

REPORT FROM

OFFICE OF THE CITY ADMINISTRATIVE OFFICER

Date: April 16, 2026

CAO File No.: N/A
Council District: All

To: Proposition K – L.A for Kids Steering Committee

From: L.A. for Kids Steering Committee, CAO Staff
Matthew W. Szabo, City Administrative Officer
Sharon Tso, Chief Legislative Analyst
Matt Hale, Office of the Mayor

Subject: **FISCAL YEAR 2026-27 PROPOSITION K ASSESSMENT REPORT**

RECOMMENDATIONS

That the City Council, subject to the concurrence of the Mayor:

1. Adopt the attached City Engineer’s Report for the 2026-27 Proposition K Assessment (Attachment 8);
2. Adopt the Resolution of Intention to Levy an Assessment authorized by Proposition K, pursuant to the Landscaping and Lighting Act of 1972 (Attachment 9);
3. Adopt the Ordinance of Intention to Levy an Assessment authorized by Proposition K, pursuant to the Landscaping and Lighting Act of 1972 (Attachment 10);
4. Approve the Fiscal Year (FY) 2025-26 maintenance awards totaling \$4.8 million (Attachment 7);
5. Approve the reprogramming of FY 2025-26 funding allocations (Attachments 1, 5, and 12);
6. Approve the 2025-26 Proposition K inflation award totaling \$0.0 million (Attachment 11);
7. Approve the 2025-26 Proposition K additional specified (“GAP”) funding awards totaling \$6.4 million (Attachment 12);
8. Approve the Health Alternatives to Smoking (HATS) Trust Fund award of \$635,437, including any added interest to the amount advertised in the Request for Procurement (RFP) such that all amounts in the fund are used in the disbursement of the awarded funds, for the Anderson Memorial Senior Center project as discussed in Section 6;

9. Approve the Vermont/SNAP Parks First Trust Fund (SNAP) award of \$1,252,734, including any added interest to the amount advertised in the RFP such that all amounts in the fund are used in the disbursement of the awarded funds, for the Barnsdall Art Park Restoration Project as discussed in Section 6;
10. Authorize the City Engineer to execute or amend grant agreements with Proposition K grantees that are recommended for FY 2026-27 project allocations (Attachment 1), and as needed to effectuate the FY 2025-26 maintenance awards (Attachment 7), and reprogramming actions (Attachment 12), subject to approval of the City Attorney;
11. Authorize the Controller to adjust accounts, pursuant to instructions to be provided by the City Administrative Officer (CAO), for current year maintenance awards (Attachment 7), inflation awards (Attachment 11), GAP funding (Attachment 12), and residual funds reprogramming actions (Attachment 13), within the following Proposition K Funds: Projects Fund No. 43K; Maintenance Fund No. 43L; and, Administration Fund No. 43M;
12. Authorize the Controller to adjust accounts, pursuant to instructions to be provided by the CAO, for HATS Fund No. 43G and SNAP Fund No. 45B, inclusive of interest accrued over time;
13. Authorize the allocation of additional Proposition K – L.A. for Kids funds to the Projects set forth in Attachment 13 in the amount of \$15.0 million in residual Proposition K funds reprogrammed from previously completed, infeasible, or rescinded projects, subject to Council approval;
14. Authorize the allocation of additional unspent Proposition K funds in FY 2026-27 and FY 2026-27 GAP funds to the projects identified as having shortfalls in Attachment 15 in the amounts to be subsequently approved by the Steering Committee and Council;
15. Recommend the authorization for the CAO and the Department of Recreation and Parks (RAP) to make funding adjustments and prepare technical adjustments as needed to carry out the intent of this report and authorize the Controller to implement those technical adjustments;
16. Instruct the City Clerk to publish notice by May 15, 2026, of a public hearing to take place on May 26, 2026, at 10:00 A.M., during the regular Council meeting;
17. Request the City Attorney to prepare and present the Ordinance Confirming the Assessment for FY 2026-27 to be considered during the public hearing on May 26, 2026;
18. Instruct the City Clerk to set an agenda item for public hearing on the Council agenda for May 26, 2026, to include the following actions:
 - a. With respect to the project(s) in List 5 of Attachment 6: Acknowledge that these are projects that may be considered for funding after California Environmental Quality Act (CEQA) compliance. No further action is required at this time.

- b. Adopt the Ordinance Confirming the Assessment, as prepared and transmitted by the City Attorney, confirming the assessments and approving the diagram for the Council District for FY 2026-27;
- c. Instruct the City Engineer to record a Notice of Assessment with the County Recorder;
- d. Approve the FY 2026-27 One-Year Plan for the L.A. for Kids Program and related schedules, as set forth in Attachments 1, 2, 3, 4, and 5;
- e. Approve the FY 2026-27 allocation of administrative funds up to the following amounts within Proposition K Administration Fund 43M, as set forth in Attachment 5:

Department	Amount
Bureau of Engineering	\$214,290
Public Work Board/Office of Accounting	165,623
Office of the City Administrative Officer	144,101
Office of the Chief Legislative Analyst	37,939
Total	\$561,953

- f. Instruct the Information Technology Agency to prepare the assessment file containing the assessment levy information confirmed by the City Council for FY 2026-27 for each parcel in the Assessment District and make it available for the Bureau of Engineering to verify and transmit to the County;
- g. Authorize the City Engineer to negotiate and execute Proposition K, HATS, and SNAP grant agreements with grantees that are recommended for FY 2026-27 project allocations (Attachment 1), except for competitive projects awarded to City departments, subject to approval of the City Attorney;
- h. Authorize the Controller to:
 1. Set up accounts for the FY 2026-27 Proposition K assessment within the following Funds, pursuant to instructions to be provided by the CAO: Proposition K Projects Fund No. 43K; Proposition K Maintenance Fund No. 43L; and, Proposition K Administration Fund No. 43M;
 2. Increase the FY 2026-27 appropriations for the Information Technology Agency by \$50,000 from Proposition K Fund 43K/10, Account 10C132 - Information Technology Agency (ITA) to Fund 100/32, Account 9350 - Communication Service Request;
 3. Transfer cash from Proposition K Fund No. 43K/10, on an as-needed basis upon proper documentation from the Information Technology Agency and approval by the Bureau of Engineering Program Managers and the CAO;
 4. Disencumber funds within the HATS Fund No. 43G/10 and the SNAP Fund No. 45B/10 upon written instruction by the CAO;

5. Transfer and appropriate \$635,437, and any interest accrued thereon, within the HATS Fund No. 43G/10, from the cash balance available within the Fund, as follows:

Account No.	Account Title	Amount
10WPDI	Anderson Senior Center	\$635,437

6. Transfer and appropriate \$1,252,734, and any interest accrued thereon, within the Vermont/SNAP Parks First Trust Fund No. 45B/10 from the cash balance available within the Fund, as follows:

Account No.	Account Title	Amount
10YPBE	Barnsdall Art Park Restoration Project	\$1,252,734

7. Transfer assessment revenues to the appropriate Program Funds in the approximate percentage distribution, and up to the amounts reflected below:

Proposition K Fund	Percentage Distribution	Year 30 Total
43K/10 – Capital Projects	77.51%	\$19,376,730
43L/10 - Maintenance	19.35%	4,836,817
43M/10 - Administration	3.14%	786,459
Total:	100.00%	\$25,000,000

- i. Transfer \$15.0 million between departments and funds as specified in Attachment 14;
- j. Instruct the City Engineer, CAO, Chief Legislative Analyst (CLA), and Board of Public Works, Office of Accounting (PW Accounting) to submit journal voucher requests supported by documentation of work order charges for program administrative and project construction management staffing costs to the CAO;
- k. Instruct the Department of General Services (GSD) and RAP to submit expenditure reports to the Bureau of Engineering and the CAO on a monthly basis;
- l. Authorize the City Engineer to make technical corrections to the City Engineer’s Report to reflect the intent of those transactions;
- m. Authorize the CAO to make funding adjustments and prepare technical adjustments as needed to fully commit annual assessment funds and carry out the intent of this Council action and authorize the Controller to implement those technical adjustments; and,
- n. Authorize the Controller, pursuant to instructions to be provided by the CAO, to revert residual funds within Proposition K Funds to the originating Proposition K project accounts for projects completed by the GSD and RAP as part of ongoing project closeout activities.

SUMMARY

The Proposition K: L.A. for Kids Program Management team presents, for the L.A. for Kids Steering Committee, Council, and Mayor, consideration of the FY 2026-27 Proposition K Assessment Report that includes the recommended FY 2026-27 expenditure plan.

Recommendations for current year budget adjustments are also provided along with recommended awards of program maintenance, inflation, and GAP funds.

The Proposition K: L.A. for Kids Program was established through a Ballot Measure approved by City of Los Angeles (City) voters on November 5, 1996, which authorized the City to collect up to \$25.0 million annually in local assessments over a 30-year period. Prior to June 30th of each year, the City is required to adopt an expenditure plan for the upcoming fiscal year.

On January 21, 2026 Council took the first action for levying the FY 2026-27 assessment by adopting the Resolution to Initiate Proceedings (C.F. 25-1533). This report recommends that Council proceed with actions one through three and initiate actions four through six, as follows:

1. Approve the FY 2026-27 expenditure plan adjustments to the FY 2025-26 adopted budget;
2. Adopt the City Engineer's report describing the proposed improvements for FY 2026-27;
3. Adopt a Resolution and Ordinance of Intention to levy the assessment;
4. Hold a public hearing on the proposed assessment;
5. Acknowledge the status of environmental documents for the projects being considered for inclusion in the assessment; and,
6. Adopt an Ordinance confirming the assessment for the FY 2026-27.

FY 2026-27 Expenditure Plan

The proposed FY 2026-27 expenditure plan, presented in Section 4 of the report findings, totals \$25 million, with a breakdown as detailed in the chart below:

FY 2026-27 Proposition K Expenditure Plan (in millions)					
Capital Projects	Administration	Maintenance	Inflation	GAP Funding	Total Budget
\$0.3	\$0.8	\$4.8	\$0	\$19.1	\$25.0

The proposed FY 2026-27 program expenditure plan is reflected as part of the Proposition K One-Year Plan (Attachment 1) and the “A List” of projects (Attachment 2) recommended for funding in FY 2026-27.

FY 2025-26 Budget Modifications

Several actions that are needed prior to the close of this fiscal year to fully obligate the \$25.0 million in FY 2025-26 program funds are presented in Section 5 of the report findings.

These recommendations include:

- Authorizing \$4.8 million in maintenance awards for projects qualifying through a competitive application process administered each year (Attachment 7); and,

- Awarding \$6.5 million in current year funding to program GAP funds (Attachment 12) and \$15.0 million in residual funds reprogramming (Attachment 13).

FISCAL IMPACT

Adoption of an Ordinance and Resolution of Intention to Levy the Proposition K: L.A. for Kids Assessment for FY 2026-27 indicates the Council's intention to levy assessments totaling \$25.0 million to acquire and construct park and recreational and cultural facilities serving youth. The assessment can only be used for capital improvements, acquisition of land, Proposition K Program administration and maintenance of completed projects. The operating cost for Proposition K projects completed in future years will be funded by the annual operating budget adopted for City departments and with independent funding for projects operated by external entities.

For Fiscal Year FY 2026-27, \$5.7 million in General Fund reimbursements are anticipated for program administration (\$0.79 million) and maintenance (\$4.9 million) as identified in the report findings, Section 3.

The RAP reports an annual fiscal impact of \$3.2 million once active Proposition K projects, currently in various stages of development, become operational over future years. This includes \$1.2 million for maintenance and \$2.0 million for operations (Attachments 3 and 4). The fiscal impact for completed projects will be partially offset by Proposition K maintenance funding. However, this annual offset will no longer be available once the Proposition K program concludes on June 30, 2027. In FY 2025-26, RAP will receive an award of \$4.3 million for current year maintenance awards (Attachment 7).

FINANCIAL POLICIES

The actions recommended in this report comply with the City's Financial Policies as one-time revenues are being used for one-time projects.

FINDINGS

1. Basis for Report

On January 21, 2026, the City Council adopted a Resolution to Initiate Proceedings that directed the Department of Public Works, Bureau of Engineering (BOE) and the Office of the CAO to report on the FY 2026-27 capital program proposed for Program Year 30 of the Proposition K Program (C.F. 25-1533). This Assessment Report transmits the FY 2026-27 One-Year Plan along with proposed adjustments to FY 2025-26 funding allocations.

2. Proposition K Program Overview

The Proposition K Program, currently in its twenty-ninth year of a 30-year program, was established by the adoption of a Ballot Measure approved by City voters in November 1996. The Steering Committee was created by City ordinance in the subsequent year as the program's administering entity. Committee membership consists of representatives from the Offices of the Mayor, the CLA, and the CAO, with the latter serving as the chair. Council transferred project management to BOE in April 2002 (C.F. 01-0600-S51) and administration of the program's competitive awards process in December 2003 (C.F. 03-0515-S2). The PW Accounting team provides program accounting services.

Funding deliberations begin each year with the convening of three Regional Volunteer Neighborhood Oversight Committees (RVNOC) for the Central, Southern and Valley Proposition K Program planning areas of the City. Two RVNOC members are appointed by each of the fifteen Council Offices to represent district funding priorities. At the conclusion of the RVNOC deliberations, grant award recommendations were presented to the Steering Committee for further deliberation, including consideration of staff input. While RVNOC recommendations are limited to the upcoming one-year funding period, staff recommendations also include proposed changes to the current year expenditure plan.

The Steering Committee transmits to Council initial funding recommendations through an annual Assessment Report that coincides with the release of the Mayor's Proposed Budget. Prior to the public hearing scheduled by the end of June of each year, any proposed changes to the initial funding recommendations are transmitted to Council through an amending Motion. Program funding recommendations must conform to use restrictions established by the 1996 Ballot Measure, which are summarized in the remainder of this section.

Approval of the FY 2026-27 expenditure plan includes adoption of a Resolution and Ordinance of Intention that formally indicates the City's intention to levy program assessment funds (Attachments 9 and 10). The Engineer's Report, which is provided in draft form as Attachment 8, reflects the proposed FY 2026-27 expenditure plan and the associated cost-benefit methodology used to allocate the assessment levy to parcels throughout the City. After Council approves the draft Engineer's Report and adopts the Ordinance confirming the assessment, BOE will finalize the Engineer's Report. The final Engineer's Report and related assessment documents, including the assessment levy information for each parcel in the Assessment District that is prepared by ITA, will be filed with the Los Angeles County Recorder, the County Assessor, and the County Auditor-Controller, as applicable.

a) **Project Categories: Specified and Competitive**

Proposition K funds two types of projects: 1) those that were specified in the Ballot Measure; and, 2) those awarded through a competitive process open to City entities, other governmental agencies and qualified non-profit agencies. Specified and competitive projects are further divided into local and regional categories.

