

Office of the City Administrative Officer Risk Management

Owner Controlled Insurance Program (OCIP)

Contact Person: Scott Goldstein, Risk Manager (213) 978-7662

OCIP: An OCIP is a single insurance program put together to cover the owner, construction manager, contractors and subcontractors.

Benefits:

- Maximizes buying power of City through bulk purchasing leverage.
- Provides broader coverage and higher dedicated limits.
- Protects City for its “active negligence” which is not covered under contractor provided insurance pursuant to Section 11580.04 of the California Insurance Code.
- Helps to expand pool of qualified subcontractors to include locally owned and minority contractors since insurance is provided. Also helps firms to establish favorable experience modification factor for future projects.
- Promotes greater safety awareness and protects City from fines under Cal/OSHA multi-employer worksite regulations (T8 CCR Section 336.10).
- Reduces litigation and claim costs.

1. Control

- Dedicated Insurance Limits to Project
- Uniform and Broader Insurance Coverage
- Coordinated Project-wide Claims/Safety Program
- Easier Transition From Construction to Operation

2. Costs Reduction

- Reduce Insurance Premiums
- Save 1% of Construction Hard Costs
