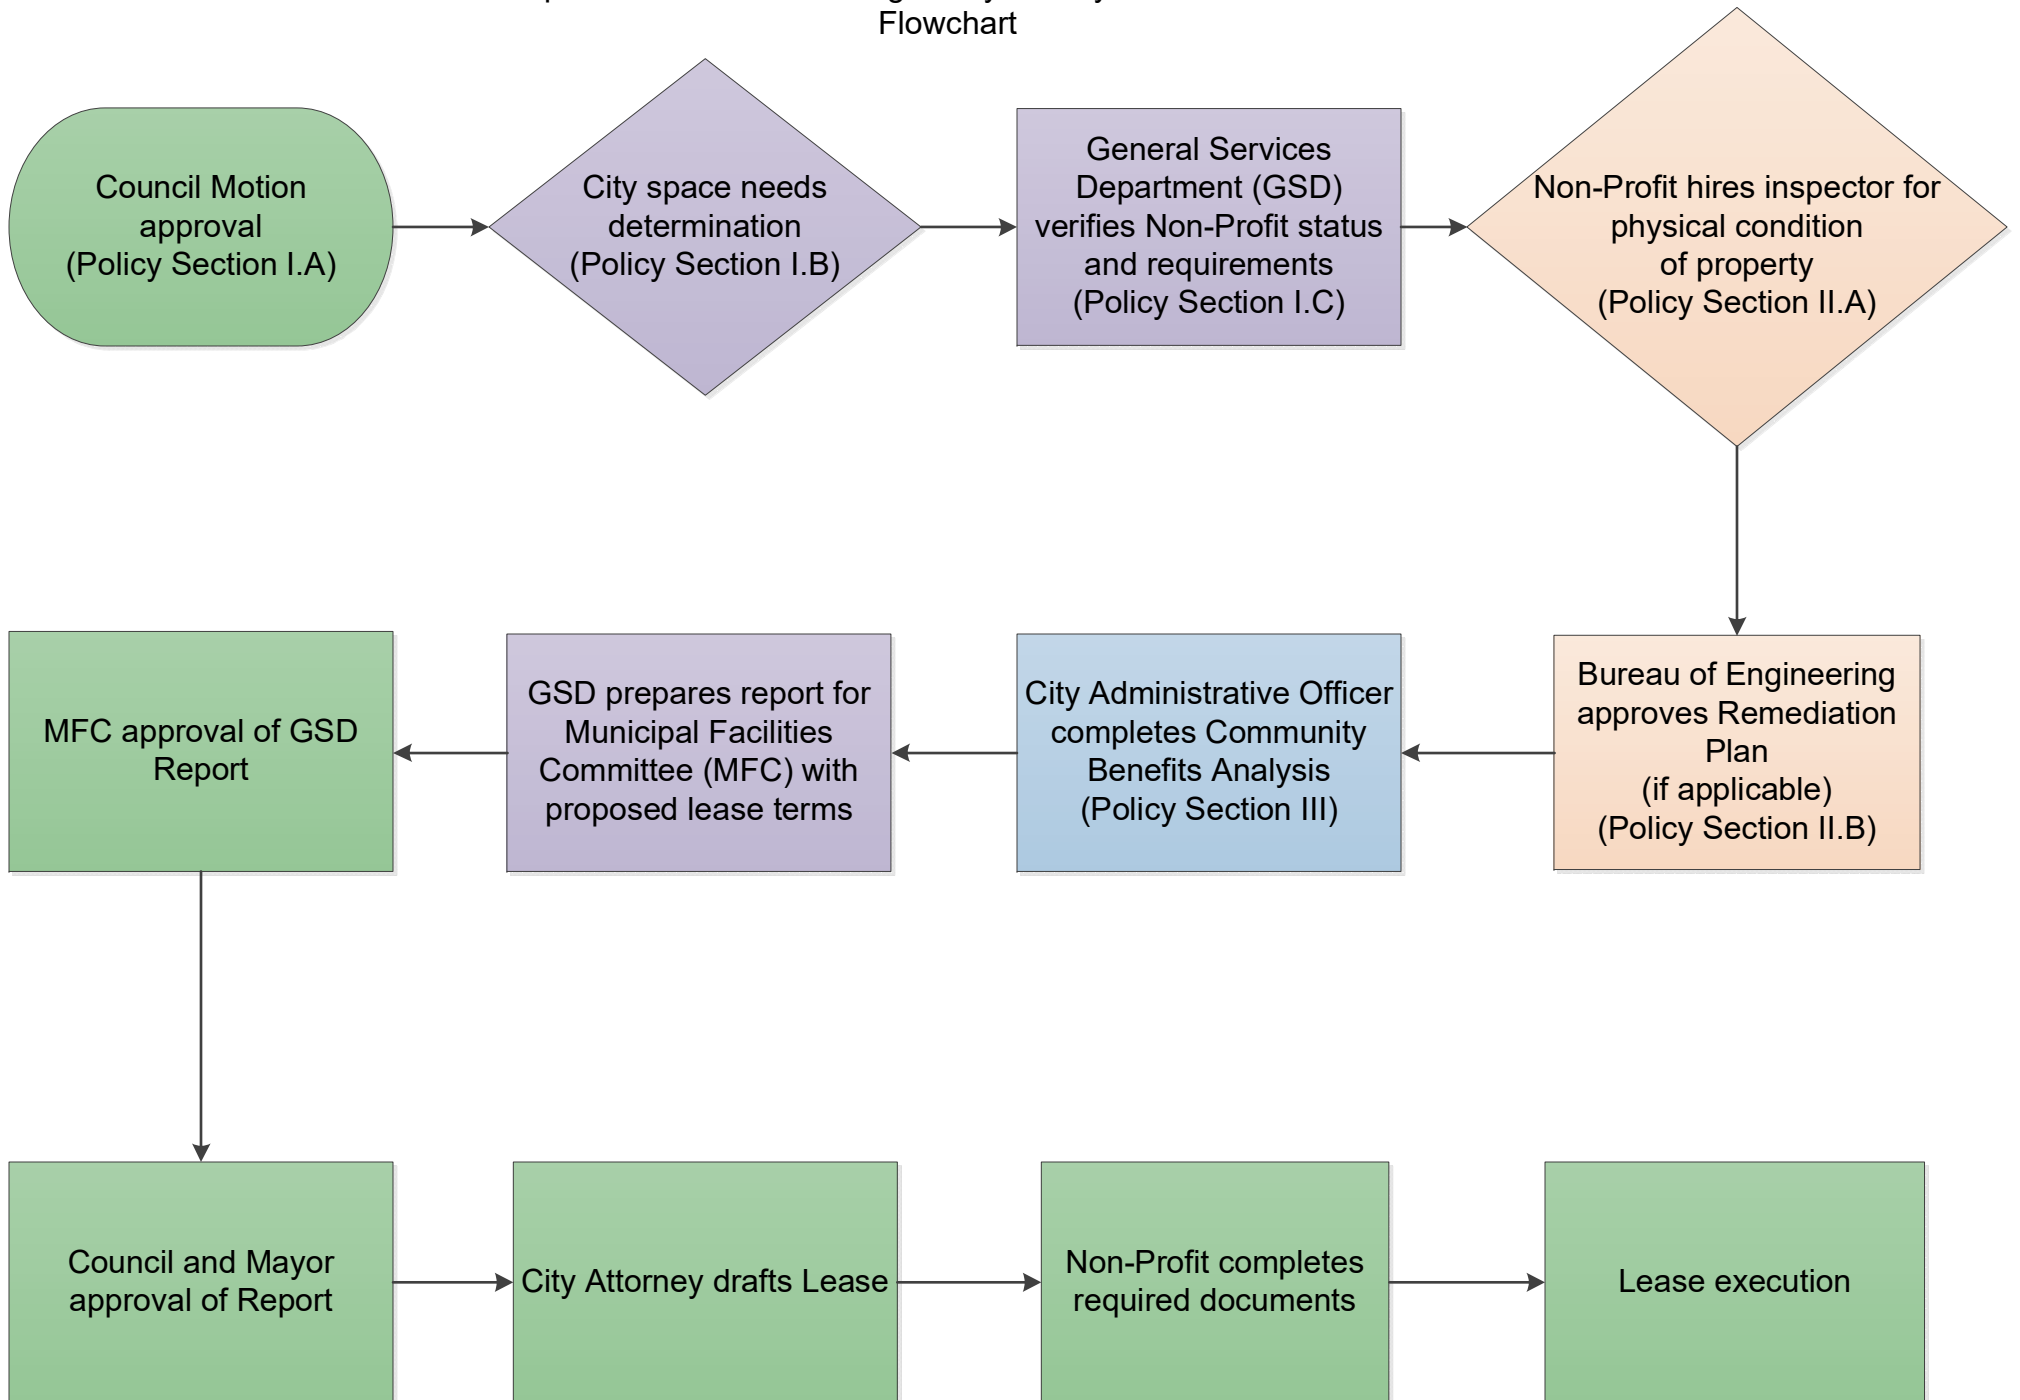

The City may also terminate the lease if the non-profit fails to:

- Maintain its 501(c)(3) non-profit status;
- Provide rental payments, if required;
- Operate and maintain the site as required by the lease;
- Maintain General Liability Insurance and upload it annually to the Risk Management website;
- Comply with the City's ordinance and Standard Provisions that pertain to leasing;
- Complete and submit a physical property inspection report, as required;
- Receive or request approval from the City for alterations or improvements to the property;
- Provide the community benefits as stated in the CBA, or where applicable, have a valid service agreement with the CIFD, the EWDD, the LAPD or the Animal Services;
- Submit annual service compliance reports to GSD and the respective Council Office; and,
- Obtain approval from the City for any sublease.