Under the terms of the Proposition K Ballot Measure authorizing the program, the City is required to complete 183 specified projects and award a minimum of \$143.65 million in competitive funds across eight funding categories. At this stage of the program, with one year remaining, the majority of the Proposition K funding requirements have been satisfied. To date, full or partial funding has been allocated to all of the specified projects, with the exception of those projects, or portions thereof, found to be infeasible. For competitive grant awards, the City has awarded \$162.7 million through eleven prior rounds of funding. In total, there are 273 competitive projects (including withdrawn or rescinded projects).

b) **Proposition K Funding Restrictions**

The Proposition K Ballot Measure specifies expenditure ratios that the City must achieve over the 30-year life of the program for capital expenses (82 percent), maintenance (15 percent) and administration (3 percent). State law prohibits the use of program funds for operational costs.

Maintenance funds are awarded on a current year basis through a competitive process administered by BOE. Eligibility is limited to projects completed by December 31st of the awarding year. Since these monies only partially offset annual maintenance expenses, external agencies applying for competitive project funds must demonstrate an ability to maintain and operate the completed project before competitive funds are awarded.

Program administration funds are allocated on a first priority basis to fund the estimated fee charged by the County of Los Angeles for collecting assessment monies. The remaining administration funds are allocated to partially offset City staffing costs.

c) **Program Expenditure Requirements**

To facilitate reporting and tracking requirements, Proposition K collections are deposited on an annual basis into three separate funds, with funding over the 30 year term of the program limited to the percentages and funding totals reflected in the chart below:

Proposition K Accounting Funds			
Fund No.	Share of Revenues	Funding Limit (30 Year Total)	Primary Use
43K	82%	\$ 615.0 million	Capital expenses
43M	15%	112.5 million	Maintenance expenses
43L	3%	22.5 million	Administrative expenses
Total:		\$ 750.0 million	(Maximum Collections)

3. City Reimbursements – Program Administration and Maintenance

The City will receive \$5.3 million in 2025-26 and \$5.4 million in 2026-27, for a combined reimbursement level of \$10.7 million in program cost recovery over the two years. These monies will provide reimbursements for eligible administrative and maintenance expenses, as summarized in the chart below:

City Reimbursements for Eligible Program Expenses: FYs 2025-26 and 2026-27		
Cost Category	2025-26	2026-27
	Awarded	Proposed
Administration	\$ 561,953	\$ 561,954
Maintenance	4,774,916	4,836,817*
Total:	\$ 5,336,869	\$ 5,398,771
<i>*Projected figure. Actual amount would be subject to the outcome of the award process based on relative need and funding availability.</i>		

The recommended allocation of administrative funds in the current program year of \$561,953 and in the upcoming program year of \$561,954 will provide a reimbursement for four City departments, as reflected in bold in the chart below.

Proposition K Administrative Allocations		
Recipient	2025-26	2026-27
	Awarded	Proposed
BOE	\$ 214,290	\$ 214,290
PW Accounting	165,623	165,623
CAO	144,101	144,101
CLA	37,939	37,939
City Total:	\$ 561,953	\$ 561,953
County Assessment Fee*	224,505	224,505
Grand Total:	\$ 786,458	\$ 786,458
<i>*The County withholds this fee prior to transmitting funds to the City.</i>		

4. FY 2026-27 Proposed One-Year Expenditure Plan

The FY 2026-27 One-Year Plan (Attachment 1), incorporated as part of the Engineer’s Report, includes the proposed Year 30 expenditure plan also referred to as the A List (Attachment 2). The chart below provides a summary of the funding allocations recommended for Council and Mayor approval as part of the adoption of the FY 2026-27 Assessment Report.

FY 2026-27 Final Year Plan Funding Recommendations	
Funding Category	FY 2026-27 (Year 30) A List
Specified Funds	-
Regional	\$ 274,165
Local	-
Subtotal:	\$ 274,165
ITA	
	\$ 50,000
Total – All Projects:	\$ 50,000
Other Costs	
Administration	\$ 786,459
Maintenance	4,836,817
Inflation	0
GAP*	19,052,559
Total – Other Costs:	\$ 24,675,835
Grand Total:	\$ 25,000,000
*GAP funds are going to Specified Local and/or Regional Projects to cover shortfalls as identified herein.	

a. RVNOC Funding Deliberations

This year the RVNOCs conducted the FY 2026-27 funding deliberations on January 22, 2026. The RVNOC planning areas did not vote on funding for specified or competitive projects as all ballot specified funding had been previously allocated. The RVNOCs did provide recommendations on the related HATS and SNAP grants as discussed in Section 6 below.

Competitive Funds – Cumulative Total

The City is required under the terms of the Proposition K Ballot Measure to award \$143.7 million through a competitive award process. The Ballot Measure established minimum funding levels for eight categories of competitive projects. To date, the City has awarded \$162.7 million in Proposition K competitive funding through 11 award cycles conducted every two to three years. This satisfies the funding requirements for all of the eight categories, while exceeding the minimum level for the six categories by a total of \$19.1 million.

Distribution of Proposition K Competitive Funding: Award Cycles One Through Eleven			
Competitive Categories	Minimum Funding	Cumulative Awards	Excess Funding (over minimum)*
1. Regional Recreation / Educational Facilities	\$ 20,000,000	\$21,442,744	\$ 1,442,744
2. Neighborhood At-Risk Youth Facilities	20,000,000	22,778,236	2,778,236
3. Youth Schools / Recreation Projects	20,000,000	20,000,000	--
4. Aquatic Upgrades	16,000,000	17,730,874	1,730,874
5. Athletic Fields	16,650,000	20,064,747	3,414,747
6. Lighting	16,000,000	21,916,807	5,916,807
7. Urban Greening	15,000,000	17,259,481	2,259,481
8. Acquisition of Parks/Natural Lands	20,000,000	20,000,000	--
TOTAL:	\$ 143,650,000	\$162,763,849	\$ 19,113,849

a. Fiscal Impact for Active Projects

Since a majority of Proposition K projects are operated by RAP, an estimate of the fiscal impact for increased maintenance and operational costs was prepared by RAP (Attachments 3 and 4, respectively). These preliminary estimates, once all currently active projects become operational over future years, total \$3.2 million for the annual cost of maintenance (\$1.2 million) and operations (\$2.0 million). These future costs will be partially offset by Proposition K maintenance funding. As presented in Section 5a, RAP is recommended to receive \$4.3 million in total maintenance awards for projects completed in prior years (Attachment 7).

b. FY 2026-27 Maintenance, Inflation, and GAP Funding

The proposed 2026-27 maintenance (\$4.8 million), inflation (\$0), and GAP funding (\$19.1 million) allocations will be awarded to individual projects during the course of the 2026-27 program year. The individual project awards will be presented for Mayor and Council consideration throughout FY 2026-27, as part of separate reports.

5. FY 2025-26 Reprogramming and Awards of Maintenance, Inflation, and GAP Funds

To avoid forfeiture of uncommitted funds, the City must adopt a \$25.0 million expenditure program prior to the start of each program year. As each year progresses, adjustments to project allocations through reprogramming actions are necessary to ensure that the full funding commitment is maintained. Other current year funding actions include the award of Proposition K maintenance, inflation, interest, and GAP funding. This section presents recommendations for both current year reprogramming and the award of program

maintenance and GAP funds.

a. Maintenance Awards

Maintenance awards are budgeted in the current year, but paid on a reimbursement basis in the subsequent year. The FY 2025-26 Proposition K expenditure plan adopted by Council (C.F. 24-1029), set aside \$4.8 million in current-year maintenance funds. At its meeting held on December 11, 2025, the Steering Committee authorized the release of these maintenance funds on December 11, 2025, with responses due February 13, 2026.

The maintenance award recommendations totaled \$4.8 million (Attachment 7). Of this total, City departments will receive \$4.4 million, which is programmed as part of the 2026-27 Mayor’s Proposed Budget. As part of the eligibility review for maintenance award requests, BOE deducts costs unrelated to the completed project scope and prorates the eligible amount by the percentage of program funds contributing to the original capital project. Eligible awards may be reduced further by a proportionate rate to fall within available funding levels.

Regular Maintenance Award Cycle

For the regular 2025-26 maintenance award cycle, a total of 97 applications were submitted by the first round of applicants, for an aggregate funding request of \$18.7 million. Of this amount, BOE determined that eligible maintenance expenses total \$16.9 million after determining that one application was ineligible due to the expiration of the service contract, deducting ineligible expenses, and then adjusting the remaining eligible expenses by the percentage of Proposition K funds expended on the original project. The amount of eligible maintenance expenses exceeded the available funding by \$12.1 million. Program staff proportionally adjusted the award recommendations to the final award total of \$4.8 million recommended through this report, as summarized in the table below:

2025-26 Maintenance Funding Award Recommendations						
Applicants:	Non-Profit Agencies	Los Angeles Unified School District (LAUSD)	Zoo Department	Cultural Affairs Department (DCA)	Department of Recreation and Parks (RAP)	Grand Total
Applicant Request:	\$2,631,343	\$135,171	\$204,689	\$ 270,540	\$ 15,427,595	\$18,669,338
Eligible Expenses:	\$1,113,808	\$135,171	\$120,704	\$257,151*	\$15,364,444*	\$16,991,278
Final Proposed Award:	\$ 323,004	\$39,200	\$ 35,004	\$ 74,573	\$4,303,134	\$4,774,916
Eligible Applicants:	15	1	1	4	76	97

*Errors revealed in the RAP and DCA applications were corrected.

b. Allocation of Program Inflation and GAP Funding

In addition to the funding levels designated in the Proposition K Ballot Measure, specified projects with unresolved funding shortfalls may qualify for additional funding through sources that include Proposition K Inflation funds and GAP funds. The two funding sources are programmed each year as part of the \$25.0 million annual budget.

The award of program inflation funds is used to offset inflationary cost escalation over the life of the program, which is limited to specified projects during the year that acquisition and construction activities are initiated through a contractual obligation. The maximum award level for inflation funds is set at three percent compounded from year two of the program, up to the project shortfall level identified at the time of award.

The GAP funding represents surplus funding capacity within the program, resulting from the early defeasance of program bond debt (C.F. 14-1194-S1) that freed capacity to fund additional capital improvements on an annual basis. The repurposing of the GAP-specified funding capacity is used to offset project shortfalls in excess of the established award levels for program inflation funds and interest earnings. GAP funds are only eligible for awarding the remaining Proposition K specified projects.

The FY 2025-26 Two-Year Plan that was adopted by Council in June 2025, informs \$0 for program inflation funds and an allocation of \$6,466,379 for program GAP funds (C.F. 24-1029). Based on project funding requirements and other current-year programming needs, the following adjustments to the adopted budget level for these two funding sources are recommended as part of the FY 2025-26 reprogramming recommendations, as follows:

- Inflation funds – To remain at \$0; and,
- GAP funds – To remain at \$6.5 million.

A summary of the FY 2025-26 GAP award recommendations is provided in the chart below, with additional details reflected in Attachments 12:

FY 2025-26 Inflation and GAP Funding Award Recommendations		
Eligible Project	Comment	GAP Award
Southern Pacific Trails aka Slauson Connect (R35)	Increase in funding to address project shortfall.	\$ 6,466,379
Total:		\$ 6,466,379

c. Program Interest Monies

Proposition K interest funds are program revenues in the form of interest earnings on assessment funds and collection penalties. These funds can be used to offset shortfalls in annual collections or to address project funding shortfalls with award levels set based on

an objective index (currently the Producer Price Index). For the current year, there are no allocated interest awards. Therefore, any program interest funds remaining after any potential cash balance adjustments required for the current year will be retained to offset potential shortfalls in future collections. This will ensure that the City has access to the maximum annual funding level of \$25.0 million in order to support Proposition K program activities including the reimbursement of eligible City expenses in the upcoming year. At this time there is no intent to use these funds for current year projects but this will be reevaluated in the upcoming year to address critical project funding needs or critical shortfalls in the annual budget.

6. HATS and SNAP

The Bureau of Engineering (BOE) released the HATS and SNAP RFP on September 19, 2025 with proposals due on November 19, 2025, with a funding availability of \$635,437 for HATS funds and \$1,252,734 in SNAP funds. Each grant is further described below.

a. Health Alternatives to Smoking Trust Fund (HATS)

The HATS fund was established by Ordinance No. 172727 on August 29, 1999. The purpose of the Fund is to receive, retain, and disburse funding from the National Tobacco Settlement. The Ordinance mandates that disbursements shall be made through the Proposition K: L.A. for Kids RFP process. The Ordinance stipulates the following criteria based on the latest available census, which BOE provided as part of the RFP:

- Above average youth in poverty (greater than 36 percent);
- Above average persons 18 and under (greater than 26 percent);
- Below average acreage in parks (less than 2 percent); and,
- Not adjacent to major parks or national forest land.

The funding available in this RFP consists of remnant funds from awarded projects and the accrued interest. It is the intent that the final award amount includes any added interest to the amount advertised in the RFP such that all amounts in the fund are disbursed in funding award.

One application was received from RAP for the Anderson Memorial Senior Center for the amount of \$640,000. The project consists of lighting, parking lot improvements inclusive of Americans with Disabilities Act (ADA) accessibility upgrades, utility infrastructure upgrades, and other site improvements. These improvements are part of a larger scope of work. The RVNOC recommends that this application be funded in the amount of \$635,437 as advertised in the RFP.

Health Alternatives to Smoking (HATS)				
Total Available	Requested Amount	Project Title	Project Scope	Future Funding Award
\$635,437	\$640,000	Anderson Memorial Sr. Citizen Center	Lighting; parking lot improvements, including ADA accessibility upgrades; utility infrastructure upgrades; and other site improvements.	\$0.00

b. Vermont-Western Transit Oriented District (TOD) Station Neighborhood Area Plan (SNAP) Parks First Trust Fund

The Parks First Trust Fund was established by Ordinance No. 173964 on June 18, 2001. The purpose of the Parks First Trust Fund is to collect developer impact fees to acquire land and develop, improve, and maintain parks and open space physically located within the boundaries of the SNAP plan area, which includes portions of Council Districts 4, 10, and 13. The Ordinance states that the Steering Committee shall administer the fund and that the funds shall be expended through an RFP process.

The Parks First fees have remained a consistent amount since the adoption of the Ordinance. Since that time the developer impact fees imposed by RAP commonly and collectively known as “Quimby fees” are now greater than those imposed by the Parks First program. As two developer impact fees cannot be collected for the same purpose, it has become standard practice for applicants to pay the Quimby fee, which negates the collection of the Parks First fee. Therefore, it is anticipated that few, if any, future collections will be deposited into this fund. It is the intent that the final award amount includes any added interest to the amount advertised in the RFP such that all amounts in the fund are used in the disbursement of the awarded funds.

One application was received from RAP for the Barnsdall Arts Park for the amount of \$1.4 million. The project consists of the installation of new restrooms and additional park improvements, which may include security features, lighting, and accessibility improvements including a new path of travel from the restroom to other park facilities. The RVNOC recommends that this application be funded in the amount of \$1,252,734 as advertised in the RFP.

Parks First Trust Fund (SNAP)				
Total Available	Requested Amount	Project Title	Project Scope	Future Funding Award
\$1,252,734	\$1,400,000	Barnsdall Arts Park	New restrooms and additional park improvements which may include security features, lighting, and accessibility improvements.	\$0.00

7. Residual Funding Reprogramming

Various previously completed Proposition K projects have remaining balances that are available for reprogramming, subject to Council approval. Current and future year project shortfalls, totaling \$15.0 million, have been identified in Attachment 13 and may be addressed through the reallocation of these residual funds.

The BOE has identified a number of ongoing Proposition K Specified Local and Regional projects with budget shortfalls that will also need additional funding to cover shortfalls, as shown in the table below:

FY 2025-26 Residual Unspent Funding Recommendation			
Eligible Projects	Council District	Status	Residual Funding Award
Manchester Junior Arts Center (S70)	8	Currently 75 percent complete in design. Funding will support construction costs.	\$ 4,000,000
Oakwood Junior Arts Center (S99)	11	Currently 62 percent complete in design. Funding will support construction costs.	\$ 1,000,000
Engine Company 23 Arts Center (S78)	14	Phase I: Seismic rehabilitation, fire-life safety work, building upgrades to meet current Building and Safety codes, and historic restoration associated with building upgrades to meet current code is currently 93 percent complete in construction, with an anticipated August 2026 completion date. Phase II: Interior remodeling to convert the building into a youth arts center, is currently near complete in pre-design, and is anticipated to begin design in late May 2026.	\$ 5,000,000
Rosecrans Child Care Center (S145)	15	Currently in pre-design. Scope includes construction of a 3,500 square foot child care center.	\$ 5,000,000
Total:			\$15,000,000

8. List of Shortfall Projects

As the Proposition K approaches its final year, BOE has compiled a list of projects with identified funding shortfalls for the Steering Committee's awareness, as detailed in Attachment 15. Upon approval of this report, these shortfall projects will be eligible for

additional funding from unspent residual Proposition K funds and FY 2026-27 GAP funds in amounts to be subsequently approved by the Steering Committee and Council.

The list of shortfall projects include the above discussed Slauson Connect project, which is in the early stages of Design-Build Construction (the groundbreaking for construction was held March 28, 2026); the Boyle Heights Sports Center (currently in the Design Consultant procurement process); and, the Balboa Aquatics Center (in design and CEQA/Environmental process), as well as a few other remaining projects.

The BOE anticipates that the majority of these remaining projects will be awarded for construction in FY 2026-27, and will provide reprogramming recommendations for the use of remaining residual funds and FY 2026-27 GAP funds throughout the course of FY 2026-27 to the L.A. For Kids Steering Committee for consideration, with the goal of addressing current and anticipated project shortfalls.

SUBJECT: RECOMMENDED PROPOSITION K 2025-26 MAINTENANCE FUNDING AWARDS

RECOMMENDATIONS

The Bureau of Engineering (BOE) recommends that the L.A. for Kids Steering Committee (Steering Committee):

1. Approve the 2025-26 maintenance funding award recommendations, as set forth in this report, totaling approximately \$4,774,916, as reflected in Attachment No. 1.
2. Authorize staff to transmit the maintenance recommendations to City Council as part of the forthcoming 2025-26 Assessment Report.

BACKGROUND

The Proposition K: L.A. for Kids Program was established on November 5, 1996 by passage of a Ballot Measure approved by City voters. The measure authorized the City to collect up to \$25 million annually in local assessments on all properties within the City of Los Angeles over a 30-year period. Over the life of the program, 15 percent of program funds are restricted to fund maintenance costs for completed Proposition K projects. The award of these funds must occur through a competitive process that is administered by Program Staff on an annual basis.

At its meeting held on December 11, 2025, the Steering Committee authorized the release of the 2025-26 Proposition K Maintenance Funding Application for January 14, 2026, with a submission deadline on or before 3:00 PM on February 13, 2026. The adopted 2025-26 Proposition K Program budget included a total of \$4,774,916 in maintenance funds available for award for eligible project maintenance expenses incurred between July 1, 2025 and June 30, 2026.

BOE released the maintenance funding application on January 14, 2026. A total of 97 applications were received before the deadline of 3:00 PM on February 13, 2026.

These 97 applications amounted to an overall funding request of \$18,669,337.65. The Department of Recreation and Parks (RAP) submitted 97 applications and reported a total estimated maintenance cost of \$22,001,292.05 for Fiscal Year 2025-26. However, RAP only requested a total of \$15,427,594.96 in Proposition K funding because RAP prorated its maintenance request by the same percentage of Proposition K monies used to fund the original capital improvements development projects. During the review process errors were detected and the RAP request was increased to \$15,364,444.12.

The DCA only request a total of \$270,540 in Proposition K funding because DCA prorated its maintenance request by the same percentage of Proposition K monies used to fund the original capital improvements development projects. During the review process errors were detected and the RAP request was increased to 257,151.19.

After reviewing the 97 applications, only 97 were deemed eligible for the award of maintenance funds as the service period. BOE has determined that eligible maintenance expenses approximately totaled \$16,991,277.86, after deducting ineligible costs and adjusting the funding requests by the percentage of Proposition K monies used to fund the original capital improvements. Since the eligible maintenance expenses of \$16,991,277.86 exceeds the available 2025-26 maintenance funds by \$12,216,361.86, a proportionate reduction of approximately 71% was applied to all eligible applications. As a result, the total 2025-26 maintenance funding award recommendation amounts to \$4,774,916.

The 2025-26 maintenance funding award recommendations are summarized in the chart below and detailed in Attachment No. 1 to this report.

2025-26 Maintenance Funding Award Recommendations						
Applicants:	Non-Profit Agencies	LAUSD	Los Angeles Zoo	Department of Cultural Affairs	Department of Recreation and Parks	Grand Total
Applicant Request:	2,631,342.82	135,171.00	204,688.88	270,540.00	15,427,594.95	18,669,337.65
Eligible Expenses:	1,113,807.61	135,171.00	120,703.94	*257,151.19	*15,364,444.12	16,991,277.86
Recommended Awards:	323,004.00	39,200.00	35,004.00	74,574.00	4,303,134.00	4,774,916.00
No. of Eligible Applications Received:	15	1	1	4	76	97

*Errors revealed in the RAP and DCA applications were corrected.

Award Adjustments

Award adjustments typically include deduction of ineligible expenses, corrections to values and computational errors, and the percentage adjustment to prorate the maintenance awards by the same percentage of Proposition K monies used to fund the original capital improvements development project. Of these factors, the percentage adjustment typically accounts for the most significant variance between the requested and the eligible award level.

Adjustments for ineligible expenses typically include: 1) costs of operations; 2) maintenance costs for amenities unrelated to the original Proposition K project; and 3) expenses defined as ineligible in the 2025-26 Proposition K Maintenance Funding application memorandum.

ENGINEER'S REPORT
CITY OF LOS ANGELES
LANDSCAPING AND LIGHTING DISTRICT NO. 96-1
(Voters Approved Proposition K: L.A. for Kids Program)

PART A INTRODUCTION AND DEFINITIONS

On May 14, 1996, the Los Angeles City Council (the “Council”) adopted an Ordinance of Intention, subject to voters’ approval, to order the formation of an assessment district, “City of Los Angeles Landscaping and Lighting District No. 96-1” in accordance with the provisions of the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code. The measure was placed on the November 5, 1996, ballot as Proposition K.

On November 5, 1996, voters in the City of Los Angeles (“City”) approved Proposition K, which authorizes the formation of the City of Los Angeles Landscaping and Lighting District No. 96-1 and approves the levy and collection of an annual assessment of \$25 million within the District for a period of thirty years.

The District has provided funding for the acquisition, development, improvements, restoration and maintenance of parks, open spaces, recreation and community facilities throughout the District. Over the 30-year funding period, a total of \$615 million is designated for capital projects in 1996 dollars. Of this amount, \$298.85 million is for projects that were specified in the ballot measure, and \$143.65 million is for competitive grants. The remaining balance of \$172.5 million is programmed for debt service on bonded projects and for award of inflation funds to eligible projects entering construction. Council must pass an ordinance by June 30th each year levying the assessment for the ensuing fiscal year. This Engineer’s Report (“Report”) is prepared in compliance with the requirements of Article 4 of Chapter 1 of the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code.

A.1 Five Parts of This Report:

PART A. INTRODUCTION AND DEFINITIONS

PART B. PLANS AND SPECIFICATIONS FOR THE PROPOSED IMPROVEMENTS

A general description of the proposed Improvements for the 2021-22 Fiscal Year including the general nature, location, and extent of the Improvements.

PART C. ESTIMATE OF THE COSTS OF THE IMPROVEMENTS

An estimate of the cost of the proposed Improvements and of any proposed incidental expenses to be incurred in connection with the Improvements.

PART D. BOUNDARIES OF DISTRICT AND ASSESSMENT DIAGRAM

A reduced scale copy of the assessment diagram is included.

PART E. BENEFIT ASSESSMENT FORMULA AND METHOD

A statement of the method by which the benefit to each property is determined and explained.

A.2 Definitions

As used in this Report, the following terms have the indicated meanings:

“**Assessment**” means the levy to be collected within the City upon real property on the basis of special benefits received rather than by ad valorem tax.

“**Assessment District**” or “**District**” means City of Los Angeles Landscaping and Lighting District 96-1, the boundaries of which are coterminous with the boundaries of the City and which was adopted by Referendum Ordinance K that was approved by the voters on November 5, 1996.

“**Ballot Measure**” means the Referendum Ordinance K that was approved by the City voters on November 5, 1996.

“**Benefit Point**” or “**BP**” means a unit used in calculating the proportion of the special benefit received by the land and the improvements on the land.

“**CCYF**” or “**Commission**” means the Commission for Children, Youth and Their Families, unless otherwise noted.

“**City Engineer**” means the Los Angeles City Engineer.

“**Code**” means the Streets and Highways Code of California.

“**Land Use Code**” means the Code that the Los Angeles County Assessor assigns to each parcel based on the zoning and the use or improvement on the parcel.

“**LVNOCs**” means the Local Volunteer Neighborhood Oversight Committees.

“**Proposition K: L.A. for Kids Program**” or “**L.A. for Kids Program**” or “**Proposition K**” or “**Proposition K Program**” means the LA. for Kids program which was established by the Ballot Measure.

“**RVNOCs**” means the Valley, Central, and Southern Regional Volunteer Neighborhood Oversight Committees.

“**Steering Committee**” means the Proposition K: L.A. for Kids Program Steering Committee.

A.3 Benefit Assessment and Collections

A.3.1 Benefit Assessment Governing Laws

Because the assessments proposed received approval of a majority of the voters prior to the passage of Proposition 218, they are exempt from the procedures and approval process set forth in Section 4 of Proposition 218, but the assessment proceedings are required to follow the provisions of the Landscaping and Lighting Act of 1972.

The Landscaping and Lighting Act of 1972 (“Act”) provides for assessments for park acquisition, development, improvement, restoration, and maintenance costs against the benefited properties within the assessment district. The Act states that:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.

The determination of whether or not a lot or parcel will benefit from the improvements shall be made pursuant to the Improvement Act of 1911 (Division 7 commencing with Section 5000 of the Streets and Highway Code)."

The application of this method in the assessment of the various lots or parcels is shown in detail in Part E - Benefit Assessment Formula and Method.

A.3.2 Assessment Collections

The amounts to be assessed for the expense of such acquisition, development, improvements, restoration and maintenance of parks, open spaces, recreation and community facilities will be levied and collected at the same time and in the same manner and by the same officers as Los Angeles County (“County”) property taxes are levied and collected.

All laws providing for the collection and enforcement of County taxes will be applied to the collection and enforcement of the assessments. All assessments collected will be disbursed and expended for land acquisition, capital improvements, maintenance, and servicing of the improvements in the district.

A.3.3 Public Properties

Properties owned by public agencies such as the City, the County, the State or the federal government will not be assessed, except when such property is not devoted to a public use. Rights-of-way owned by utilities and railroad operating rights-of-way are also exempt from assessment.

A.4 L.A. for Kids Program Organization

A.4.1 L.A. for Kids Steering Committee

SECTION 9 of the Ballot Measure states that:

The expenditure of assessment funds and the overall management of the program projects, which together shall be known as the L.A. FOR KIDS Program, shall be administered by the City Council or by a City entity designated by the City Council by ordinance, which shall report to the City Council annually on the status of the L.A. FOR KIDS Program and shall provide for public distribution of the annual report.

Based on this Section, the Council adopted an Ordinance on April 4, 1997, designating an entity to administer the expenditure of assessment funds and provide overall management of the L.A. for Kids Program. This entity, named the “L.A. for Kids Steering Committee”, is comprised of the Mayor, the City Administrative Officer, and the Chief Legislative Analyst. The Steering Committee is chaired by the City Administrative Officer. Also designated as ex-officio, non-voting members of the Steering Committee are: the General Manager of the Department of Recreation and Parks; the General Manager of the Department of Cultural Affairs; the General Manager of the Library Department; a City Council staff person appointed by the President of the City Council; and the City Engineer. The April 4, 1997 Ordinance was subsequently amended to designate the Steering Committee as the entity to oversee all matters relative to the State Proposition 12 and Proposition 40, and County Proposition A and Measure A measures, which were previously approved by the electorate. Each of the Steering Committee members and the ex-officio members may designate someone to act on that member’s behalf.

The Steering Committee shall have the following duties and responsibilities and such others as the City Council may add:

- (a) Administer the expenditure of assessment funds and be responsible for the overall management of the L.A. for
- (b) Kids Program;
- (b) Submit an annual plan of projects to Council for approval, which will include, but not be limited to, identification of the general nature, location, and extent of acquisition and improvements for all projects to be funded in the year and priorities for the long-term;
- (c) Submit recommendations on the composition of Volunteer Neighborhood Oversight Committees for projects in Regional Parks;

- (d) Develop financing alternatives;
- (e) Submit an annual report to the Council on the status of the L.A. for Kids Program and provide for public distribution of the annual report; and
- (f) Oversee the following activities:
 - (1) Monitoring of the status of projects, costs and schedules of Proposition K funded projects in the participating City departments and commissions;
 - (2) Preparation of the annual City Engineer assessment report by the Bureau of Engineering (“BOE”); and
 - (3) Development of computer tapes to be sent to the County Assessor each year by the Information Technology Agency.

The Steering Committee will administer all trust or special funds in which Proposition K assessment funds are deposited. Staffing for the work of the Steering Committee will be provided by the City Administrative Officer (“CAO”).

A.4.2 Volunteer Neighborhood Oversight Committees

The Ballot Measure envisioned that community participation and oversight would be vital to the success of the L.A. for Kids Program. Section 10 of the Measure states,

“The City Council shall establish Volunteer Neighborhood Oversight Committees in various areas of the City to advise the City on setting priorities for when projects will be done, advise on the design of projects and prepare annual reports to the City Council on the status of projects.”

Two tiers of Volunteer Neighborhood Oversight Committees have been approved:

1. Regional committees to advise the Steering Committee on when projects will be done.
2. Local committees to advise on the design of projects and to prepare annual reports to Council on the status of the projects.

A.4.3 Regional Volunteer Neighborhood Oversight Committees (RVNOCs)

The Council established three regional committees: Valley, Central, and Southern regions. It is important that community members on the regional committees, also known as Regional Volunteer Neighborhood Oversight Committees (“RVNOCs”) have a regional perspective when advising on priorities. The RVNOCs have the following key elements:

- ◆ There are 3 RVNOCs with approximately 10 members each;
- ◆ The RVNOC members are appointees of Council offices. Each Council Office has 2 appointees who live, operate a business, or own property within their Council District;
- ◆ The CAO is responsible for coordinating and convening the RVNOCs.
- ◆ Boundaries of the three regions closely follow Council District boundaries and the numbers of

RVNOC committee members in each region are composed as follows:

Composition of Regional Volunteer Neighborhood Oversight Committees

Valley Regional Volunteer Neighborhood Oversight Committee	Central Regional Volunteer Neighborhood Oversight Committee	Southern Regional Volunteer Neighborhood Oversight Committee
CD 2 = 2 members	CD 1 = 2 members	CD 8 = 2 members
CD 3 = 2 members	CD 4 = 1 member	CD 9 = 2 members
CD 4 = 1 member	CD 5 = 2 members	CD 10 = 2 members
CD 6 = 2 members	CD 11 = 1 member	CD 11 = 1 member
CD 7 = 2 members	CD 13 = 2 members	CD 15 = 2 members
CD 12 = 2 members	CD 14 = 2 members	
TOTAL = 11 members	TOTAL = 10 members	TOTAL = 9 members

A.4.4 Local Volunteer Neighborhood Oversight Committees (LVNOCs)

A.4.4.1 LVNOCs for Specified Projects

The City Council took action on April 4, 1997, to create Local Volunteer Neighborhood Oversight Committees (“LVNOCs”) at each park and Junior Arts Center upon Council approval of each project as part of the annual expenditure plan. The Department of Recreation and Parks (“RAP”) and the Department of Cultural Affairs (“Cultural Affairs”) are instructed to coordinate and to convene the LVNOCs for the projects within their respective areas of responsibilities. These Departments appoint members to the LVNOCs.

Before selecting the membership to serve on the LVNOCs, the Departments are instructed to confer with the relevant Council Offices for recommendation of potential appointees from key stakeholder groups to ensure that, to the extent feasible, the entire community is represented in the process.

A.4.4.2 LVNOCs for Competitive Grant Projects

The Council approved the formation of one LVNOC in each Council District for those projects awarded funds through the competitive grant process, upon Council approval of each project as part of the annual expenditure plan. As noted in the chart below, these LVNOCs are comprised of seven voting members and three ex officio members. Five of the seven voting members are appointed by each Council Office (four neighborhood representatives and one youth representative). The five Council Office appointees have to live, operate a business, or own property within the Council District.

These LVNOCs are responsible for monitoring the progress of funded projects and for preparation of annual status reports to Council.

Composition of Local Volunteer Neighborhood Oversight Committees

Type of Members	Type of Representative	Appointed By	Number of Members
Voting Members	Neighborhood Representatives	Council Member	4
	Youth Representative*	Council Member	1
	Neighborhood Representatives	RAP, Cultural Affairs, or BOE for Competitive Projects under BOE purview	2
	TOTAL		7
Ex officio Members	Council Staff Representative	Council Member	1
	Mayor’s Representative	Mayor	1
	BOE	BOE	1

*When possible and feasible

A.5 The Annual and One Year Plan Process

1. Departmental Annual and One Year Plan

Each year, the City Engineer submits a list of projects for the annual expenditure plan to the Steering Committee. From the inception of the Proposition K Program, a Five Year Plan has been prepared annually in order to project futures year expenditures. In FY 2020-21, a Seven Year Plan was prepared in order to adequately plan for the final remaining years of the Proposition K Program. In FY 2021-2022, a Six Year Plan was prepared. Being that the Proposition K program ends at the end of FY2026/27 (Year 30), for FY 2025-26, a Two Year Plan was prepared and for FY 2026-27, a one year plan has been prepared, being that it is the last year of Proposition K funding. Based on input from RAP, Cultural Affairs and Council Offices, the Steering Committee submits a draft of the expenditure plan to the RVNOCs at the beginning of the budget process each year for consideration. The annual expenditure plan in this Report is the A LIST (Attachment 2).

2. The Regional Volunteer Neighborhood Oversight Committees Review

The RVNOCs will each review the plan and submit their recommendations to the Steering Committee.

3. The L.A. for Kids Steering Committee Review

The Steering Committee then reviews the RVNOCs recommendations and submits the

Steering Committee's recommendations to Council.

4. City Council Review and Approval

Council reviews and adopts the annual expenditure plan and the Plan for the remaining program years. In the case of competitive grants, no contract can be awarded until final Council approval of the project as part of an annual expenditure plan and funds are available.

A.6 Competitive Grant Process

The Commission for Children, Youth and Their Families (CCYF) was designated by ordinance to administer the competitive grant process. The City Council retains the right to amend this ordinance and designate a different agency to administer that process. At its meeting of May 15, 2003, the L.A. for Kids Steering Committee recommended that responsibility for the competitive grant process be transferred from CCYF to the City Engineer. The recommendation was approved by Council (Council File 03-0515-S2), and a new ordinance was adopted. Thereafter, CCYF was no longer directly involved in the administration of the Proposition K: L.A. for Kids Program.

The Ballot Measure established eight categories of competitive projects and limited the amount of funds that can be expended in these categories. Grants are available in the following eight categories, subject to availability of funding in each category:

1. Regional Recreation/Educational Facilities
2. Neighborhood At-Risk Youth Recreation Facilities
3. Youth Schools/Recreation Projects
4. Aquatic Upgrades
5. Athletic Fields
6. Lighting at Athletic Fields
7. Urban Greening
8. Acquisition of Parks and Natural Lands

A.6.1 COMPETITIVE GRANT PROCESS

On September 16, 2025, the Los Angeles City Council approved (C.F. 25-1018) the issuance of the 2025 VERMONT/WESTERN STATION NEIGHBORHOOD AREA PLAN (SNAP) PARKS FIRST TRUST FUND (PARKS FIRST, ALSO KNOWN AS SNAP) AND HEALTH

ALTERNATIVES TO TOBACCO SMOKING (HATS) TRUST FUND REQUEST FOR PROPOSALS (RFP).

The RFP was opened due to the availability of additional remaining funds, which were only available from the **Parks First Trust Fund and HATS** funding sources. NO other related funding categories, such as Proposition K, have remaining funds available at this time. The proposals were due on November 18, 2025, by 3 pm.

Part One – Parks First Trust Fund: approximately \$1.4M is available

Part Two -Health Alternatives to Smoking (HATS) Trust Fund: approximately \$635,437 is available.

On January 22, 2026, The RVNOC were presented with recommendations for funding for two (2) projects, one for PARKS FIRST TRUST FUNDS (Barnsdall Park) and a second for HATS (Anderson Senior Center). On Thursday, February 26, 2026, those recommendations were presented to the LAFKSC for consideration. The final consideration of the recommendations will be presented to the City Council concurrent with this City Engineer’s Report.

A.7 Administration of Contracts with Competitive Grant Awardees

There are several components to the contracts with competitive grant awardees: design, construction, and services/maintenance. With the transfer of the CCYF competitive grant process to the City Engineer, BOE now administers all components of the contracts. Grants awarded to RAP, or any other City agency, are not part of this contracting process. Instead, City departments are responsible for conducting their own project design, construction, and maintenance as required. Nonetheless, in March 2002, the Council designated the City Engineer to be the Program Manager to oversee project and construction management for all RAP Proposition K projects.

PART B PLANS AND SPECIFICATIONS FOR THE PROPOSED IMPROVEMENTS

B.1 One Year Plan

While an annual plan is not a requirement of Proposition K, it is an important planning tool to help City departments know when to begin the project development process. The Annual Plan also helps to ensure that funds are distributed equitably citywide over the life of the L.A. for Kids Program. The One Year Plan also helps to ensure that projects comply with the California Environmental Quality Act (“CEQA”) prior to being approved for funding in a particular fiscal year, or as otherwise required by law. The Plan includes projects that were specified in the Ballot Measure and projects that were awarded funding in prior competitive grant cycles. The Steering Committee will submit a plan to Council each year to reflect any changes in project schedules or community needs.

The annual assessment report that is transmitted to Council for approval includes the annual expenditure plan (contained in the A LIST) (Attachment 2), the One Year Plan (Attachment 1), the B LIST (Attachment 3), and C LIST (Attachment 4) of projects recommended for funding, all of which collectively specify in detail those acquisitions and improvements that are to be funded by the Proposition K Program. The One Year Plan for Program Year 30 is included in this Report as Attachment 1. The A LIST (Attachment 2, also referred to as the annual expenditure plan) represents the projects and program expenditures recommended for funding in Fiscal Year 2026-2027. The A LIST includes projects that require environmental analysis under the California Environmental Quality Act (CEQA) and for which the environmental process will be completed prior to adoption of the Ordinance Ordering Confirmation, Levy and Collection of Annual Assessment or as otherwise required by law. A Categorical Exemption, Environmental Impact Report, or Negative Declaration has been or is being prepared and a Notice of Determination has been or will be filed when applicable .

The B LIST (Attachment 3) includes funding for the remainder of the Proposition K program, specified and competitive projects in program year 30 (i.e. Fiscal Year 2026-27), that may be substituted for projects in the A LIST during Fiscal Year 2026-27 in the event it is determined by the Council that any project on the A LIST will not be implemented in the 2026-27 Fiscal Year. The C LIST (Attachment 4) contains the competitive grant projects on the alternate list recommended by the RVNOCs and approved by the Council. Similar to the B LIST, projects on the C LIST are eligible to receive funding

reprogrammed from 11th Cycle competitive projects that are withdrawn, rescinded, or determined to be infeasible. The substituting of the projects on the A LIST with projects on the B LIST or the C LIST will not change the benefit analysis of the special benefit received by the assessed parcels in the City. Compliance with CEQA must be completed for projects on the B LIST and the C LIST prior to City Council approving the substitution of any of these projects for projects on the A LIST during Fiscal Year 2026-27.

B.2 FY 2026-27 Improvement Project List Review Process

B.2.1 The Regional Volunteer Neighborhood Oversight Committees Meetings

The Regional Volunteer Neighborhood Oversight Committees' meetings are publicly noticed and are staffed by City departments. For the Assessment for Fiscal Year 2026-27, the RVNOCs reviewed the projects specified in the Ballot Measure. The RVNOCs also assigned priority levels to each project based on information provided on the specified projects and the RVNOC members' knowledge of community needs to help the Steering Committee determine when the recommended projects should be implemented within the next fiscal year (FY2026-2027).

B.2.2 The L.A. for Kids Steering Committee Review Process

After receiving the recommendations from the RVNOCs, the Steering Committee conducted public hearings on the specified projects to be included in the One Year Plan. The final One Year Plan recommended by the Steering Committee was based on the recommendations from the RVNOCs. In accordance with Code Sections 22567 and 22568, the description of the general nature, location and extent of the items to be acquired and/or constructed is as shown in ATTACHMENTS 1, 2, 3, and 4, titled as follows:

ATTACHMENT 1: ONE YEAR PLAN FOR PROGRAM YEAR 30

ATTACHMENT 2: A LIST OF PROJECTS (PROGRAM YEAR 30)

ATTACHMENT 3: B LIST OF PROJECTS FOR PROGRAM YEAR 30

ATTACHMENT 4: C LIST: REMAINING UNFUNDED AND/OR UNDERFUNDED PROJECTS

PART C ESTIMATE OF THE COSTS OF THE IMPROVEMENTS

C.1 Pre-development Costs

The Department of Recreation and Parks is responsible for conducting the environmental review required for all of their own specified projects in the One Year Plan prior to confirmation of the Assessment for FY 2026-27, or as otherwise required by law, and may also receive assistance from the City Engineer. The City Engineer will also assist Cultural Affairs and other departments in preparation of their environmental documentation. For the competitive grants, proposers were required to submit a completed environmental review, or if they need a Negative Declaration or Environmental Impact Report, they could apply for environmental funds.

The FY 2026-27 expenditure plan provides specific predevelopment cost allocations for specified projects. Pre-development costs may include but not be limited to costs associated with initial site investigation for hazardous materials, lead paint studies, asbestos and other studies required by California Environmental Quality Act (CEQA), and appraisals for acquisition projects.

C.2 Maintenance Costs

Proposition K requires that funding of the capital projects authorized by the Ballot Measure be contingent upon a showing that the entity administering the project has the financial ability to provide the programming and staff for which the facilities are intended to be used. Although the Ballot Measure provides funding for the maintenance of facilities that will be constructed or improved with assessment funds, there are limited funds available for maintenance, and the remainder will have to be funded by the grantees, the General Fund, or other funding sources.

Proposition K requires that a minimum of 15% of the total funds over the life of the assessment be used for maintenance of completed projects. Maintenance funding is available for completed Proposition K projects that were specified in the Ballot Measure as well as projects that were awarded competitive grants.

Maintenance funds for FY 2025-26 will be allocated as recommended by the Steering Committee and approved by Council prior to June 30, 2026.

C.3 Bonding and Bonding Costs

The Ballot Measure allowed bonds to be issued for construction and acquisition costs of any of the projects contemplated in the Proposition K Program. The advantages of bonding were:

1. More projects could be undertaken in the early years of the Proposition K Program;
2. Large projects could be funded without taking up a large portion of the Assessment in a given year; and
3. Land could be acquired during years that it was relatively low in price.

In October 1999, Council adopted procedures for issuing bonds under the Proposition K Program through adoption of City Ordinance No. 172856 (C.F.97-0031-S12). Subsequently, a total of three Proposition K bond series were issued in FYs 1999-00, 2000-01 and 2001-02 for cumulative funding of \$44.29 million. Of this amount, \$43.23 million was used to fund a total of 16 Proposition K projects, with the remaining balance of bond monies used to fund the cost of issuance and related expenses. In total, the 16 original Proposition K bond projects received overall funding of \$177 million that includes funding from the following sources:

Proposition K Bond Projects – Summary of Funding Sources (Attachment 4)					
Prop K Bond Funds	Prop K Assessment Funds *	Prop K Match Deposit	Other Matching Funds	Other Funding Sources	Est. Total Project Costs
\$51,113,357	\$4,778,964	\$4,281,749	\$2,798,167	\$79,188,555	\$142,160,792
* This balance reflects the appropriation level. The actual expenditure totals \$4,586,447.					

In Fiscal Year 2011-12, a Prop K financial review identified \$7.93M as available for programming. This funding was comprised of \$1.83M in unspent bond funds, and \$6.13 in bond interest earnings. These bond funds were made available under the Bond Ordinance to previously non-bonded Proposition K projects. At its meeting held on February 29, 2012, the L.A. for Kids Steering Committee approved the following three priorities for use of these funds, that were subsequently approved by Council in April 2012 (C.F. 12-0479): 1) Complete minor improvements remaining under the bond program (\$639,396); 2) Commit \$5 million on phase two of the Children’s

Museum/Environmental Awareness Center (CMLA/EAC) project; and, 3) Reserve \$2.3 million to address funding shortfalls on eligible Proposition K projects. In addition, in FY 2012-13, City Council added the Sheldon Arleta project to the bond program. (C.F. 12-0479-S1)

C.3.1 LIST OF PROJECTS AND COSTS APPROVED FOR BONDING

Project (Prop K Project ID)	CD	Proposition K Funding Limit	Proposition K Bond Allocation*
1. SHORT-TERM PROPOSITION K BONDS ISSUED IN 1999-00 (2000 BOND SERIES)			
Rec & Parks: Point Fermin Park (R24)	Regional	\$2,000,000	\$1,258,505
Rec & Parks: Lincoln Park Lake (S8)	1	600,000	532,896
Rec & Parks: Shadow Ranch (S25)	12	1,500,000	1,332,548
Rec & Parks: Lemon Grove (S124)	13	1,000,000	441,030
Rec & Parks: Hazard Park (S131 & S132)	14	<u>850,000</u>	<u>754,864</u>
Subtotal		\$5,950,000	\$4,319,843
2. LONG-TERM PROPOSITION K BONDS ISSUED IN 1999-00 (2000 BOND SERIES)			
Rec & Parks: South L. A Sports Activity Center (R34)	Regional	2,192,036	2,192,036

Rec & Parks: Laurelgrove Park (C192-7)	2	350,000	350,000
Rec & Parks: De Garmo Park (C197-7)	2	600,000	500,000
Project (Prop K Project ID)	CD	Proposition K Funding Limit	Proposition K Bond Allocation*
Rec & Parks: Strathern Park Baseball Fields (C243-8)	2	400,000	400,000
Rec & Parks: Sheldon Arleta (C125-4)	6	803,878	1,196,122
Rec & Parks: Strathern Wetlands Park (C244-8)	6	728,539	728,539
Andreas Pico Adobe (S55)	7	1,058,813	680,000
Sepulveda Rec. Center (S51)	7	817,939	817,939
Rec & Parks: Harvard Rec. Center (C173-6)	8	712,000	487,000
Rec & Parks: M.L.K. Therapeutic Center Soccer Field (C199-7)	8	476,022	856,022
Rec & Parks: Slauson Recreation Center Lighting (C245-5)	9	73,000	73,000
Subtotal		\$43,920,599	\$8,008,151

Grand Total – All Projects	\$95,498,086	\$51,113,357
<p><i>* Original bond allocations have been reduced to actual expenditures levels for completed bond projects listed in Sections 1 through 4 of the chart above, with excess funds reprogrammed to projects listed in Section 5, as approved by Council in April 2012 and the public hearing held on May 1, 2012 (C.F.12-0479).</i></p>		

On June 23, 2015, Council approved the early defeasance of the three Proposition K bond series issued in 2000, 2001, and 2002 (C.F. 14-1194-S1). These funds from the City were transferred to the Trustee and Escrow Bank on June 26, 2015. Bond Counsel has deemed these bonds legally defeased. Bond funds previously authorized will be utilized to complete projects that received those funds.

C.4 Administration Costs

For FY 2026-27, program administration costs are funded in the amount of \$786,458. This amount will fund the collection fee paid to the County Assessor and partially reimburse certain City Departments, and the General Fund for those activities supporting the Proposition K: L.A. for Kids Program. Additional one-time funds for 2025-26 are available from prior year funds available for programming due to a reconciliation of the administration account. The Steering Committee and City Council have approved the use of these funds to provide additional administrative support for program close-out activities with additional funds being made available to the Department of Public Works - Office of Accounting, Chief Legislative Analyst, and City Administrative Officer, as well as the continued payment for a 120-day contract in the Department of Public Works – Office of Accounting if approved by the Office of the Mayor. (C.F. 12-1670-S8). Historically, Departments have performed various tasks that are described in Section C.5.

C.5 Administrative Costs for the District for FY 2026-2027

County Assessor / Auditor-Controller **\$224,505**

- assess and collect Proposition K funds on behalf of the City
 (County charges \$0.25 per parcel x 781,213 parcels + fees)

Reimbursable Costs in Support of Assessment District

Dept. of Public Works - Office of Accounting **\$165,623**

- process payments for competitive and specified projects under the direction of the City Engineer

Dept. of Public Works - Bureau of Engineering **\$214,290**

- perform general program management responsibilities

- attend and support Steering Committee
- attend and support Regional/Local Volunteer Neighborhood Oversight Committees
 - prepare Engineer’s Report and Assessment diagrams
 - provide Assessment support (response to Assessment complaints and appeals)
 - prepare, negotiate, administer and monitor competitive grant agreements and maintenance funding agreements
- monitor and assist with competitive grant project construction and management
- monitor grantee compliance with services and maintenance requirements of competitive grant agreements

Chief Legislative Analyst **\$37,939**

- participate and staff the Steering Committee, staff RVNOCs

City Administrative Officer **\$144,101**

- chair and staff the L.A. for Kids Steering Committee, staff RVNOCs, administer Proposition K funds

City Attorney **- 0 -**

- review legal documents and advise on legal matters

Information Technology Agency **- 0 -**

- place yearly Assessment on tax roll, programming activities

Unreimbursed Costs in Support of Assessment District

City Clerk **- 0 -**

- publish notices, schedule hearings, file construction contracts and grant agreements

Cultural Affairs Department **- 0 -**

- oversee projects in the L.A. for Kids Program, convene LVNOCs

Department of Recreation and Parks **- 0 -**

- provide construction management, provide information for the project management team, staff LVNOCs for RAP projects

TOTAL ***\$786,458***

C.6 Allocation of Accumulated Interest and Inflation Funds

Revenues for the Proposition K Program consist of the annual Assessment plus penalties and interest. The primary use of this interest is to make up shortfalls, due to taxpayer delinquencies, in the \$25 million assessed each year for program costs. A portion of the program costs is an “inflation pool” to provide for increased costs to the capital projects as a result of inflation over the 30-year life of the Proposition K Program. The assumed inflation factor has been consistently identified as three percent (3%) per year beginning from Year 2 of the program, with funding awards made on a current-year basis. The FY 2025-26 expenditure plan anticipated \$ 0 in inflation

funds that would be awarded to projects prior to June 30, 2026, to fill funding shortfalls for specified projects. The FY 2026-27 budget sets aside \$0 in inflation funds to be awarded to specified projects with shortfalls by June 30, 2027.

Excess interest can be applied to provide funding for projects with increased costs above the three percent (3%) inflationary factor, but within some other objective inflation index, such as the Producer Price Index. Excess interest funds are distributed on a priority basis to: (1) non-bonded specified projects that have a need and have not yet received the full three percent inflation allocation of inflation pool funds, (2) non-bonded specified projects that have a need and have received the three percent allocation but may receive additional inflation funds based on an objective index, and (3) bond funded projects for the time prior to their receipt of debt service (inflation) funds.

Proposition K Program interest is awarded to projects on a current-year basis, using the above criteria. For FY 2025-26 no program interest funds were awarded to projects due to the availability of sufficient program inflation funds to offset funding gaps for projects entering construction prior to the close of FY 2025-26. Any program interest funds remaining after any potential cash adjustments required for the current year, will be retained to offset potential shortfalls in future collections that may occur as a result of the current economic downturn. This will ensure the City has access to the maximum annual funding level of \$25 million in order to support Proposition K activities including the reimbursement of eligible City expenses in the upcoming year.

C.7 Summary of Improvement Cost Estimate

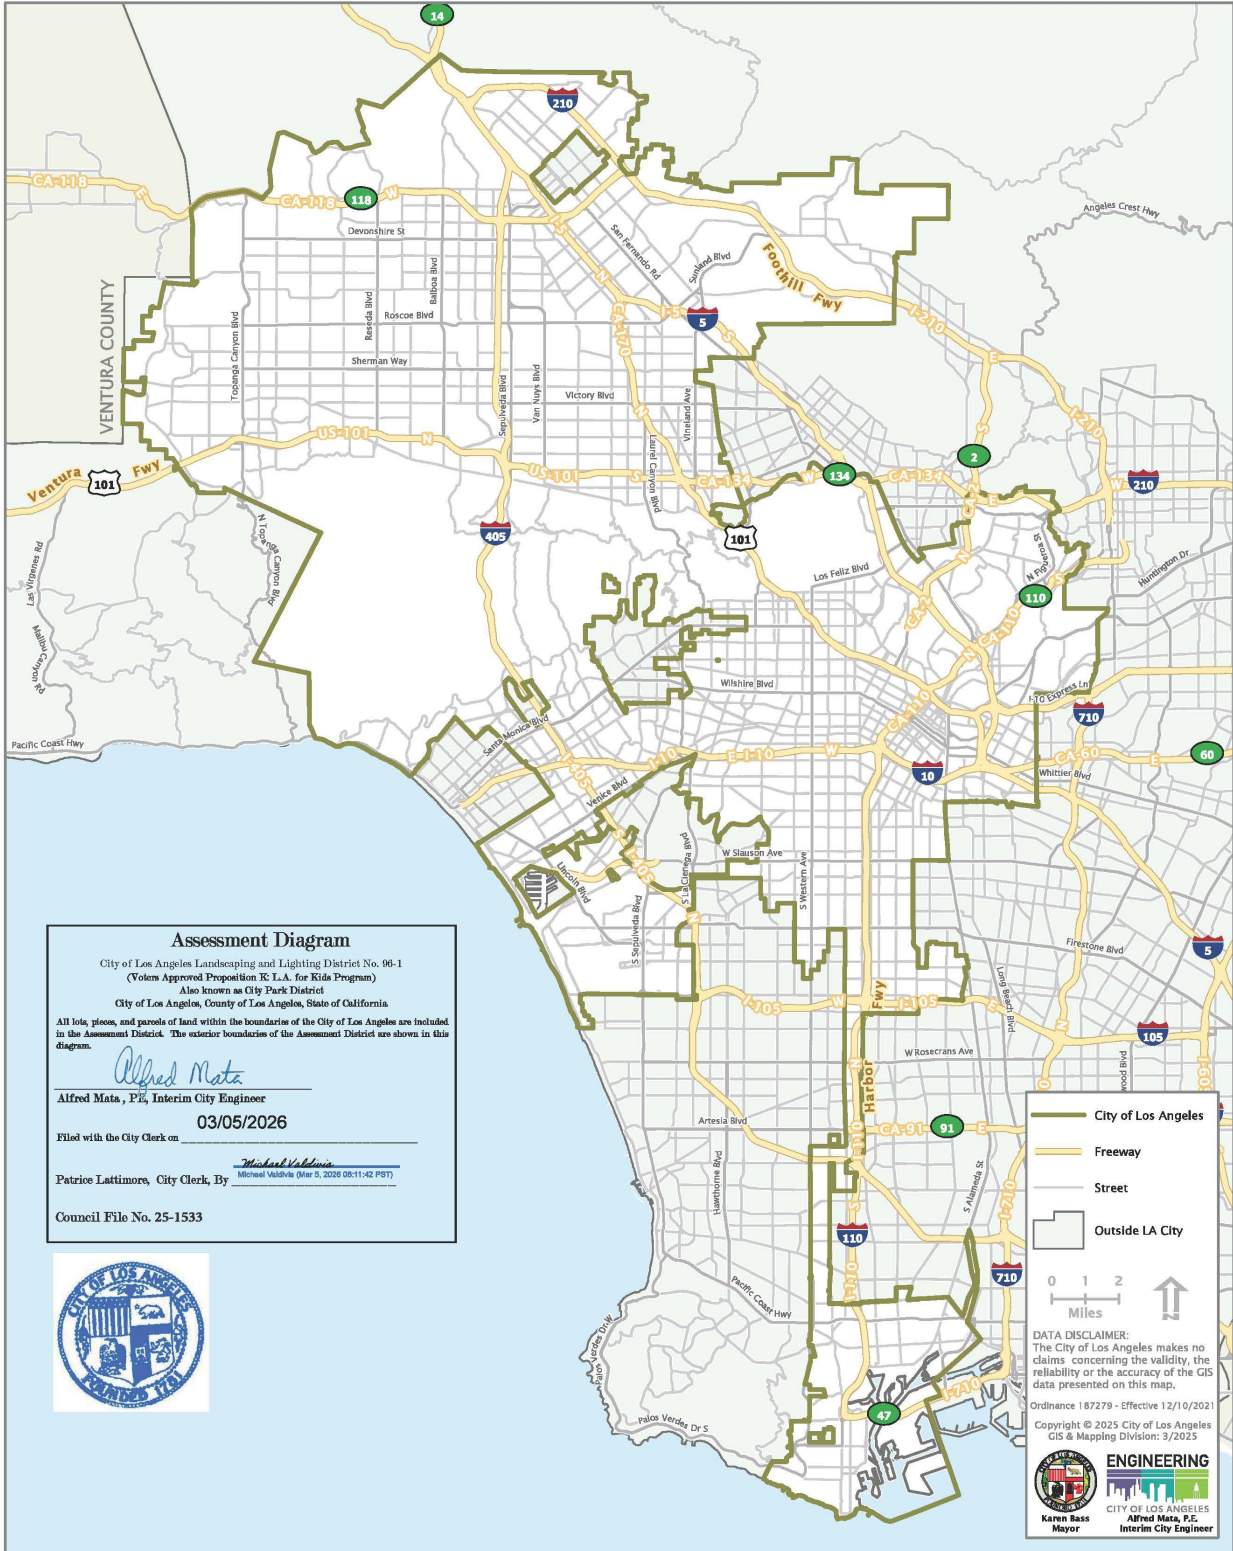

ITEMS	FY 2025-2026 Obligation Anticipated	FY 2026-27 Estimated Improvement Costs
Pre-Development	\$0	\$0
Competitive Grants	\$1,985,000	\$12,922,247
Regional Parks	\$1,192,875	\$3,500,000

PART D BOUNDARIES OF DISTRICT AND ASSESSMENT DIAGRAM

The boundaries of the District are coterminous with the boundaries of the City of Los Angeles. The diagram showing the exterior boundaries of the District and the lines and dimensions of each lot or parcel of land within the District has been submitted to the Clerk of the City of Los Angeles. A reduced scale copy is included in this Report. The lines and dimensions of each lot or parcel within the District are those lines and dimensions shown on the maps of the Assessor of the County of Los Angeles that support the secured tax roll for Fiscal Year 2025-26 and the available updates. The Assessor's maps and records are incorporated by reference herein and made part of this Report. In all cases, the Assessor's map shall govern for all details concerning the lines and dimensions of the parcels.

PART E BENEFIT ASSESSMENT FORMULA AND METHOD

E.1 General

The Landscaping and Lighting Act of 1972 provides that assessments may be apportioned by any formula or method which fairly distributes that assessment among all assessable lots or parcels in proportion to the estimated benefits from the improvements to be received by each lot or parcel. The substituting of projects in the A LIST with projects in the B LIST or C LIST will not change the benefit analysis of the special benefit received by the assessed parcels in the City, as the full benefits are assumed to accrue over the 30 year life of the Assessment, over which time frame the benefits shall be equitably distributed citywide.

E.2 Improvement Benefits

E.2.1 Benefit to Property from Park and Recreation Facilities

Studies in a number of communities, including counties and cities throughout the United States, have indicated that recreation areas and facilities, if well maintained and wisely administered, have caused a marked increase in property values of parcels in the community. Consequently, such recreation and park facilities have proved a potent factor in maintaining a sound economic condition and a high standard of livability in the community. These studies confirm the opinion long held by planning authorities as to the economic value of open spaces in a community.

"The recreation value is realized as a rise in the value of land and other property in or near the recreation area, is of both private interest to the landowner and others holding an economic stake in the area, and of public interest to the taxpayers, who have a stake in a maximum of total assessed value." (National Recreation and Park Association, June, 1985)

The benefit of parks and other recreational facilities to residential and commercial/industrial properties has been summarized by a number of studies. The United States Department of the Interior, National Park Services, in a June 1984 publication, concluded that:

- "Parks and recreation stimulate business and generate tax revenues."
- "Parks and recreation create direct and indirect job opportunities."
- "Parks and recreation help conserve land, energy, and resources."
- "An investment in parks and recreation helps reduce pollution and noise, makes communities more livable, and increases property values."
- "Public recreation benefits all employers by providing continuing opportunities to maintain a level of fitness throughout one's working life, and through helping individuals cope with the stress of a fast-paced and demanding life."

In addition, a publication of the National Recreation and Parks Association states: "Industry is demanding recreation services" and in exploring site selection is increasingly taking into account " ...the educational and recreational opportunities..." available.

Property values in a community are increased when public infrastructure such as parks, open spaces, and recreation facilities are in place, improved, operable, safe, clean and maintained. Facilities that are unsafe or destroyed by the elements or vandalism decrease surrounding property values. Park and recreation facilities are less likely to attract crime if they are well lit, clean and maintained. Clean and safe parks increase public safety, help to reduce crime and enhance the overall quality of life and desirability of an area. Property values in an area also increase when there is an increase in the number of parks, recreation centers, trail systems, sport facilities and open space areas. Conversely, property values decrease when park and recreation facilities are in disrepair, old, unsafe, unclean and unusable.

E.2.2 Benefit to property in the District from the Improvements

Assessment law provides that the benefit must be related to the land since it is the land which must bear the Assessment. The park, open spaces, and recreational improvements proposed for the District will specifically benefit the properties to be assessed by increasing the property value of each parcel in one or more of the following respects:

- 1) Increased economic value of improved property due to increased capacity to draw business, home buyers, tourists and others to the District;
- 2) Expanded employment opportunities and increased economic activity due to increased capacity to attract business;
- 3) Increased economic health of the region due to stimulation and generation of additional tax revenues;
- 4) Increased attractiveness of the District for development or redevelopment as a result of the preservation of mountains, foothills and canyons, and increased public access to these lands;
- 5) Improved environmental quality by protecting restoring and improving the District's irreplaceable beaches, wildlife parks, mountains and open space lands, and improved public access to these lands;
- 6) Improved air and water quality, capacity of roads, transportation and other public infrastructure systems as a result of more evenly dispersing recreational facilities throughout the District;
- 7) Increased attractiveness of the District as a place to work and live;
- 8) Improved recreational opportunities and expanded access to recreational facilities for all properties within the District, through improvements such as beaches, parks, trails and other public recreational facilities;
- 9) Increased safety and usability of park and recreational facilities and a corresponding decrease in crime throughout the District.

The improvements to be funded by the District are acquisition, development, improvement and restoration projects for park, recreation, beach and open space purposes. These improvement projects include: regional facilities which benefit the entire District; regional facilities which benefit large areas of the District; and neighborhood facilities which benefit smaller, local areas of the District. The improvements are distributed among these different categories of regional and local use to ensure that all areas of the District will benefit; funds for improvements are also distributed throughout all geographic areas of the District.

Regional projects, by their definition, are of area-wide benefit; therefore, the regional facilities in the City cumulatively benefit all properties within the District. As described above, the local projects are distributed throughout the proposed District and are of regional significance. The acquisition, improvement, and restoration of both local and regional parks, beaches and open space lands and recreation facilities are distributed throughout the District and therefore are of direct and specific benefit to all parcels within the District. All areas benefit equally from the proposed improvements with benefit to parcels with varying land uses.

E.3 Benefit Points

To establish the benefit to the individual parcels with varying land uses, a benefit point system is used. Each land parcel and each improvement on a land parcel is assigned benefit points in proportion to the benefit the land and the improvements (as reflected in land use) receive. The total number of points is then divided into the annual revenue requirement necessary to fund the proposed improvements to determine the benefit obligation for each point. Once the number of benefit points for each parcel has been established, the benefit obligation for each parcel is established and thus the amount of Assessment for each parcel is established.

E.3.1 Land Size Benefit

In order to fairly allocate benefit from the proposed improvements to parcels throughout the District, it is necessary to address the benefits to land and to land use. The benefit received by land varies as land varies in size. It is our finding that larger parcels benefit more than smaller parcels. To use the benefit point system, it is necessary to establish separately the benefit for each of the two elements, land size benefit and improvement benefit. To facilitate this procedure, the median single-family home is used as a standard to which all other properties are related. The median single-family home in Los Angeles City is located on a lot of approximately 1/7 of an acre in area with the relative valuation between the home and lot being 75% and 25% respectively. This relative valuation is based upon the opinion of professional appraisers, appraising current market property values for real estate in Southern California. The land value portion typically ranges from 20 to 30 percent; for this Report we are using 25 percent. This valuation is based upon current market conditions, not on assessed values, which have been skewed by the impact of Proposition 13.

The lot, therefore, has 1/3 the weight of the improvement ($.25/.75$). Assigning one benefit point to a house as the standard and using the 1/3 ratio, the lot would then represent 1/3 of a benefit point. See the discussion on "Land Use (Improvement) Benefits" below where one benefit point is assigned to a single-family house. As stated above, the median single-family home is located on a lot of approximately 1/7 of an acre; therefore, the median density for single-family residential property in the City is 7 units per acre; thus the benefit point for the typical acre occupied by single-family homes would be $7 \times 1/3$, or 2.33 benefit points per acre. This 2.33 benefit points per acre is used as the basis for assessing the land size benefit to all assessable parcels within the District.

E.3.2 Land Use (Improvement)Benefit

That portion of the benefit that inures to land use or improvement value will, of course, vary with the type of land use. This benefit for land use is condensed and segregated into three categories below, and each category is assigned portions of a benefit point (BP) relative to the percentage of improvement value it provides (see discussion under "Benefit to Property from Park and Recreation Facilities" above).

Improvement Benefit	Description	Assigned Percentage
1. Economic Value (Econ Val)	The increase to improved property value due to increased economic activity and health, expanded employment opportunities and increased capacity to draw business, home buyers, renters, tourists, etc. to the District.	.50 BP
2. Environmental Quality (Envir Qual)	The increase to improved property value due to the improved quality of air, water, visual aesthetics, attractiveness of the District as a place to live and work, etc.	.25 BP
3. Recreation Enhancement (Recr Enh)	The increase to improved property value due to the availability of useable and safe parks, beaches, and recreation facilities.	.25 BP

Benefits to land uses vary; therefore, the above factors have been assigned to each land use classification as shown in Table 1 that follows later in this Report.

E.4 Benefit Points for Different Types of Properties

E.4.1 Single-Family Residence

A single-family residence receives all three of the above benefits, therefore 1.0 BP is assigned to each single-family residence. The land upon which the home is located receives a separate benefit, which is 2.33 times the acreage of the lot upon which the home is situated. The benefit to a typical single-family residence is the summation of these two: i.e., one plus 2.33 times the area of the parcel in acres.

To assess land use benefit equitably, it is necessary to relate the different parcel classifications to each other. Using one benefit point for a single-family residential unit, all other uses are related to this.

E.4.2 Multiple-Residential and Mobile Home

Multiple-residential and mobile home land use equivalents are reduced by multiplying the number of home units on each parcel by .75 and .5, respectively, due to the relative population density of these types of dwelling units compared to the typical density of single-family units. Studies have consistently shown

that an apartment unit impacts infrastructure approximately 75% as much as a single family residence, and mobile homes impact infrastructure approximately 50% as much (Sources: Institute of Transportation Engineers Informational Report Trip Generation, Fifth Edition, 1991; Metcalf and Eddy, Wastewater Engineering Treatment Disposal Reuse. Third Edition, 1991). The reduced impact on park and recreational facility use by residents of multiple-residential and mobile homes results in a lesser enhancement per unit to property values. Therefore, the Economic Value, Environmental Quality, and Recreation Enhancement benefit points for multiple-residential and mobile homes have been uniformly reduced to 75% and 50%, respectively. (See Table 1 that follows later in this report)

The benefit points assigned to a multiple-residential or a mobile home parcel for the Land Use (Improvement) portion of the Assessment are calculated based on the number of housing units and the appropriate benefit point per housing unit. The benefit points for multi-residential (.75) are multiplied by the number of dwelling units (“DU”) on the parcel to determine the total Land Use (Improvement) benefit points for the parcel. The total Land Use (Improvement) benefit points for a mobile home parcel are calculated by multiplying the benefit point per home unit (.50) by the number of units on the parcel. The benefit points for the land size portion of the Assessment are calculated by multiplying the land area in acres by 2.33 benefit points per acre. These two amounts are then added together to obtain the total number of benefit points for the parcel.

E.4.3 Commercial/Industrial - Other

For determining the land use benefit points to be assigned for properties in commercial/industrial use, these properties are first related to the basic single-family unit. The median home in the District has a lot size of approximately 1/7 of an acre, therefore the typical single-family residential density is seven dwelling units per acre. All properties that are developed for commercial/industrial are thus assigned seven benefit points per acre for the land use portion of the parcel. Each land use category of commercial/industrial property is then evaluated as to whether or not the three components of the land use benefit point (i.e., Economic Value, Environmental Quality and Recreation Enhancement) apply to the particular land use category.

Commercial/industrial properties that have been found to receive the same benefits as residential properties from increased economic activity and health, expanded employment opportunities and increased capacity to attract business as residential properties receive .50 BP for Economic Value, as do residential properties. Certain commercial/industrial properties, such as warehouses, storage facilities and

mineral processing, mining and petroleum facilities, receive no economic benefit because these properties are not affected in any way by park and recreation improvements. All commercial/industrial properties benefit from increased environmental quality as a result of the improvements; therefore, all commercial/industrial properties are assigned a factor of .25 BP for Environmental Quality. Those properties, which are used by or which serve people, are benefited by improved and increased park and recreational facilities; they are assigned a factor of .25 BP for Recreational Enhancement. The assignments of these various benefit points are set forth in Table I that follows later in this Report.

Additionally, a higher level of use for a commercial/industrial property is identified when an improvement has multiple stories or occupies a greater percentage of the parcel than that which is the norm. To account for this, the benefit point for the property use is multiplied by a number which is proportional to the intensity of the structures and improvements contained on the property.

The typical coverage of a commercial/industrial parcel with a structure is 33%. Using this as the standard, the square footage of an improvement on a parcel, as this value is set forth in the Los Angeles County Assessor's records, is divided by one-third of the area of the parcel in square feet. The number then becomes proportional to the intensity of development on the parcel and represents an equivalent number of stories that may be found on a parcel. For the purpose of identifying this factor, it is set forth as "equivalent stories" in the benefit point equation. A minimum of one "equivalent story" will be applied to any improved commercial/industrial property. When the coverage information of a commercial/industrial parcel is not available from the County Assessor's Office, the actual number of structure stories is used instead of the "equivalent stories".

E.4.4 Vacant Property

Vacant property has no Land Use Benefits associated with it. Even if a vacant parcel is designated as commercial/industrial or residential, it receives no additional benefits because of its designation, as there are no improvements constructed upon it; therefore, vacant property receives only a Land Size Benefit of 2.33 benefit points per acre.

E.4.5 Exempt Properties

Several land uses have been determined to be exempt from the Assessment because they either do not benefit from the proposed improvements or they have restricted uses that would not be in the public interest to acquire in the event of foreclosure. Examples are common areas, open spaces, green belts,

sliver parcels, etc. Also exempt are public properties, all lands designated as agricultural, lands that have physical or legal restrictions preventing development thereon, and that portion of vacant parcels in excess of five acres. Also exempt is that portion of any partially improved single parcel that is in excess of five acres of which no use is being made. Such parcels that are partially improved will often appear on the County of Los Angeles Assessor's roll as improved.

Those parcels that are found to be so classified after field review will have their Assessments revised per this Report. This is because vacant land greater than five acres functionally serves as open space.

E.5 Modifications

It is recognized, that when dealing with the hundreds of thousands of parcels that will be part of this Assessment District, using the secondary information on the Los Angeles County Assessor's tapes as the primary source for the Assessment formula may lead to some errors and some circumstances that do not precisely fit the intent of this program.

Where such circumstances are discovered in data used for Assessments in the last five property tax years, either by the persons administrating this program, or by the owners of the properties affected, such circumstances will be reported to BOE (Proposition K Group, Recreational and Cultural Facilities Division). The function and the authority of BOE's Proposition K Group will be to recommend such corrections or adjustments for data used in the last five property tax years, with such proposed changes being consistent with the concept, intent and parameters of the programs set forth herein. Unless such proposed changes are appealed to the Council, they will be incorporated into the Assessment Roll. There will be no modifications made in the data used for Assessments beyond the last five property tax years.

E.6 Individual Assessments

In accordance with Section 22565 *et seq.*, of the Code, the net amount of the Assessment to each parcel, as shown on the County of Los Angeles Assessment Roll, will be computed in the following steps:

1. Classify each parcel by land use as shown on the County of Los Angeles Assessor's Roll.
2. Assign benefit points (BPs) to each parcel based on the following formulas:

For Residential Properties:

Residential BPs

$$\begin{aligned} &= \text{Improvements BPs} + \text{Land Size BPs} \\ &= (\text{Economic Value BP} + \text{Environmental Quality BP} + \text{Recreation Enhance BP}) \\ &* \text{No Units} + (2.33 \text{ BPs/acre}) * \text{Parcel Acreage} \end{aligned}$$

For Commercial Properties:

Commercial BPs

$$\begin{aligned} &= \text{Improvement BPs} + \text{Land Size BPs} \\ &= [(\text{Econ Val BP} + \text{Envir Qual BP} + \text{Recr Enh BP})/\text{acre} * 7 \text{ BP} * \text{Parcel Acreage} \\ &* \text{No. Equivalent Stories (1)}] + [(2.33 \text{ BPs/acre}) * \text{Parcel Acreage}] \end{aligned}$$

⁽¹⁾ No. Equivalent Stories is the number of stories measured by dividing the parcel's improved square feet by one-third of the parcel area (Improved Square feet/ 1/3 x Parcel Square Feet).

3. Divide the annual amount to be collected by the sum of all benefit points to determine the Assessment per benefit point. For example, **\$13.45** per benefit point, a median single-family residence would have an annual Assessment of **\$17.93** (**1.3329** benefit points times **\$13.45** = **\$17.93**).

The total assessment to be levied on each parcel will be the sum of the annual Assessment per parcel over 30 years. The Benefit Points for the annual Assessment for each parcel will remain in effect unless and until the property is reclassified into another land use category, at which time the Benefit Points for the Assessment for that parcel will be recalculated.

**ENGINEER'S REPORT
CITY OF LOS ANGELES
LANDSCAPING AND LIGHTING DISTRICT NO. 96-1
(Pursuant to the Landscaping and Lighting act of 1972)**

The undersigned respectfully submit the report as directed by the City Council.

DATE: _____

By _____
Alfred Mata , PE
Interim City Engineer

I HEREBY CERTIFY that the Engineer's Report, together with Assessment and Assessment Diagram thereto attached, was filed with me on the _____ day of _____, 2026.

PATRICE LATTIMORE, City Clerk

By _____

I HEREBY CERTIFY that the Engineer's Report, together with Assessment and Assessment Diagram thereof attached, was approved and confirmed by the City Council of the City of Los Angeles, California, on the ____ day of _____ JUNE, 2026.

PATRICE LATTIMORE, City Clerk

By _____

I HEREBY CERTIFY that the Engineer's Report, together with Assessment and Assessment Diagram thereto attached, will be filed with the County Auditor of the County of Los Angeles no later than August 10, 2026.

PATRICE LATTIMORE, City Clerk

By _____

Date: _____

APPENDICES

A. Sample Benefit Point (BP) Calculations:

1. Residential Properties:

Residential BPs

$$= [\text{Improvements BPs}] + [\text{Land Size BPs}]$$
$$= [(\text{Economic Value BP} + \text{Environmental Quality BP} + \text{Recreation Enhance BP})$$
$$* \text{No Units}] + [(2.33 \text{ BPs/acre}) * \text{Parcel Acreage}]$$

The following are examples of Residential Assessments:

Median Single Family Residence (SFR) (1 home on 1/7 acre) BPs

$$= [(.5 + .25 + .25) \text{ BP/unit} * 1 \text{ home}] + (2.33 * 1/7 \text{ ac}) \text{ BPs}$$
$$= \mathbf{1} \text{ Improvement BP} + \mathbf{0.3329} \text{ Land Size BP}$$
$$= \mathbf{1.3329} \text{ BPs}$$

SFR (1 home on 1/4 acre) BPs

$$= [(.5 + .25 + .25) \text{ BP/Unit} * 1 \text{ home}] + (2.33 \text{ BP/acre} * 1/4 \text{ ac})$$
$$= \mathbf{1} \text{ Improvement BP} + \mathbf{0.5825} \text{ Land Size BP}$$
$$= \mathbf{1.5825} \text{ BPs}$$

Multi-Family (MF) (25 units on 1/3 acre) BPs

$$= [(.375 + .1875 + .1875) \text{ BP/unit} * 25 \text{ MF units}] + (2.33 \text{ BP/acre} * 1/3 \text{ ac})$$
$$= \mathbf{18.75} \text{ Improvement BPs} + \mathbf{.7777} \text{ Land Size BP}$$
$$= \mathbf{19.5277} \text{ BPs}$$

Mobile Homes (100 units on 1/2 acre) BPs

$$= [(.25 + .125 + .125) \text{ BP/unit} * 100 \text{ homes}] + (2.33 \text{ BP/ac} * 1/2 \text{ acre})$$
$$= \mathbf{50} \text{ Improvement BPs} + \mathbf{1.165} \text{ Land Size BPs}$$
$$= \mathbf{51.165} \text{ BPs}$$

2. Commercial Properties:

Commercial BPs

= Improvement BPs + Land Size BPs

= [(Econ Val BP + Envir Qual BP + Recr Enh BP)/acre * 7 BP * Parcel Acreage * No. Equivalent Stories (1)] + [(2.33 BPs/acre) * Parcel Acreage]

⁽¹⁾ No. Equivalent Stories is the number of stories measured by dividing the parcel's improved square feet by one-third of the parcel area (Improved Square Feet/ 1/3 x Parcel Square Feet).

The following are examples of varying commercial or industrial Assessment calculations:

Office (3 stories, 1/2 acre) BPs

= [(**.5** + **.25** + **.25**) BP/acre * **3** stories * **7** BP/ac * **1/2** ac] + (**2.33** BP/ac * **1/2** ac)
= **10.5** Improvement BPs + **1.1650** Land Size BPs
= **11.6650** BPs

Parking Lot (1 acre) BPs

= [(**0** + **.25** + **0**) BP/ac * **1** story * **7** BP/ac * **1** ac] + (**2.33** BP/ac * **1** ac)
= **1.75** Improvement BPs + **2.33** Land Size BPs
= **4.08** BPs

Vacant Land

= Improvement BPs + Land Size BPs
= (**Zero** Improvement BPs) + (**2.33** BPs/acre) * Parcel Acreage

An example of a vacant parcel's Assessment computation follows:

Vacant Land (10 Acres) BPs

= **0** BP + (2.33 BP/acre * 10 ac)
= **0** Improvement BPs + **23.3** Land Size BPs
= **23.3000** BPs

REFERENDUM ORDINANCE K
PROPOSED REFERENDUM ORDINANCE FOR CITY-WIDE PARKS,
RECREATION AND COMMUNITY FACILITIES ASSESSMENT

AN ORDINANCE ORDERING FORMATION OF
AN ASSESSMENT DISTRICT PURSUANT TO PROVISIONS OF
THE LANDSCAPING AND LIGHTING ACT OF 1972
(DIVISION 15, PART 2, STREETS AND HIGHWAYS CODE,
STATE OF CALIFORNIA)

WHEREAS, parks, recreation and community facilities in the City of Los Angeles comprise the City's youth infrastructure and are an important part of providing positive alternatives for youth; and

WHEREAS, the City's youth infrastructure is inadequate or decaying in many places, resulting in serious unmet needs for park, recreation and community facilities; and

WHEREAS, the current condition of the City's youth infrastructure is detrimental to the residential and business climate and value of real property; and

WHEREAS, it is in the best interest of the residents, business owners and operators and property owners of the City that an assessment district be formed, which is coterminous with the City, to fund the purposes of the assessment district consistent with the plan of expenditures set forth in the City Engineer's Report referred to below; and

WHEREAS, the City Council on May 14, 1996, adopted an Ordinance of Intention to order the formation of an assessment district for park and recreation improvement purposes pursuant to the provisions of the Landscaping and Lighting Act of 1972; and

WHEREAS, the City Council gave notice in the manner required by law of the time and place for a public meeting and a public hearing on the question of formation of the District and levy of the proposed assessment; and

WHEREAS, a public meeting was held on June 4, 1996, and a public hearing was held on July 9, 1996, and the City Council has heard protests, testimony, evidence and public comment and the City Clerk has determined that a majority protest does not exist; and

WHEREAS, this Ordinance shall not take effect unless and until the question of approval of the matters set forth herein shall have been submitted to the electorate of the City and approved by a majority of voters voting on the question;

NOW THEREFORE, the People of the City of Los Angeles do ordain as follows:

SECTION 1. This ordinance is adopted pursuant to Section 22594 of the California Streets and Highways Code. The City Council orders the formation of an assessment

district, pursuant to the provisions of the Landscaping and Lighting Act of 1972, to be known as City of Los Angeles Landscaping and Lighting District 96-1.

SECTION 2. The City Council hereby adopts, approves and confirms the final City Engineer's report filed with the City Clerk, including the diagram for the Assessment District and the Assessment. The Assessment is levied within the City in accordance with the City Engineer's Report and this Ordinance at a rate not to exceed the amount set forth in the City Engineer's Report. The City Engineer's Report describes the boundaries of the Assessment District, the locations of certain of the improvements to be funded by the District, the method and rationale for spreading the proposed assessment in proportion to the benefit received by each lot or parcel of land within the District. Each of the protests to the Assessment has been considered and is hereby denied. The City Engineer's Report is by this reference incorporated herein as though set forth in full.

SECTION 3. The City Council finds, determines and declares that:

- (a) The acquisition, development, improvement, restoration and maintenance of parks, recreation and community facilities confers a direct and special benefit to all parcels in the City by improving economic, environmental, and recreational conditions and by improving the availability and utility of and access to parks, recreation and community facilities for each parcel, all resulting in maintained or enhanced property values; and
- (b) The properties referred to in the City Engineer's Report which are proposed to be assessed are benefitted by the acquisitions and improvements provided for and the Assessment is spread in proportion to the benefits; and
- (c) The written protests filed and not withdrawn prior to the conclusion of the public hearing do not represent property owners owning more than 50 percent of the assessable lands within the proposed district; and
- (d) The public interest, convenience and necessity require the creation of the City of Los Angeles Landscaping and Lighting District 96-1 to acquire, improve and maintain parks, recreation and community facilities City-wide.

SECTION 4. As used in this Ordinance the following terms have the indicated meanings:

"Assessment" means the assessment levied within the City pursuant to this Ordinance.

"Assessment District" or "District" means City of Los Angeles Landscaping and Lighting District 96-1, the boundaries of which shall be coterminous with the boundaries of the City.

"Code" means the Streets and Highways Code of California.

"Nonprofit Organization" means any charitable organization described in Section 501 (c)(3) of the Internal Revenue Code of 1986, as amended, which has among its purposes the provision of park,

recreation or community services or facilities, providing services to youth, or providing gang prevention and intervention services.

“Park” means a tract, lot or parcel of land with scenic, natural, open-space or recreational values, set apart to conserve natural, scenic, cultural, historical or ecological resources for present and future generation, and to be used by the public as a place for rest, recreation, education, exercise, inspiration or enjoyment.

SECTION 5. Funds shall be used for the purposes set forth in Attachment A hereto. Should any project become infeasible for any reason determined by the City Council or there are project savings, the City Council may reprogram the applicable funds during the process described in Section 13.

SECTION 6. In order to receive any funds pursuant to Section 5, nonprofit organizations, government entities and City departments must demonstrate the financial ability to provide programming and programming staff once the capital improvements are completed. The City Council by ordinance will establish an open and competitive process to allocate funds designated in Section 5 for competitive grants, which will be available to nonprofit organizations, governmental entities and City departments for projects within the boundaries of the City. All funds for competitive grants shall be expended equitably city-wide. Priority for competitive grants will be given to projects which address one or more of the following criteria:

- (a) Include an at-risk youth component, either by including training and employment of at-risk youth to implement the project or by providing facilities to serve at-risk youth;
- (b) Serve an area without similar services or facilities;
- (c) Permit expansion of an established, successful program to serve a larger population or to provide an increase in services;
- (d) Demonstrate community support;
- (e) Demonstrate high cost-effectiveness;
- (f) Demonstrate readiness of project;
- (g) Demonstrate sustainability of project;
- (h) Meet such other criteria as may be established by the City Council.

Regulations to administer these competitive grants shall be promulgated by an administering entity designated by the City Council by ordinance as specified in Section 9.

SECTION 7. Any park or facility acquired, developed, rehabilitated or restored with funds derived under this Ordinance shall be open and accessible to the public without discrimination as to race, color, sex, sexual orientation, age, religious belief, national origin, marital status, physical or medical handicap or medical condition.

SECTION 8. Reasonable public access to lands and facilities acquired with funds made available pursuant to this Ordinance shall be provided except where that access may interfere with resources protection. "Reasonable public access" includes, but is not limited to, parking and public restrooms.

SECTION 9. The expenditure of assessment funds and the overall management of the program projects, which together shall be known as the L.A. FOR KIDS Program, shall be administered by the City Council or by a City entity designated by the City Council by ordinance, which shall report to the City Council annually on the status of the L.A. FOR KIDS Program and shall provide for public distribution of the annual report.

SECTION 10. The City Council shall establish Volunteer Neighborhood Oversight Committees in various areas of the City to advise the City on setting priorities for when projects will be done, advise on the design of projects and prepare annual reports to the City Council on the status of the projects.

SECTION 11. The Assessment is hereby levied for a period of 30 years at the rate set forth in the City Engineer's Report to fund the acquisitions, capital improvements, and maintenance and servicing of those improvements as set forth in Section 5.

SECTION 12. For the 30 years during which the Assessment is levied and collected:

- (a) 82% shall be used for acquisitions and capital improvements, as set forth in Section 5, inflationary increases over 30 years and debt service, if bonds, notes or other evidences of indebtedness are issued. All funds collected through interest or penalties shall be available to cover inflationary increases in acquisition and capital improvement costs over 30 years and debt service, if bonds, notes or other evidences of indebtedness are issued;
- (b) 3% of the total assessment over 30 years shall be designated for incidental costs which shall include administrative costs of the City; and
- (c) 15% of the total assessment over 30 years shall be designated for maintenance of completed acquisitions and improvements.

SECTION 13. Pursuant to Code Sections 22620 through 22631, proceedings shall be taken for each year in which the annual assessment is to be levied. A plan shall be submitted to the City Council by the administering entity specified in Section 9 each year the annual assessment is to be levied specifying in detail which acquisitions and improvements are planned for that year, any proposed new acquisitions and improvements, or any substantial changes in existing improvements. The City Council shall then order the City Engineer to prepare a report for consideration by City Council. The City Council shall then adopt an ordinance of intention pursuant to Code Section 22624 and provide notice of a public hearing pursuant to Code Section 22626. The City Council shall then adopt an ordinance confirming the diagram of the assessment and the assessment by June 30 of each fiscal year the assessment is to be levied.

SECTION 14. The City Council shall have the authority to issue bonds, notes or other evidences of indebtedness to fund all or a portion of the costs of the projects listed in Section 5 of this Ordinance. Such bonds, notes or other evidences of indebtedness may be issued in one or more series at such times and in such principal amounts as the City Council may determine in its sole discretion.

SECTION 15. (a) The Assessment for each parcel shall be collected by and be payable to the Los Angeles County Tax Collector with the general taxes levied for City and County purposes and shall be subject to the same penalties and enforcement provisions relating to general taxes or as provided in Code Section 22646.

(b) If any portion of the levy, collection or expenditure of the Assessment provided for herein is declared invalid or unconstitutional, the remaining levy, collection or expenditure shall not be affected but remain in full force and effect.

SECTION 16. There is hereby established a special fund in the City Treasury entitled Parks Assessment Fund (the "Fund"). All Assessments collected shall be deposited into the Fund and shall not be subject to reversion to the Reserve Fund. Interest, which accrues in the Fund, shall remain in the Fund. Monies deposited into the Fund shall be expended only for park, recreation and community facilities, incidental expenses, and maintenance and servicing for the improvements. Expenditures shall be made from the Fund as provided in the General City Budget or by Council resolution unless provided otherwise by ordinance.

SECTION 17. In case any provision of this Ordinance shall be found or declared invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions of this Ordinance shall not be affected or impaired thereby.

SECTION 18. This Ordinance shall not take effect unless approved by a majority of the voters of the City voting on the matter at a general or special election called by the City Council for such purpose. If so approved by the voters the District and the Assessment shall be deemed approved as of the date of the election, without regard to the date of certification of the election results.

ATTACHMENT A: Proposed Project List

FACILITY	CD	PROJECT	COST
REGIONAL PARKS			
ANGELS GATE PARK	REG	IMPLEMENTATION OF MASTER PLAN IMPROVMTS AND PERIMETER FENCING	\$2,000,000

ATTACHMENT 1: ONE YEAR PLAN FOR PROGRAM YEAR 30

ATTACHMENT 2: A LIST OF PROJECTS (YEAR 30)

ATTACHMENT 3: B LIST OF PROJECTS FOR PROGRAM YEAR 30

ATTACHMENT 4: C LIST: REMAINING UNFUNDED AND/OR UNDERFUNDED PROJECTS

NOTE: For purposes of the 2026-27 Proposition K Assessment Report, the above-listed attachments are presented as attachments to the Assessment Report, with the same attachment number as listed above. Once those attachments are approved by the City Council, the final approved attachment documents will be incorporated into the final Engineer's Report that will be filed with the City Clerk and the County Clerk and will be submitted to the County Assessor and the County Auditor-Controller as part of the documentation required to process collection of the 2026-27 Proposition K assessment through the property tax bills sent to affected property owners.

RESOLUTION

A Resolution of Intention to Levy and Collect Annual Assessments for the fiscal year 2026-27 for City of Los Angeles Landscaping and Lighting District No. 96-1, pursuant to provisions of the Landscaping and Lighting Act of 1972 (California Streets and Highways Code Sections 22500-22679).

WHEREAS, on November 5, 1996, voters in the City of Los Angeles approved Proposition K (also known as the L.A. for Kids Program), which authorized the formation of City of Los Angeles Landscaping and Lighting District No. 96-1 (District) and approved the levy and collection of an annual assessment of \$25 million within the District for a period of thirty (30) years for the purpose of funding the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities;

WHEREAS, the proposed assessments received approval of a majority of the voters prior to the passage of Proposition 218, and therefore are exempt from the procedures and approval process set forth in Section 4 of Proposition 218;

WHEREAS, the Los Angeles City Council on January 21, 2026, adopted a resolution instructing the City Engineer to prepare a report and ordinance of intention pursuant to the provisions of the Landscaping and Lighting Act of 1972 (California Streets and Highways Code Sections 22500 – 22679); and

WHEREAS, the total net amount proposed to be assessed in the District for fiscal year 2026-27 is not an increase from the amount authorized by Proposition K.

NOW, THEREFORE,

**THE COUNCIL OF THE CITY OF LOS ANGELES
HEREBY RESOLVES AS FOLLOWS:**

Section 1. The City Council hereby declares its intention to determine that the public interest, convenience and necessity require the levy and collection of assessments for the fiscal year 2026-27 in City of Los Angeles Landscaping and Lighting District No. 96-1, to provide funding for the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities in the District.

Sec. 2. The City Council hereby adopts, approves and confirms the Engineer's Report, which includes the L.A. for Kids Steering Committee ONE YEAR PLAN, the A LIST of the improvement projects, and the diagram for the District and the Assessment; orders the report be filed with the City Clerk; and sets the matter for public hearing as specified herein in Section 8. The L.A. for Kids Steering Committee ONE YEAR PLAN

(Plan) specifies in detail which acquisitions and improvements are planned for fiscal year 2026-27, and describes the locations of the improvements to be funded by the District. The A LIST of the Plan includes projects planned for fiscal year 2026-27. All projects on the A LIST are subject to environmental analysis pursuant to the California Environmental Quality Act (CEQA), and the environmental analysis process has already been completed or will be completed prior to adoption of the ordinance ordering confirmation, levy and collection of annual assessment or as required by law. A Categorical Exemption, Environmental Impact Report, Mitigated Negative Declaration, or Negative Declaration has been or is being prepared and a Notice of Exemption or Notice of Determination has been or will be filed when applicable. The Engineer's Report also describes the boundaries of the Assessment District, and the method and rationale for spreading the proposed assessment in proportion to the benefit received by each lot or parcel of land within the District. The Engineer's Report is incorporated herein as though set forth in full.

Sec. 3. The City Council hereby reaffirms that the boundaries of the City of Los Angeles Landscaping and Lighting District No. 96-1 shall be coterminous with the boundaries of the City of Los Angeles. Every lot or each parcel of land within the City boundaries shall be included in the District.

Sec. 4. The City Council hereby declares that the public interest, convenience, and necessity require, and that it is the intention of said City Council to order, that the expense necessary for the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities, including repairs, replacement, utilities, care, supervision, and all other items necessary for proper maintenance and operation of the Assessment District improvements shall be assessed upon each lot or parcel of land lying within the District in proportion to the estimated benefits received from the improvements.

Sec. 5. The City Council hereby declares that the amounts to be assessed for the expense of such acquisition of land or land and improvements, and of the development, improvement, restoration, and maintenance of improvements funded by the District, shall be levied and collected at the same time and in the same manner and by the same officers as County property taxes are levied and collected. All laws providing for the collection and enforcement of County property taxes shall be applied to the collection and enforcement of the assessments, and all assessments collected shall be disbursed and expended for the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities in the District, all as described in the Engineer's Report.

Sec. 6. The City Council hereby declares that any lot or parcel of land owned by a public agency such as a city, County, State and the federal government, will not be assessed except when such property is not devoted to a public use. Rights-of-way that are owned by public utilities and railroad operating rights-of-way are also exempt from

assessment.

Sec. 7. The City Council hereby declares that the proceedings for the levy and collection of assessments of the aforesaid District shall be in accordance with the State of California Landscaping and Lighting Act of 1972 (California Streets and Highways Code Sections 22500 – 22679).

Sec. 8. The City Council hereby sets a public hearing on the day of May 26, 2026 at the hour of 10:00 a.m., or as soon thereafter as City Council business permits, and on any hours and days for continued hearing as ordered by the City Council, in the John Ferraro Council Chamber, Room 340, City Hall, 200 North Spring Street, Los Angeles, California, as the time and place when and where any and all persons having any objections to the levy and collection of the assessments for the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities for the District, may appear before the City Council and show cause why the expense of the acquisition of any land or land and improvements, developing, improving, restoring, and maintaining these improvements, and the installation and construction of any facilities necessary or convenient to the District, should not be assessed as described and proposed herein.

Sec. 9. Written Protest; Grounds; Withdrawal: Any interested person may, prior to the conclusion of the public hearing, file a written protest with the City Clerk or, having previously filed a protest, file a written withdrawal of that protest. A written protest shall state all grounds of objection. Protest by a property owner shall contain a description sufficient to identify the property owned by that person.

Sec. 10. The City Clerk shall cause the notice of the public hearing, in the form and manner specified in Section 6061 of the California Government Code, to be published in a newspaper published at least once a week and circulated in the City of Los Angeles, which is hereby designated for that purpose. The publication of notice shall be completed at least ten calendar days before the public hearing date.

Sec. 11. This resolution shall take effect upon its passage.

Attachment 9

I hereby certify that this Resolution was approved by the Council of the City of Los Angeles at its meeting of _____.

PATRICE LATTIMORE, City Clerk

By _____
Deputy

File No. 25-1533

ORDINANCE NO. _____

An ordinance of intention to levy and collect Proposition K annual assessments for fiscal year 2026-27 for City of Los Angeles Landscaping and Lighting District No. 96-1.

WHEREAS, on November 5, 1996, voters in the City of Los Angeles approved Proposition K (also known as the L.A. for Kids Program), which authorized the formation of City of Los Angeles Landscaping and Lighting District No. 96-1 (District) and approved the levy and collection of an annual assessment of \$25 million within the District for a period of thirty (30) years for the purpose of funding the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities;

WHEREAS, the proposed assessments received the approval of a majority of the voters prior to the passage of Proposition 218, and therefore are exempt from the procedures and approval process set forth in Section 4 of Proposition 218;

WHEREAS, the Los Angeles City Council on January 21, 2026, adopted a resolution instructing the City Engineer to prepare a report and ordinance of intention pursuant to the provisions of the Landscaping and Lighting Act of 1972 (California Streets and Highways Code Sections 22500 – 22679); and

WHEREAS, the total net amount proposed to be assessed in the District for fiscal year 2026-27 is not an increase from the amount authorized by Proposition K.

NOW, THEREFORE,

**THE PEOPLE OF THE CITY OF LOS ANGELES
DO ORDAIN AS FOLLOWS:**

Section 1. The City Council hereby declares its intention to determine that the public interest, convenience and necessity require the levy and collection of assessments for the fiscal year 2026-27 in City of Los Angeles Landscaping and Lighting District No. 96-1, to provide funding for the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities in the District.

Sec. 2. The City Council hereby adopts, approves, and confirms the Engineer's Report, which includes the L.A. for Kids Steering Committee ONE YEAR PLAN, the A LIST of the improvement projects, and the diagram for the District and the Assessment; orders the report be filed with the City Clerk; and sets the matter for public hearing as specified herein in Section 8. The L.A. for Kids Steering Committee ONE YEAR PLAN (Plan) specifies in detail which acquisitions and improvements are planned for fiscal

year 2026-27, and describes the locations of the improvements to be funded by the District. The A LIST of the Plan includes projects planned for fiscal year 2026-27. All projects on the A LIST are subject to environmental analysis pursuant to the California Environmental Quality Act (CEQA), and the environmental analysis process has already been completed or will be completed prior to adoption of the ordinance ordering confirmation, levy and collection of annual assessment or as required by law. A Categorical Exemption, Environmental Impact Report, Mitigated Negative Declaration, or Negative Declaration has been or is being prepared, and a Notice of Exemption or Notice of Determination has been or will be filed when applicable. The Engineer's Report also describes the boundaries of the Assessment District, and the method and rationale for spreading the proposed assessment in proportion to the benefit received by each lot or parcel of land within the District. The Engineer's Report is incorporated herein as though set forth in full.

Sec. 3. The City Council hereby reaffirms that the boundaries of the City of Los Angeles Landscaping and Lighting District No. 96-1 shall be coterminous with the boundaries of the City of Los Angeles. Every lot or each parcel of land within the City boundaries shall be included in the District.

Sec. 4. The City Council hereby declares that the public interest, convenience, and necessity require, and that it is the intention of the City Council to order, that the expense necessary for the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities, including repairs, replacement, utilities, care, supervision, and all other items necessary for proper maintenance and operation of the Assessment District improvements shall be assessed upon each lot or parcel of land lying within the District in proportion to the estimated benefits received from the improvements.

Sec. 5. The City Council hereby declares that the amounts to be assessed for the expense of such acquisition of land or land and improvements, and of the development, improvement, restoration, and maintenance of improvements funded by the District, shall be levied and collected at the same time and in the same manner and by the same officers as County property taxes are levied and collected. All laws providing for the collection and enforcement of County property taxes shall be applied to the collection and enforcement of the assessments, and all assessments collected shall be disbursed and expended for the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities in the District, all as described in the Engineer's Report.

Sec. 6. The City Council hereby declares that any lot or parcel of land owned by a public agency such as a city, County, State and the federal government, will not be assessed except when such property is not devoted to a public use. Rights-of-way that are owned by public utilities and railroad operating rights-of-way are also exempt from assessment.

Sec. 7. The City Council hereby declares that the proceedings for the levy and collection of assessments of the aforesaid District shall be in accordance with the State of California Landscaping and Lighting Act of 1972 (California Streets and Highways Code Sections 22500 – 22679).

Sec. 8. The City Council hereby sets a public hearing on the day of May 26, 2026 at the hour of 10:00 a.m., or as soon thereafter as City Council business permits, and on any hours and days for continued hearing as ordered by the City Council, in the John Ferraro Council Chamber, Room 340, City Hall, 200 North Spring Street, Los Angeles, California, as the time and place when and where any and all persons having any objections to the levy and collection of the assessments for the acquisition of land or land and improvements, and for the development, improvement, restoration, and maintenance of improvements funded by the District, for parks, open spaces, and recreation and community facilities for the District, may appear before the City Council and show cause why the expense of the acquisition of any land or land and improvements, developing, improving, restoring, and maintaining these improvements, and the installation and construction of any facilities necessary or convenient to the District, should not be assessed as described and proposed herein.

Sec. 9. Written Protest; Grounds; Withdrawal: Any interested person may, prior to the conclusion of the public hearing, file a written protest with the City Clerk or, having previously filed a protest, file a written withdrawal of that protest. A written protest shall state all grounds of objection. Protest by a property owner shall contain a description sufficient to identify the property owned by that person.

Sec. 10. The City Clerk shall cause the notice of the public hearing, in the form and manner specified in Section 6061 of the California Government Code, to be published in a newspaper published at least once a week and circulated in the City of Los Angeles, which is hereby designated for that purpose. The publication of notice shall be completed at least ten calendar days before the public hearing date.

Sec. 11. The City Clerk shall certify to the passage of this ordinance and have it published in accordance with City Council policy, either in a daily newspaper circulated in the City of Los Angeles or by posting for ten days in three public places in the City of Los Angeles: one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall; one copy on the bulletin board located at the Main Street entrance to the Los Angeles City Hall East; and one copy on the bulletin board located at the Temple Street entrance to the Los Angeles County Hall of Records.
